Product Description

Pure Miss Di or Fragrance For Perfume Making With Free Sample

LDZ-PL10036

Product Description:

"Miss Di or" is a classic and elegant floral chypre fragrance, known for its warm, delicate and slightly bold femininity. Its fragrance structure usually includes:

Top note: Fresh and bright citrus notes (such as bergamot, citrus), which may be accompanied by lively fruity notes (such as wild strawberry leaves) or a hint of spiciness (such as pink pepper), bringing initial vitality.

Middle note: A rich floral core, mainly Grasse rose or Centifolia rose, often accompanied by sweet jasmine, fresh peony, lily of the valley, and sometimes the powdery texture of iris. These floral notes constitute the core feminine charm of the perfume.

Base note: A long-lasting and deep base note, the iconic patchouli brings earth, wood and a hint of sweetness, blending with soft musk, warm wood notes (such as sandalwood or cedar), vanilla and tonka beans, giving the perfume an elegant and lasting aftertaste.

For perfume making, recreating a "Miss Di or" type of scent requires focusing on balancing the fresh top notes, rich floral middle notes and classic chypre base notes.

Product Feature:

The "Miss Di or" perfume is a classic feminine fragrance that is extremely representative of perfume making. Its core feature is the elegant floral chypre structure, which cleverly combines fresh and bright citrus top notes, rich and multi-layered floral middle notes (centered on rose and jasmine) and deep and lasting wood and patchouli base notes.

This perfume symbolizes exquisite, soft and confident femininity. Its iconic aroma balance and rich layering provide a clear and inspiring framework for perfume creators. It not only embodies the charm of classic perfume, but also shows its versatility through modern interpretation.
