Product Description

Extend Wear Dun hill Fragrance Oil For Perfume Making High Purity LDZ-PL10123

Product Description:

This Dun hill essential oil is an exclusive extract of the brand's classic fragrance essence, allowing you to create a luxury perfume comparable to the counter at home. Unlike ordinary essential oils on the market, we focus on replicating Dun hill's unique British gentleman style, combining the freshness of citrus, the warmth of spice, the calmness of wood and the masculinity of leather, presenting a unique charm that is rich in layers and lasting.

The highly concentrated formula ensures that the fragrance is long-lasting and rich in depth, and a small dose can create an extraordinary fragrance experience. It is not only an ideal base for personal perfume and cologne, but can also be widely used in a variety of fragrance products such as scented candles, diffusers, body care, etc., to achieve full coverage of fragrance. Phthalate-free formula, safe and skin-friendly. Choose Dun hill essential oil, say goodbye to the stereotyped, and create your own personalized luxury fragrance label.

Product Feature:

This Dun Hill essential oil is not a common universal fragrance on the market, but an extreme reproduction and refinement of the essence of the classic luxury brand Dun hill fragrance. We deeply deconstruct the iconic fragrance DNA of Dun Hill, from the fresh and vibrant bergamot and lemon, to the deep and story-filled leather, sandalwood and oakmoss, to a hint of spicy and floral embellishment, each drop condenses the pure British gentleman style. This makes our essential oil unique among similar products. You can easily restore Dun Hill's calm and energetic, classic and modern unique charm without complicated perfume knowledge.

This essential oil has excellent high purity and concentration, which means that a very small amount can release a surging and lasting fragrance. Its fragrance is clearly layered, with a gradual progression of top, middle and base notes, giving your perfume work extraordinary depth and vitality, rather than a flat single fragrance. This is not just about making perfume, but also about creating a wearable work of art.

Dunhill Fragrance

Technical Parameter:

Fragrance Positioning	
Classic Fragrance	Perfectly reproduces the classic fragrance of the Dun hill series of perfumes, which usually combines citrus, spicy spices, wood, leather and floral elements to show a balanced and layered masculine charm.
Top Notes	Fresh bergamot, lemon, lavender, or spicy cloves and nutmeg.
Middle notes	Elegant iris, rose, jasmine, carnation, or gentle woody scents.
Base Notes	Deep notes of vetiver, sandalwood, patchouli, oakmoss, amber, musk and leather give the fragrance lasting appeal and depth.

Physicochemical Properties	
Appearance	It is usually a clear to pale yellow or brown liquid, although the exact color may vary depending on the batch or specific fragrance ingredient.
Odor	Citrus, spicy, woody, leather
Specific Gravity/Density	0.900 - 1.050 g/mL
Refractive Index	1.450 - 1.520 (measured at 20°C, usually using the sodium D line).
Flash Point	Typically between 60°C - 93°C (140°F - 200°F)
Solubility	Usually soluble in ethanol (alcohol), most organic solvents and oils, insoluble in water
Storage Conditions	It is recommended to store in a sealed container, away from light and heat, in a cool and dry place.
Shelf Life	Typically 2 years (under proper storage conditions)

FUNCTIONS & APPLICATIONS

This Dun hill essential oil provides unlimited possibilities for fragrance customization. Its core application is to make high-end customized perfumes and colognes, allowing you to personally mix EDP or EDT with pure British gentleman style to achieve personalized signature fragrance.

Not only that, it is also an ideal choice for making ball-shaped fragrance oils, providing a gentle and long-lasting alcohol-free fragrance experience. In the field of home fragrance, this essential oil can incorporate the luxurious scent of Dun hill into scented candles, wax melts and indoor fragrance liquids to create an elegant living atmosphere.

In addition, it can also upgrade your daily care: add it to body lotion, shower gel or handmade soap to make the washing and care products also exude brand-level charming fragrance. It can even be used to make aromatherapy sprays and fabric fresheners to bring instant freshness to space and clothing. The application of Dun hill essential oil is designed to seamlessly integrate the British luxury fragrance into all aspects of your life and meet your pursuit of high-quality, customized fragrance.

Wide range of uses: In addition to being used in alcohol-based spray perfumes, this essential oil is also suitable for making: Attar roll-ons, scented candles, reed diffusers, scented soaps and bath products, body lotions, facial creams and other personal care products.

Suggestions for use

Perfume making

It is recommended to add 15-20% essential oil concentration to the alcohol base to achieve a long-lasting and luxurious fragrance effect.

Soap making	Adding 1-2% essential oil to the soap base can give the soap a fresh and long-lasting fragrance.
Candle making	When mixing with wax, it is recommended to add 8-12% essential oil to ensure good hot and cold diffusion effects.
Home fragrance	Can be mixed with carrier oil or diffuser base at a concentration of about 50% for continuous diffusion.
