## Product Description

Skin Friendly Tropical Fruit Fragrance Essence For Shower Gel Shampoo & Soap Making  
LDZ-PL20074

### Product Description:

This tropical fruit essence is not a single fruity aroma, but draws on the essence of sunshine from tropical islands around the world, ingeniously blending a variety of plump and juicy fruit fragrances, aiming to inject unprecedented vitality and exotic style into your products. It is an exclusive "sunshine cocktail" fragrance. We select the richness of mango, the sweetness and sourness of pineapple, the fragrance of passion fruit, the freshness of guava, and cleverly integrate the mellowness of coconut and the brightness of citrus to mix a rich, sweet, fresh and lively compound aroma. It can instantly awaken the senses and bring a pleasant experience of being on a tropical beach.

Our fragrance ingenuity combines the richness of mango, the sweetness of pineapple, the fragrance of passion fruit, the freshness of guava, and cleverly integrates the smoothness of coconut and the brightness of citrus to create a rich, sweet, fresh and lively complex fragrance. This unique "sunshine cocktail" aroma can instantly awaken the senses, as if you are on a tropical beach, bringing pleasure and relaxation.

### Product Feature:

The core charm of tropical fruit fragrance lies in its extraordinary fragrance diversity and layering. It goes beyond the linear expression of a single fruit and constructs a complex and charming olfactory dimension.

Specifically, this fragrance does not simply simulate the inherent smell of a certain fruit, but deconstructs and reshapes the unique fragrance of a variety of tropical fruits through the exquisite art of perfumery. In the top notes, you will first feel the instant burst of sweetness, sourness and richness brought by freshly cut pineapples and mangoes, accompanied by the lively citrus scent of grapefruit or lime, providing a refreshing and uplifting first impression, like the first ray of sunshine in the tropical morning.

Then, the fragrance gradually transitions to the middle note, at which time the rich fragrance of passion fruit and the unique sweetness of guava will gradually appear, with a subtle exotic floral scent, pushing the fragrance to a fuller and richer realm. This level is like traveling through the depths of the tropical rainforest, full of surprises and explorations.

Finally, the fragrance settles to the base, and the soft milky scent of coconut or the light sandalwood/musk aftertaste will emerge, providing a warm, lasting and rounded support for the entire fragrance, bringing a relaxing and comfortable feeling, as if enjoying the sunset on the beach. This transition from bright and lively to deep and warm makes the aroma of tropical fruit essences vivid and full of vitality. Every sniff can discover new details and bring a continuous pleasant experience.

## Tropical Fruit Fragrance

LDZ-PL20074

### Technical Parameter:

This bright and cheerful aroma is not only pleasant, but also effectively boosts mood and relieves stress, giving your product a positive and optimistic emotional value, making users feel more energetic and sunny every time they come into contact with it.

Core Technical Parameters		
Parameter Category	Specific parameters	Description/Scope
	color	Colorless to light yellow transparent liquid, without suspended matter.

Appearance characteristics	odor	Typical tropical fruit complex aroma, rich layers, long-lasting fragrance
Physical and chemical indicators	Specific gravity (20/25°C)	Typically between 0.900 - 1.000 g/mL
	Refractive index (20/25°C)	Between 1.4500 - 1.4800
	Flash point	> 70°C
Solubility	It is easily soluble in ethanol and oils, and requires a solubilizer in water.	
Stability	Excellent heat resistance, light resistance and stability in the pH range of 4.0-8.0 ensure that the final product will not deteriorate, discolor or have a different taste.	
Compliance and Security	IFRA Compliance	Complies with the International Fragrance Association (IFRA) standards

Main ingredients and proportions	
Ingredients	Percentage(%)
Fragrance Compounds	About 70-85% (such as isoamyl acetate, ethyl acetate, allyl caproate, γ-undecalactone, citral, etc., which constitute the core fruity aroma characteristics)
Diluents/Solvents	About 10-20% (e.g. diethyl phthalate (DEP, if applicable and in compliance with regulations), isopropyl alcohol, dipropylene glycol (DPG), etc., to adjust viscosity, enhance solubility and volatility)
Stabilizers/Antioxidants	About 1-5%

## FUNCTIONS & APPLICATIONS

With advanced fragrance technology, this fragrance has excellent diffusion and long-lasting fragrance characteristics, saying goodbye to the pain points of traditional fruity fragrances that are easy to evaporate and have a short lasting fragrance, ensuring that the product maintains high-quality pure fragrance for a long time.

Choosing this tropical fruit flavor is to choose to inject strong market recognition and unique charm into your products, leading consumers into a delicious world full of sunshine, vitality and exotic flavors. As a highly concentrated flavor, it has a wide range of uses and only a small amount is needed to inject soul into various products.

Personal care products	shower gel, shampoo, body lotion, soap, hand sanitizer, etc., giving the products a fresh and unique scent.
Home cleaning products	air freshener, dishwashing liquid, softener, etc., make the home environment full of exotic fragrance.
Environmental fragrance products	scented candles, diffusers, car aromatherapy, etc., create a relaxing and pleasant atmosphere.
