Product Description

Concentrated Peach Blossom Essence Oils For Body Wash Shampoo Products Free Samples

LDZ-PL20051

Product Description:

Our "Peach Blossom Fragrance" is designed to create excellent shower gels and shampoos. It goes beyond ordinary fragrances, selects high-quality peach blossoms, and uses advanced extraction technology to extract a pure, fresh, slightly sweet natural peach blossom fragrance, injecting a unique spring scent into your products, rather than a pungent synthetic smell.

This fragrance is not only the source of fragrance, but also rich in natural plant nourishing ingredients. It can gently moisturize the skin and hair, improve softness and luster, and give the product the dual value of cleansing/cleansing hair + nourishing/care. Its excellent formula compatibility ensures stable integration in various washing and care matrices without affecting the appearance and efficacy of the product.

Choosing peach blossom essential oil can significantly enhance the natural attributes and high-end positioning of the product, meet consumers' demand for natural, unique fragrance and gentle nourishment, and make your shower gel and shampoo stand out in the market.

Product Feature:

Our "Peach Blossom Extract Pure Oil" goes beyond ordinary fragrance suppliers and is committed to injecting unique "live" fragrance and natural nourishment into your shower gel and shampoo. The market is full of similar synthetic floral fragrances, but we insist on hand-selecting the first blooming peach blossoms with dew in the morning, using supercritical CO2 low-temperature extraction technology instead of traditional high-temperature distillation. This ensures that the most original and complete fragrance molecules and plant active ingredients of peach blossoms are intact, presenting a fresh, slightly sweet and vivid green compound floral fragrance, which is far from the single, flat industrial fragrance. This pure oil is not just an aroma. The natural peach blossom polyphenols and plant essences it contains can truly nourish the skin and hair while cleansing, improve moisture and gloss, and achieve the dual effects of "aromatherapy" and "gentle skin care". We pay more attention to its extreme stability and synergy in complex washing and care formulas to ensure that the fragrance and efficacy remain consistent throughout the product life cycle. Choosing our peach blossom essence pure oil means that your product will have an inimitable natural charm, excellent sensory experience and differentiated high-end market positioning, truly satisfying consumers' pursuit of pure, unique and effective luxury washing and care products.

Technical Parameter:

Olfactory Profile & Composition	
Olfactory Notes	Fresh floral notes with soft green and subtle sweet fruity notes.
Top notes	Green leaves, dew, fresh citrus (such as bergamot, creating a refreshing opening)
Middle notes	Pure peach blossom, apricot blossom, a small amount of white flowers (such as freesia, adding layering)
Base notes	Soft musk, wood (such as white peach wood), silky powder (provides lasting and skin-friendly feel)

Peach Blossom Fragrance LDZ-PL20051

Extraction and purity	
Supercritical CO2 extraction	Using patented low-temperature extraction technology, the original fragrance molecules and plant active ingredients of peach blossoms are completely retained to maximize purity and efficacy.
No harmful additives	It does not contain plasticizers, preservatives, mineral oils, etc. It is pure and safe and in line with the natural trend.
Stability and compatibility	

Extreme formula compatibility	It is highly compatible and stable with various cleaning and care matrices (different pH values, surfactant systems), and does not affect the appearance and texture of the product.
Long-lasting fragrance	The unique molecular structure and stability ensure that the product fragrance lasts during the shelf life and after use, providing a longer-lasting sense of pleasure.
Safety and regulations	
IFRA standards	Strictly follow the standards of the International Fragrance Association (IFRA) to ensure the safety of fragrance use.
Comprehensive testing	After rigorous skin irritation, microbial and heavy metal residue tests, it meets the world's most stringent cosmetic regulations.

FUNCTIONS & APPLICATIONS

In the increasingly competitive homogeneous skin care market, our "Peach Blossom Essence Pure Oil" is the key to your disruptive product differentiation. Different from the products on the market that generally rely on synthetic fragrances or low-cost plant extracts, we adhere to the concept of "From the source to the bottle, every drop carries the essence of nature". We go deep into the peach blossom source around the world and carefully select limited peach blossoms picked in the early spring morning when the buds first bloom, when the fragrance and activity of the flowers are the most abundant.

Our pure oil contains antioxidant and nourishing essences such as natural peach blossom polyphenols and flavonoids, which can truly moisturize the skin and hair while cleaning, and enhance softness and luster. It perfectly solves the pain point that traditional fragrances are superficial and lack skin care value.

This peach blossom fragrance is widely used in the production of daily bathing products, such as: high-end shower gel and shower gel, natural/mild shampoo, body lotion and body lotion, soap and hand sanitizer, etc., which are all loved by consumers and have good feedback.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
