Product Description

High concentrated Ginger flower essence Fragrance For Diffuser

LDZ-PL30132

Product Descriptions:

"Ginger Flower" fragrance oil for diffusers aims to capture the unique and often exotic aroma of ginger blossoms. Unlike the spicy, root-like scent of ginger rhizomes, ginger flowers typically offer a more delicate, sweet, and sometimes slightly spicy or citrusy fragrance.

Its core note is floral, often described as fresh, sweet, and sometimes creamy or powdery.

Unlike the intense spiciness of ginger root, the spiciness of ginger flower is very subtle and more aromatic, adding a warm and charming undertone to the fragrance rather than a pungent sensation. At the same time, it often has a natural sweetness that makes the fragrance more pleasant and uplifting. Some ginger flower varieties may also have bright citrus notes, adding a touch of vitality and freshness. Overall, this aroma often evokes associations with tropical and exotic flowers. Depending on the different formulations, the fragrance oil may also appear fresh, clean or slightly green.

"Ginger Flower" diffuser fragrance oil uses selected ingredients of high-quality raw materials to restore the real ginger flower scent.
