Product Description

Concentrated Tea Mint Fragrance Essence For Diffuser Reed Sticks Scented Candles LDZ-PL30103

Product Description:

Tired of the same old fragrances? Our tea mint fragrance essential oil breaks the dullness of your sense of smell! It is not just an aroma, but also a unique sensory journey.

We select the elegant background of high-quality tea leaves and the refreshing vitality of natural mint to perfectly blend, saying goodbye to the single mint flavor or ordinary tea fragrance commonly seen on the market. Imagine that when the fresh mint awakens the senses like morning dew, and then blends into the warmth and calmness of tea, this layered feeling is unprecedented. It not only refreshes you, but also allows you to instantly feel the clarity and concentration after deep relaxation.

Product Feature:

This essential oil designed for diffusers has a pure and lasting aroma, not a chemically synthesized pungent one. It can quickly purify the space and eliminate odors, filling your home or office with a clean, pleasant scent like being in a mountain tea garden. Whether you need to concentrate on your work, or want to relax and enjoy a moment of tranquility, or seek balance in yoga meditation, it can be your ideal companion.

Choosing tea mint fragrance essential oil is choosing a unique taste and lifestyle. Let it create a unique and natural fragrance space for you.

Tea Mint Fragrance

LDZ-PL30103

Technical Parameter:

Main ingredients and proportion	
Fragrance Oil Blend	85%-95%. This is the core fragrance ingredient, a finely tuned blend of aromatic compounds that accurately recreates the rich aroma of chocolate. The formula is designed to balance the richness of milk chocolate and dark cocoa with a hint of caramel and vanilla.
Solvent - Dipropylene Glycol / DPG	5%-15%. High-purity, low-odor DPG is selected as the main carrier to ensure the stable solubility of essential oils, excellent volatilization uniformity, and extend the fragrance retention time in diffusers and candles. It is highly safe and will not have adverse effects on the final product.
Appearance	Color: Usually colorless to light yellow transparent liquid.
	Clarity: Clear and transparent, no suspended matter or precipitation.
Physical and chemical properties	Specific Gravity / Density: Typically between 0.900 - 1.050 at 20°C
Specific Gravity	Typically between 0.950 - 1.050 at 20°C

Flash Point	Above 93°C (200°F)
IFRA Compliance	It fully complies with the latest standards of the International Fragrance Association (IFRA), ensuring the safety of the product to humans and the environment at recommended usage concentrations.
Compatibility	Widely used in all types of aroma diffusers, reed diffusers and a variety of wax bases (soy wax, paraffin, beeswax), ensuring excellent cold and hot diffusion effects without causing discoloration or abnormal burning of the wax body.
Storage conditions	It is recommended to store in a cool and dry place, usually 15°C - 25°C, avoid direct sunlight, and the container should be well sealed.
Shelf life	Usually 24-36 months (unopened).

FUNCTIONS & APPLICATIONS

Tea Mint Fragrance Oil: Reshape Your Sense of Smell and Space Tired of the clichéd fragrance experience? Our Tea Mint Fragrance Oil will subvert your perception of fragrance and create a sensory world full of differences for you. Unique Functional Highlights: The extraordinary thing about this essential oil is that it is not just refreshing or relaxing, but also a harmonious sonata of dual senses. We precisely balance the instantaneous clarity and penetration of mint, which can quickly repel chaos and enhance precise concentration, rather than simply excitement. At the same time, it incorporates the deep tranquility and restrained sweetness of tea to provide you with a soothing and balance from the inside out. It is not as straightforward as a single mint, nor as dull as pure tea fragrance, but creates a unique state of "calm in wakefulness, clear in relaxation". In addition, its powerful space purification power can eradicate odors, allowing your environment to exude an elegant and natural clean atmosphere, rather than being covered by cheap fragrances.

Innovative application scope:

We break the limitations of traditional fragrances and promote tea mint essential oil to more diverse and professional fields. In addition to daily boosting of home and office environments, it is especially suitable for:

High-pressure work scene	Help you stay clear and calm when your mind is highly focused, and avoid the decline in efficiency caused by fatigue.
Creative inspiration space	The unique fragrance can open up your mind and inspire inspiration. It is a secret weapon for designers, writers, artists and other professionals.
Meditation and body and mind healing	Help users quickly enter a state of concentration, deepen the effect of meditation, and provide a refreshing rather than depressing healing atmosphere.
After fitness and exercise	Quickly revitalize the body, relieve muscle fatigue, and bring a fresh, clean and relaxing experience.

In addition to being used in diffusers, tea mint essential oil can also be widely used in a variety of products due to its unique aroma and the natural properties of mint and tea, bringing different sensory and functional experiences.

For personal care products	It can be used to make perfume/cologne, shower gel/soap, shampoo/conditioner, body lotion/hand cream, oral care products, foot care products
For household cleaning and care products	It can be used to make detergents, laundry detergent/softener, fabric freshener, deodorant;
For beauty and cosmetic products	It can be used to make facial masks, sprays, lip products, etc
For aromatherapy candles/fireless aromatherapy	It can be used to make aromatherapy candles, rattan aromatherapy, etc.; In addition, it is also suitable for making car fragrances and insect repellent products.
