- Gift Box Material: Cardboard
- Bottle Size: 1000ml/5000ml

Super Red Classic Fragrance  
 LDZ-PL30020

## Product Description

### Free Sample Super Red Classic Fragrance For Diffuser Reed Sticks Scented Candles

LDZ-PL30020

#### Product Description:

"Super Red Classic Fragrance" is a fragrance for diffusers and reed sticks. Its name suggests a distinct and classic scent profile. "Super Red" suggests that the scent is strong and striking, while "Classic" suggests that it is a familiar and popular scent, not something too trendy.

Based on the common associations of "red" in perfume, this fragrance may include the following characteristics:

**Fruity:** Common red berries such as raspberries, strawberries, or red currants are common, which bring a sweet and sometimes slightly tart aroma.

**Floral:** May contain red flowers such as roses, peonies, or geraniums, adding a touch of sweetness and elegance.

**Warm and spicy base notes:** Spices such as cinnamon, amber, and even a little pepper may make it stronger.

**Woody base notes:** Classic fragrances often have woody notes such as cedar or sandalwood as a base to add depth and longevity.

Designed for diffusers and reed sticks, this fragrance oil can effectively diffuse the fragrance into the air, creating a long-lasting and pleasant atmosphere. The intensity and longevity of the scent depends on the concentration of the fragrance oils and the quality of the diffuser used.

#### Product Feature:

"Super Red Classic Fragrance" is a high-quality fragrance oil designed for diffusers and reed sticks. Its core feature is its distinct and long-lasting scent, which can quickly and steadily energize a space. "Super Red" not only represents its eye-catching fragrance intensity, but also implies a passionate and unrestrained sensory experience, which is different from the general soft fragrance.

As a "Classic" fragrance, it cleverly combines the calmness of classic fragrances with the vitality of modern breath, avoiding a single style that is too traditional or avant-garde, and is more easily accepted by the public. Its formula is designed for efficient diffusion, ensuring long-lasting fragrance release, creating a warm, energetic or sophisticated atmosphere. The selection of highly concentrated and stable fragrance essential oils ensures the purity and durability of the fragrance. Whether it is home, office or other environments, it can bring a pleasant fragrance experience. Compared with ordinary fragrances, "Super Red Classic" emphasizes its unique combination of distinctness and classic feeling, aiming to create an olfactory memory that is both familiar and impressive.

## Super Red Classic Fragrance

LDZ-PL30020

### Technical Parameter:

Fragrance positioning: Oriental Amber, with mahogany, amber and sweet scent as the core, suitable for fireless aromatherapy, reed diffuser and home spray, emphasizing luxury and long-lasting fragrance.

Core Formula			
Ingredients	Percentage(%)	Ingredients	Percentage(%)
Black Currant Bud Absolute	5%	Rose essential oil	15%
Bergamot oil	8%	Patchouli alcohol	12%
Redwood Oil	10%	Ambroxan	18%
Galaxolide	10%		

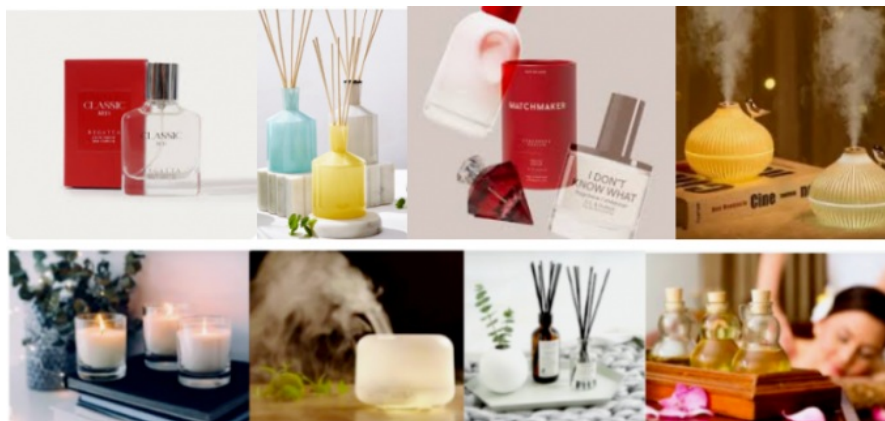

## FUNCTIONS & APPLICATIONS

"Super Red Classic Fragrance" is used to create fragrances for various indoor environments, aiming to infuse spaces with unique atmospheres through diffusers and reed sticks. Its core application is to enhance the sensory experience of homes, offices, businesses and leisure places. Compared with ordinary indoor fragrances, the uniqueness of "Super Red" lies in its distinctive and expressive aroma characteristics, which can quickly capture the senses and create a more personalized space atmosphere, whether it is enthusiastic vitality, warm and comfortable or classic elegance.

In the home environment, it can be used in areas such as living rooms and bedrooms to create different emotional atmospheres according to personal preferences. In the office, it can help boost spirits and create a more positive working environment. In the retail and hospitality industries, the unique "Super Red Classic" scent can enhance brand memory points and create a unique customer experience. Even in places such as spas, if the fragrance is properly selected, it can help create a relaxing or energizing atmosphere.

It is flexible and convenient to use, and the fragrance is evenly diffused throughout the space through the atomization of the diffuser or the natural evaporation of the reed sticks. Different from some fragrances that are bland or too simple, "Super Red Classic" emphasizes its recognition and layering, striving to create an olfactory label that is both classic and full of personality, making it stand out among many fragrance products and bringing users a more memorable fragrance experience.

Application adaptation scheme	
Non-flame aromatherapy (rattan diffuser)	Recommended concentration: 8-12% fragrance + 88-92% DPG/ethanol mixed solvent. Rattan configuration: 6-8 fiber cores (per 100ml), uniform evaporation rate.
Aromatherapy candles	Wax base adaptation: soy wax (melting point 52-58°C), fragrance addition amount 6-8%, 0.1% BHT antioxidant needs to be added.
Household spray	Quick-drying formula: 3-5% fragrance + 50% alcohol + 45% water, pH adjusted to neutral (6.0-7.0).

### Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting of several Ph.D.s and senior engineers, and has established associated laboratories with many universities and colleges. Meanwhile, the company integrates global technology, information, and resources to keep the advantage of our products and services by continuous innovation on natural ingredients.
