Product Description

10ml Free Samples Comfort Fragrance Essence For Laundry Detergent Making LDZ-PL50071

Product Description:

Comfort (Gold Spin) Fragrance Laundry Essence is a highly concentrated additive designed to enhance your laundry experience. It combines perfectly with your usual laundry detergent to not only enhance cleaning, but more importantly, it infuses your clothes with a long-lasting, luxurious fragrance.

This essence uses a unique high-quality fragrance formula to effectively remove stubborn odors from clothes, leaving your clothes smelling fresh and pleasant after washing and drying. No matter what kind of washing machine you use or what kind of fabric you wash, Comfort Fragrance Laundry Essence can be easily integrated into your laundry routine to ensure that your clothes are soft, clean and have a pleasant fragrance. Its highly concentrated nature means that only a small amount is needed for each wash to bring significant fragrance effects and excellent value for money. Comfort Fragrance Laundry Essence transforms daily laundry into a sensory enjoyment, making your clothes not only clean, but also full of the charming smell of confidence and comfort. Make every wear a fragrant experience and feel the lasting freshness and pleasure from your clothes.

Product Feature:

Comfort fragrance is characterized by creating a fresh, soft and lasting sense of comfort. It usually combines clean soapy feeling, elegant floral or plant fragrance, and warm powdery or woody base notes, making the overall fragrance balanced and harmonious, not pungent or ostentatious. Jinfang's unique fragrance retention technology ensures that the fragrance can adhere to the clothing fibers for a longer time, so that your clothes will exude a charming and reassuring scent every time you wear them. Let laundry no longer just be cleaning, but also a sensory enjoyment, adding a lasting fragrance and confidence to your life.

Key Features	
Long-lasting fragrance	Infuses clothes with long-lasting fragrance.
Enhanced freshness	Eliminates odors, leaving fabrics smelling clean and fresh.
Highly concentrated formula	Less dosage, more cost-effective.
Compatible with all laundry detergents	Can be seamlessly integrated into your current laundry routine.
Suitable for all fabrics	Gentle and effective on a wide range of textiles.
Luxurious fragrance	Turns laundry into a pleasant sensory experience.

Comfort fragrances often incorporate soft floral notes (such as lily of the valley, lavender, chamomile, rose, etc.) or fresh plant notes (such as bamboo, citrus, etc.). These notes are usually not too strong or sweet, but are emitted in a gentle way, bringing a sense of relaxation and tranquility.

Comfort Fragrance
LDZ-PL50071

Technical Parameter:

Fragrance characteristics	Specific aroma classification, such as floral and fruity, fresh, woody, etc.
Fragrance duration	Microencapsulation technology allows the fragrance to last for days or even longer.
Aroma intensity	We strive for just the right intensity of aroma, which can effectively cover up odors without being too strong and pungent.
Washing process stability	Maintains integrity and releases well in washing environments (high temperature, alkalinity, surfactants, mechanical friction)
Irritation/Sensitivity	Gentle and non-irritating
Ingredient Compliance	The ingredients comply with IFRA (International Fragrance Association) standards and national regulations on allergens, banned and restricted substances
Biodegradability	Use more biodegradable ingredients

FUNCTIONS & APPLICATIONS

The application scope of "Comfort Fragrance" is mainly concentrated in the field of clothing care products.

Core application	
Clothing softener/clothing care agent	This is the main product form of Comfort. Comfort's various softeners contain unique fragrance formulas and provide different fragrances, such as fresh and soft, refreshing lavender, pure and mild, water-clear lotus fragrance, fresh bamboo chamomile and milk Phalaenopsis, etc., which are designed to give clothes a soft touch and lasting fragrance.
Clothing fragrance beads/fragrance beans	With the diversification of market demand, some brands have also launched independent clothing fragrance products (such as fragrant beans and fragrance beads). Their core is also a high-concentration fragrance, which is released during the washing process to achieve a more lasting fragrance effect. Although Jinfang mainly focuses on softeners, its fragrance technology can also be extended to this type of product.
Other clothing washing auxiliary products	In theory, Jinfang's fragrance technology can also be applied to other clothing washing auxiliary products, such as laundry detergents and laundry gel beads with softening and fragrance functions.

In summary, the application scope of Jinfang fragrance is focused on the field of household clothing care. The core is to provide lasting fragrance and comfort for all kinds of clothing through its fragrance technology. It is not a general fragrance widely used in food, cosmetics, industry and other fields, but a professional fragrance developed for clothing washing and care scenarios.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
