Product Description

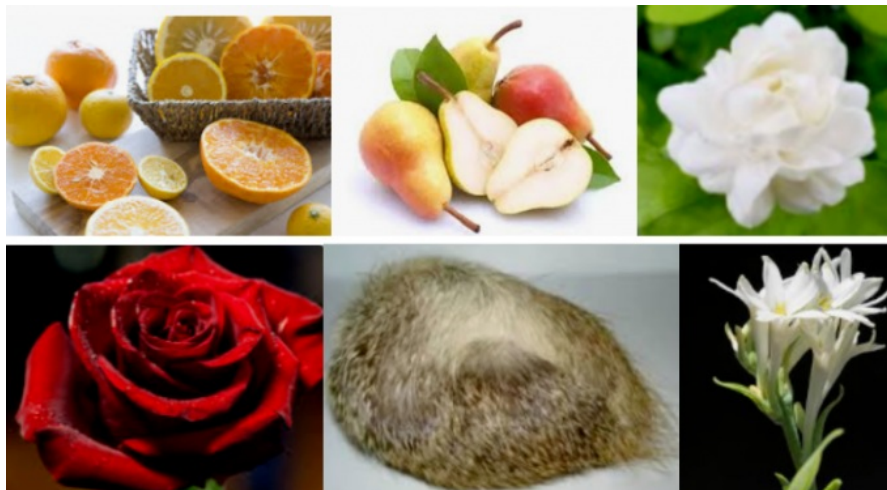

High Purity Sweet heart (Zara) Fragrance Essence For Perfume Making Free Samples

LDZ-PL10103

Product Description:

Sweet Heart is more than just a perfume ingredient. It is an olfactory vehicle full of stories and emotions, designed to go beyond the boundaries of traditional floral and fruity fragrances and bring you a deeper sensory experience. There are many floral or fruity fragrances on the market, but the uniqueness of Sweet Heart lies in its exquisite balance and emotional depth.

The charm of the "Sweet Heart" fragrance lies in its multi-layered, narrative aroma structure. It is not just a simple fragrance blend, but also a concrete embodiment of the concept of "sweetheart": from the initial sweet surprise, to the gentle romance in the middle, to the warm comfort at the end. It can make your perfume work stand out in the fiercely competitive market and bring a unique and unforgettable olfactory experience to the wearer.

Product Feature:

Many floral and fruity fragrances tend to be biased towards one side, either too sweet or too green. "Sweet Heart" achieves a perfect balance. It opens with bright top notes of pear and jasmine. This combination is not simply sweet, but a slightly tipsy, layered fruity scent, as exciting and unpredictable as first love. It avoids the linearity of common fruity scents and is wrapped in the softness of flowers, making it more delicate.

The Damascus rose in the middle note is the core, but it is not a traditional, overwhelming rose scent. Here, the rose is given a foil of orange blossom and tuberose, giving it a more modern and airy charm. It is not the rich rose in the old-fashioned perfume shop, but a fresh rose that seems to bloom with dew in the morning sun, which retains the classic romance and adds a modern touch.

The base notes of sandalwood and musk are not simply used as fixatives. They wrap the entire fragrance in a warm and slightly sensual way, giving "Sweet Heart" a reassuring and smooth touch. This lasting aftertaste is not a strong presence, but a low-key and attractive presence, like the lingering warmth of a lover, which is unforgettable. This makes it stand out among many short-lived fragrances, giving your perfume works stronger vitality and emotional resonance.

Sweetheart (Zara) Fragrance LDZ-PL10103

Technical Parameter:

Fragrance composition	
Top notes	Fresh and bright citrus and pear, mixed with elegant and soft jasmine and white flowers, bring soft fruity fragrance, exuding feminine charm.
Middle notes	Luxurious Damascus rose blends harmoniously with orange blossom and tuberose, giving the fragrance a smooth floral depth, full of charm and attraction.
Base notes:	Warm sandalwood and musk envelop the senses, leaving a sensual and lasting smooth effect.

Fragrance Notes	A warm, sweet and sensual oriental floral fragrance.
Appearance	It is usually a colorless to light yellow clear liquid.
Scent	Fruity Floral

Relative density	Usually in the range of 0.900–1.050 (25°C)
Refractive index	about 1.4500 - 1.5000
Flash point:	usually above 70°C
Solubility	It is easily soluble in ethanol (alcohol), which is the main solvent for making perfume. It is usually soluble in vegetable oil, mineral oil, etc., and insoluble or slightly soluble in water.
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Storage Conditions	It is recommended to store in a dark, cool, dry, sealed container away from heat and fire. The recommended storage temperature is usually 5°C - 25°C.
Shelf Life	Typically 12-24 months under proper storage conditions

FUNCTIONS & APPLICATIONS

As a fragrance raw material designed for perfume making, "Sweet Heart" (Zara) fragrance has a wide range of applications and can inject a romantic, sweet and layered unique scent into various fragrance products. It is widely used in the production of personal perfume, body care products (body lotion/body cream, shower gel/bath oil, fragrance spray/body spray, hand cream), home fragrance products (scented candles/wax melts, diffusers/fireless aromatherapy, room sprays, clothing fragrance sprays) and other products.

Many floral and fruity essences, when made into perfumes, often lack memorable points and are easily drowned in the vast ocean of perfumes. This is not the case with "Sweet Heart". It is not just a fragrance, but also a unique existence that can become an "emotional anchor" for consumers. Its aroma evolution from fresh pear and jasmine (heartbeat at first sight) to luxurious Damascus rose (romantic love), and then to warm sandalwood and musk (long-term attachment) allows its finished perfume to tell a complete love story. This makes the perfume made with "Sweet Heart" not only emit fragrance, but also evoke the resonance and yearning for beautiful emotions in the wearer's heart. This emotional connection is difficult to match with ordinary fragrances, and it is also easier to leave a deep impression in the hearts of consumers.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
