

Air freshener diffuser Fragrance Abes Fragrance Essence For Reed Sticks & Diffuser Free Samples

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL30024
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Abes Fragrance
LDZ-PL30024

Product Specification

- Packing: Plastic Bottle/Iron Barrel
- Other Names: Cedarwood Diffuser Fragrance Oil
- Oem: Welcome
- Certifications: IFRA Certified
- Scent: Floral
- Application: Diffuser
- Fragrance Type: Fragrances
- From: Liquid Concentrate Oil
- Included Items: Reed Sticks
- Scent Notes: Floral, Citrus, Woody, Spicy, Fruity
- Usage: Place Reeds In The Bottle And Flip Them Every 1-2 Weeks
- Delivery: Within 5 Days

Abes Fragrance
LDZ-PL30024

Product Description

Air freshener diffuser Fragrance Abes Fragrance Essence For Reed Sticks & Diffuser Free Samples

LDZ-PL30024

Product Descriptions:

Abes fragrance essential oil is specially made for diffuser reeds and diffusers, and is committed to providing an "immersive atmosphere creation" experience that goes beyond traditional fragrances. We are well aware of the vitality of fragrance in space, so Abes is not just a simple mixture of spices, but also uses "micro-environment sensing" technology to allow fragrance to intelligently adapt to the characteristics of different diffusion media.

Different from general fragrance oils, Abes optimizes the capillary action of reeds and the atomization principle of diffusers at the molecular level. This means that the fragrance can be released steadily and evenly in the reeds to avoid blockage; at the same time, it can achieve more delicate and extensive atomization diffusion in the diffuser. Ensure that no matter what kind of diffusion method, the best effect can be achieved, which is difficult for ordinary fragrance oils to achieve.

"Emotional Spectrum" Fragrance: Abes not only provides fragrance, but also provides emotions. Our fragrance design has a deep insight into the user's psychology. From the "Morning Light" that awakens vitality to the "Moonlight Tranquility" that soothes the body and mind, each one is designed to trigger a specific emotional resonance, making the fragrance an extension of your mood.

"Unlimited Durability": Through the unique slow-release technology, Abes Fragrance Essential Oil achieves ultra-long-lasting and constant release of fragrance, far exceeding similar products. No need to add frequently, so that your space is always bathed in the ideal fragrance. Choosing Abes, you choose not only the fragrance, but also the ultimate control and enjoyment of the space atmosphere

Abes Fragrance

LDZ-PL30024

Product Feature:

Abes Fragrance Essence goes beyond conventional scenting. It's an intelligent fragrance solution designed for both reed sticks and diffusers, built on our proprietary "Media-Adaptive Scent Technology." Unlike generic oils, Abes actively optimizes its molecular structure to perfectly suit the chosen diffusion method. For reed sticks, it ensures consistent, clog-free capillary action and steady release. In electronic diffusers, it guarantees finer atomization and wider dispersion, maximizing scent throw and purity. This unparalleled adaptability means you always get the most out of your chosen diffuser, a core differentiator in the market.

Further distinguishing Abes is our "Emotional Spectrum" scent profiling. Each fragrance isn't just a pleasant smell; it's meticulously crafted to evoke specific moods and feelings, from invigorating freshness to soothing tranquility. This psychologically informed design allows Abes to genuinely enhance your emotional well-being, transforming your space into a true sanctuary. Coupled with extended, stable release for lasting enjoyment, Abes redefines ambient fragrance as an integral part of holistic living.

Technical Parameters:

Abes Fragrance Essence For Reed Sticks & Diffuser: Core Technical Parameters and Differentiation	
	Differentiation: Abes uses an exclusive intelligent carrier matrix, which allows the essence oil to automatically optimize molecular behavior and perfectly adapt to the capillary action of the diffuser reed sticks and the atomization principle of the electric diffuser.

Media-Adaptive Carrier Technology	Technical Parameters: Viscosity, surface tension, and evaporation rate are precisely calculated to ensure no blockage and stable climbing in the reed sticks; ultra-fine particle atomization is achieved in the diffuser, and the diffusion area and efficiency are increased by 20% compared with traditional formulas.
Emotional Spectrum Precision Blending	Differentiation: We go beyond simple aroma replication. Each Abes fragrance has been studied at the psychoacoustic level and is designed to trigger specific emotional responses, such as increased concentration, deep relaxation, or joyful vitality, providing a deep experience beyond the sense of smell.
	Technical Parameters: The proportion of fragrance ingredients is accurate to two decimal places to ensure the perfect connection between the front, middle and back notes of the fragrance, rich and stable layers, and avoid the "linear" smell common in fragrances.
Purity & Rigorous Safety Standards	Differentiation: Abes promises zero additives: no phthalates, formaldehyde, alcohol, synthetic pigments and any petroleum-based chemicals. This is not only a safety commitment, but also provides users with a truly burden-free, pure fragrance that can be breathed with peace of mind.
	Technical Parameters: Obtained the highest safety certification of the IFRA International Fragrance Association; each batch of products is tested for ingredient purity and harmful residues by GC-MS gas chromatography-mass spectrometry to ensure that the purity reaches more than 99.9%.
"Seamless Longevity"	Differentiation: Combined with the "medium adaptive" technology, Abes achieves ultra-long-lasting, constant and uniform release of fragrance, greatly extending the effective time of a single use, allowing the space to always maintain an ideal fragrance state and reducing the trouble of frequent replenishment.
	Technical parameters: Compared with the industry average, Abes's fragrance diffusion duration is increased by 30% - 50%; the fragrance intensity decay rate is less than 5% / week.

FUNCTIONS & APPLICATIONS

Abes Fragrance Essence: The Adaptive Scent Architect for Every Space

Abes Fragrance Essence transcends conventional scenting, acting as a "Scent Architect" that intelligently crafts the perfect aromatic environment for any setting. Our core differentiation lies in its "Media-Adaptive Scent Technology," a revolutionary formulation that precisely calibrates scent release based on the diffusion method. Unlike generic oils, Abes doesn't just sit in the diffuser; it optimizes its molecular behavior to ensure unparalleled efficiency whether absorbed by porous reed sticks or atomized by an electronic diffuser. For reeds, this means clog-free, consistent capillary action and steady, long-lasting diffusion. For electric diffusers, it guarantees finer, wider atomization and maximum scent throw, ensuring every corner of your space is perfectly enveloped. This dynamic adaptability ensures you always experience the fragrance as intended, without waste or diminished impact.

Beyond technical superiority, Abes offers an "Emotional Spectrum" of scent experiences. We understand fragrance is deeply personal and impactful. Our meticulously designed scent profiles are crafted not just to smell pleasant, but to evoke specific moods and enhance well-being. Whether you seek invigorating clarity for a workspace, tranquil serenity for a bedroom, or an inviting warmth for a living area, Abes provides a targeted olfactory narrative. This psychologically informed approach transforms mere air into a sensory journey, supporting focus, relaxation, or invigoration.

The "Seamless Longevity" of Abes further sets it apart. Through advanced slow-release mechanisms, our essence delivers a consistently beautiful fragrance for extended periods, far outlasting typical oils. This means less frequent replenishment and an enduring, ideal ambiance, solidifying Abes as an essential upgrade for both personal and professional environments demanding a superior, adaptive, and emotionally resonant scent experience.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
