Ginger Flower Essence
LDZ-PL30200

Product Description

High Quality Ginger Flower Essence For Diffuser Reed sticks Free Samples

LDZ-PL30200

Product Description:

Our Ginger Flower Aromatherapy Oil, specially formulated for the reed diffuser, is designed to bring the unique and charming aroma of ginger flower into your home or office space. It captures the essence of ginger flowers (such as wild ginger or butterfly ginger) and creates an exotic and soothing atmosphere with its fresh floral fragrance and subtle spicy undertones.

Ginger Flower essential oil is extracted from natural fragrances to ensure the pure aroma. Its formula is optimized for reed diffusers, with the right viscosity and volatility, and can achieve long-lasting and even aroma diffusion without plugging in. It can effectively enhance the sensory experience and create a unique atmosphere of relaxation, calm and tropical style to revitalize your space.

Product Feature:

Our ginger flower aromatherapy essential oil is tailor-made for aromatherapy reed diffusers. Its core advantage lies in providing excellent fragrance experience and practical functions. It accurately captures the unique floral fragrance of ginger flower, which is fresh, sweet, and slightly moist, bringing a hint of exoticism and natural wildness, which is different from traditional floral fragrance and gives the space a unique soul.

In terms of fragrance, this essential oil not only has the main fragrance of ginger flower, but also cleverly incorporates the subtle spiciness of ginger root. This spiciness is mild and refreshing, and perfectly blends with the floral fragrance, making the fragrance more layered and more recognizable, creating a calm and positive atmosphere, and has a neutral charm, suitable for all kinds of people and spaces.

In product design, the essential oil formula has been optimized to ensure ideal viscosity and volatility, and can effectively achieve long-lasting and uniform fragrance diffusion through the capillary action of the reed, without plugging in or ignition, safe and convenient. Its high-quality ingredients ensure that the fragrance is pure, non-pungent, and generally meets safety standards.

Technical Parameter:

Ginger Flower essential oil not only diffuses fragrance, but also enhances the atmosphere and mood of the space: it can relieve stress, bring relaxation and calmness; at the same time, the subtle spicy aroma can boost spirits and inject vitality.

| | |
|--------------|---|
| Top notes | A hint of citrus (lemon, bergamot) or fresh green leaves for a bright and open start. |
| Middle notes | In addition to the ginger flower itself, it may also have the fragrance of other white flowers (such as jasmine and lily of the valley), or a hint of pineapple and violet to enrich the aroma. |
| Base notes | Using soft wood, amber or musk as the base, it adds a touch of warmth and persistence to the overall fragrance, making it more layered and long-lasting. |

Ginger Flower Essence

LDZ-PL30200

| | |
|----------------------------|---|
| Physicochemical parameters | |
| Main ingredients | Ginger flower absolute oil (≥25%), linalool (10%), lime oil (8%), cedar alcohol (5%), DPG solvent (balance) |
| Appearance | Transparent to light yellow liquid |
| Specific gravity (25°C) | 0.890-0.910 |
| Flash point | ≥78 °C |
| pH stability | 5.5-6.5 |
| Thermal stability | 60°C accelerated aging for 30 days, aroma retention rate ≥90% (GC-MS detection) |
| Photostability | Ultraviolet light (QUV 200h) ΔE 1.0, needs to be stored in brown glass bottles away from light. |
| Storage | Store in a cool place at 15-25°C away from light. Use within 12 months after opening. |

| | |
|---|--|
| Differentiated technical highlights | |
| Microcapsule sustained-release technology | Ginger flower essential oil is encapsulated with β-cyclodextrin, heat resistance is increased to 60°C, and fragrance retention is extended by 30%. |
| Natural synergistic ingredients | Add 2% lemongrass oil (containing geraniol) to enhance mosquito repellent effect (repellency rate > 70%, refer to EPA standards). |
| Environmentally friendly solvent | Triethyl Citrate |

FUNCTIONS & APPLICATIONS

Our Ginger Flower Aromatherapy Essential Oil is designed for aromatherapy reed diffusers. Its core advantage is to provide an excellent fragrance experience and unique differentiated value. It is not just a fragrance, but also an ideal choice for you to create a personalized space and show your taste in life.

This essential oil accurately captures the unique essence of ginger flowers (such as wild ginger flowers and butterfly ginger flowers), presenting a fresh, sweet and watery compound floral fragrance. Unlike the common single floral or fruity fragrances on the market, Ginger Flower Aromatherapy Essential Oil cleverly incorporates the subtle spiciness of ginger root. This spiciness is not irritating, but gentle and refreshing, perfectly intertwined with the floral fragrance, giving the fragrance a deep layering and unique recognition. The atmosphere it creates has both the elegance of flowers and the vitality of plants, neutral and harmonious, and can adapt to various moods and scenes.

In product design, we have optimized the essential oil formula to ensure that it has ideal viscosity and volatility. This means that the essential oil can efficiently penetrate through the capillary action of the reed and diffuse the fragrance continuously and stably, without plugging in or open flames, safe and convenient. We insist on using high-quality spices to ensure that the aroma is pure and free of impurities, avoid pungent chemical sensations, and strictly adhere to safety standards so that you can enjoy it with peace of mind.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
