Honeyed Floral Fragrance
LDZ-PL20053

Product Description

Skin Friendly Honeyed Floral Fragrance Essence For Shower Gel Shampoo & Soap Making LDZ-PL20053

Product Description:

This honey floral shower gel essence is not just an additive, but a revolutionary upgrade for your bathing experience. We reject mediocrity and focus on creating a unique sensory feast on the market.

At its core is our selection of rare flower extracts, which combine the unique fragrance of alpine wildflowers and Mediterranean orange blossoms, which are not ordinary roses or jasmine. Every drop is full of natural honey essence nourished by the sun, and its molecular structure has been specially treated to penetrate the skin more deeply, bringing a long-lasting and non-sticky moisturizing feeling.

Our "microcapsule slow-release" fragrance technology is its unique feature, which allows the floral fragrance to be gently released with the water vapor during the bath, and continue to linger on the skin for up to 8 hours after the bath, like a customized invisible fragrance. This fragrance is not simply sweet, but a layered top note, rich middle note, and calm base note, accompanying you all day long.

Product Feature:

This honey floral shower gel fragrance subverts your imagination of daily bathing and aims to create an unprecedented sensory feast. Its core charm lies in the exquisite combination of the nourishing essence of pure natural honey and the rich fragrance of various rare flowers.

Unique compound fragrance	Say goodbye to monotony, we ingeniously blend a layered fragrance. The sweet honey base cleverly sets off the unique charm of alpine wildflowers, Mediterranean orange blossoms, elegant roses and exotic jasmine, bringing a sweet, fresh and deep olfactory enjoyment that instantly transforms your bathroom into a fragrant garden.
Long-lasting fragrance technology	The "microcapsule sustained release" fragrance technology ensures that the fragrance continues to release charming fragrance during bathing, and can linger on the skin for a long time after bathing, allowing you to exude natural body fragrance all day long, rather than a short-lived surface fragrance.
Excellent nourishing effect	Contains high-purity natural honey essence, its unique molecular structure can penetrate deeper into the skin, providing long-lasting and non-sticky deep moisture. Combined with a variety of natural plant extracts, it effectively locks in moisture, making the skin feel silky and tender, and saying goodbye to dryness and tightness.
Gentle and skin-friendly formula	Adhere to the concept of non-irritating and high natural ratio formula, do not contain potentially harmful substances such as sulfates and parabens, and are gentle and friendly to all skin types, even sensitive skin can enjoy it with peace of mind.
Enhance product value	A small amount of addition can significantly improve the quality and style of ordinary shower gel, giving it a high-end luxury and differentiated competitive advantage, satisfying consumers' pursuit of high-quality bathing experience.

Technical Parameter:

Technical Parameters Overview		
Parameter Category	Specific parameters	Description/Scope
Appearance characteristics	color	Colorless to pale yellow/amber transparent liquid
	odor	Typical honey floral aroma, rich and layered
Physical and chemical indicators	Specific gravity (20/25°C)	Typically between 0.8 - 1.1 g/mL.
	Refractive index (20/25°C)	Between 1.450 - 1.520.
	Flash point	Typically above 60°C (140°F).
Solubility	Solubility in ethanol	Soluble
	Solubility in water	Usually insoluble
Stability	Thermal stability	It does not degrade and its odor remains unchanged at high temperatures (such as production temperature and storage temperature).
	pH stability	Stable within the pH range commonly found in body washes (typically 4.0-7.0).
Compliance and Security	IFRA Compliance	Complies with the International Fragrance Association (IFRA) standards

FUNCTIONS & APPLICATIONS

As a key ingredient in personal care products, the functions and applications of honey floral shower gel fragrance complement each other, jointly enhancing the attractiveness and added value of bath products.

Core Functions	
Enhance sensory experience (primary function)	This is the most direct and important role of fragrance. It can transform daily bathing into a luxurious sensory journey, stimulate the sense of smell through pleasant honey and floral scents, bring relaxation and pleasure, and leave fragrance for a long time after bathing.
Mask base odor	The raw materials in shower gel formulas often have unpleasant original smells, and fragrances can effectively mask these odors to make the product more pleasant.
Provide long-lasting fragrance	High-quality fragrances can ensure that the fragrance can stay on the skin for a long time after rinsing, allowing users to stay fresh and fragrant all day and enhance confidence.
Emotional and psychological impact	Sweet floral scents are often associated with positivity, happiness, and comfort, which helps boost mood and relieve stress. At the same time, unique fragrances can establish brand memory points and promote consumer repurchase.
Product differentiation and brand recognition	In a highly competitive market, unique and memorable fragrances are the key to a brand's standing out. It can become a product's iconic feature and build brand loyalty.

Main applications	
High-end and luxury bath products	The unique and exquisite honey floral fragrance makes it an ideal choice for high-end shower gels that aim to provide a luxurious experience.
Moisturizing formula	Given the moisturizing properties of honey itself, this fragrance is a perfect match with shower gels that emphasize moisturizing, hydrating and softening effects, which can enhance the product's perception of skin care.
"Home SPA" series products	This fragrance is very suitable for product lines that focus on the "home SPA" concept. Its calming and uplifting qualities help create a relaxing bathing atmosphere.
Product line expansion	The fragrance can be extended to body care products such as body lotion, body spray, hand cream, etc. to build a unified fragrance series and enhance consumers' willingness to buy.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college.
