Product Description

Free Sample Lux Fragrance Oil For Shampoo Shower gel & Soap Fast Delivery LDZ-PL20030

Product Description:

Our "Lux" essential oil breaks through the shackles of traditional fragrances and aims to inject a differentiated soul into your shampoo and shower gel, sublimating daily washing and care into the ultimate sensory feast. We are well aware of the market's desire for unique luxury experiences, so this essential oil is not just "good smelling", but also a carefully crafted olfactory work of art.

The core differentiation lies in its unique "Luxury Sensory Matrix". We break away from the limitations of a single fragrance and use a complex and balanced fragrance structure to create a progressive level of top, middle and base notes: from the initial freshness and pleasure, to the rich floral bloom in the middle, and finally settle into a warm and sensual long aftertaste. This dynamic fragrance, like a high-end custom perfume, ensures that it can continue to exude a delicate and changing charm throughout the bathing process and even for hours after washing, far exceeding the "one smell to the end" of ordinary fragrances.

Product Feature:

"Lux" essential oils emphasize the integration of ***dancing with the skin and hair***. We use special technology to ensure that the fragrance molecules can be more intimately attached to the hair and skin, not only leaving a lasting fragrance, but also subtly combining with personal body fragrance, exuding a unique and exclusive scent. This makes your product no longer just provide cleaning, but become a symbol of enhancing consumers' personal charm and quality of life. Choose "Lux" to make your brand stand out in the homogeneous competition with unparalleled luxury and personalized experience, and capture the hearts of high-end consumers.

By integrating our "Lux" Fragrance Oil, you are not just adding a scent; you are imbuing your shampoo and shower gel with an unparalleled sense of luxury, sophistication, and a truly memorable sensory journey for your consumers.

Lux Fragrance

LDZ-PL20030

Technical Parameter:

We use microcapsule sustained-release technology to ensure that the fragrance molecules are evenly attached to the hair, and can be released for a long time even after rinsing, saying goodbye to the trouble of fleeting fragrance. In addition, this fragrance is perfectly integrated with the shampoo base, and it will not affect the foam or stability, but will enhance the high-end and uniqueness of the product. Choosing our sandalwood fragrance, your product will no longer be just a cleaning product, but a sensory work of art with both healing and aesthetic value, standing out in the homogenized market and winning the favor of consumers for a high-quality lifestyle.

Sensory and physical and chemical properties:	
Appearance	Clear to pale yellow liquid
Smell	The unique, complex and layered "Lux" fragrance combines fresh top notes, rich floral middle notes and warm sensual base notes, giving the product an ultimate sense of luxury.
Density (20°C)	0.900 - 1.050 g/mL (reference value).
Refractive index (20°C)	1.450 - 1.520 (reference value).

Flash point	Usually > 80°C, safe and stable.
Solubility	It is easily soluble in ethanol, propylene glycol, and oils; it can be well dispersed in water with the help of surfactants.
Recommended dosage	Shampoo: 0.2% - 0.8% w/w. Body wash: 0.3% - 1.0% w/w.
Thermal stability	The aroma is intact at standard production temperature.
pH stability	The aroma is stable within the commonly used pH range of the product (4.5-7.5) and is not easy to deteriorate.
Light stability	The aroma is not easy to degrade or fade under normal storage light.
System compatibility	Compatible with various shampoo/shower gel ingredients, without causing stratification, turbidity, discoloration and other problems

FUNCTIONS & APPLICATIONS

Our Lux essential oils do more than just add fragrance to shampoo and shower gel. They are also the strategic core of your brand's differentiated and premium sensory experience. At the product application level, we deeply understand the market's desire for full-link, immersive fragrances. Therefore, the design of Lux essential oils goes beyond a single product line and aims to achieve seamless connection and fragrance synergy between multiple categories.

Traditional fragrances may only be applicable to specific products, but Lux essential oils, with their excellent formula adaptability, are perfectly integrated into a wide range of personal care categories from shampoo, conditioner to shower gel, body lotion, and even liquid hand soap, soap, etc. Its uniqueness lies in the fact that Lux can maintain the integrity and luxury of its core fragrance regardless of the carrier. This enables brands to build a consistent and progressive fragrance universe: from morning hair and bath to daily hand care and skin care, consumers are always immersed in Lux's unique and elegant fragrance. This ability to build a "fragrance ecosystem" is unmatched by ordinary fragrances, which strengthens the brand's high-end positioning and memory point in the minds of consumers.

The real differentiation of ux essential oils lies in the emotional value and brand associations they can give to products. We do not simply provide a "nice scent", but through a carefully formulated complex fragrance structure (integrating fresh, floral, and sensual base notes), we arouse consumers' deep feelings of pleasure, confidence, and being pampered. This emotional resonance beyond the sense of smell elevates your product from a daily consumable to an emotional sustenance and part of a life ritual.
