Product Description

100% Pure Miss Di or Cherie Fragrance Essence For Perfume Making With Free sample LDZ-PL10051

Product Description:

This "Miss Di or Chérie" fragrance essence is not a simple reproduction of the classic, but a more modern and sophisticated interpretation of its iconic sweet base. It retains the opening of bright and lively blood orange and sweet strawberry leaves, but we cleverly add slightly bitter pink grapefruit peel to add an unexpected freshness and vitality to the top note, making it lighter and more lively in sweetness.

In the core fragrance, the classic jasmine and rose are given a more delicate texture. We selected the richness of Grasse rose and the softness of Centifolia rose, and incorporated fresh sweet peas and a hint of aquatic jasmine to weaken the richness of traditional floral fragrances, bringing a more fresh and layered modern floral experience. The iconic popcorn element is presented in a more delicate and caramelized way, avoiding overly straightforward sweetness, adding a touch of warm and tempting gourmet feeling, and making it more unique.

In the treatment of the base note, the classic patchouli is extracted in a purer and more penetrating way, and cleverly blended with warm amber and smooth vanilla, abandoning the heavy earthy feeling of traditional patchouli, giving the fragrance a more modern, more sensual and long tail rhyme, gentle and charming, leaving a lingering and exquisite mark.

The final result is a fragrance experience that inherits the romance and vitality of "Miss Di or Chérie" and is personalized and modern. It is like a confident, free-spirited modern woman, exuding a unique charm of sweetness and refinement, liveliness and elegance, which makes people fall in love at first sight.

Product Feature:

This "Miss Di or Chérie" fragrance essence is a modern and sophisticated interpretation of the classic sweet floral and fruity fragrance. It opens up vitality with bright citrus and sweet red fruits, with the core being the delicate floral fragrance of elegant jasmine and romantic rose, and the iconic caramel popcorn element adds unique fun and memorable points.

Unlike the traditional rich sweet floral and fruity fragrance, this essence pays more attention to the balance of modern lightness, making the fragrance fresh and agile, more in line with modern aesthetics. Its core feature is the carefully formulated caramel popcorn fragrance, which is sweet but not greasy, crispy and delicious, giving the perfume a unique recognition and appeal.

The high-quality raw materials are carefully proportioned to ensure the purity, layering and durability of the fragrance, and have excellent ductility and fusion, providing perfumers with a broad creative space. Its fragrance evokes the sensory associations of youth, vitality and romance, which can give the brand or product a unique charm mark and attract young consumers who pursue fashion and individuality.

All in all, this essence aims to provide a high-quality, modern and iconic sweet and fruity floral fragrance solution to help create exciting, vibrant and unique fragrance works. It inherits the classics and injects a lighter, more playful and modern feature.
