## Product Description

### Non toxic Superpower Fragrance For Laundry Detergent Making With 10ml Free Samples LDZ-PL50078

#### Product Description:

Superpower Fragrance is an innovative fragrance designed for laundry detergent manufacturers. It goes beyond the traditional concept of fragrance and aims to bring an unparalleled fragrance experience to your laundry detergent products through a revolutionary combination of high-impact fragrance molecules and advanced microencapsulation technology.

The uniqueness of this fragrance lies in its excellent fragrance persistence and stability under harsh washing conditions. It can ensure that the fragrance is effectively released during the washing process and remains after the clothes are dried, giving clothes an irresistible sense of freshness, comfort and luxury.

Superpower Fragrance is carefully balanced and perfectly compatible with a variety of laundry detergent formulas, while enhancing the sensory experience without affecting the product's cleaning performance. Choosing Superpower Fragrance, you will be able to create a laundry detergent product that not only has excellent cleaning power, but also stands out in the fiercely competitive market with its charming and long-lasting fragrance, thereby capturing consumers and enhancing brand value.

**Product Feature:**

The fragrance characteristics of Super Energy Fragrances are its balanced complexity: freshness and cleanliness are the main characteristics, combined with soft floral and vibrant fruity/green fragrances that are highly accepted by the public, and advanced technology is used to achieve excellent long-lasting fragrance and odor covering power. It aims to provide a clothing fragrance experience that can not only reflect the "super energy" efficient cleaning feeling, but also bring a long-lasting, pleasant and universally popular clothing fragrance experience.

Features Category	Specific features	Typical aroma elements	Convey feelings
Dominant style	Fresh and Clean: Simulates the natural, pure "just washed" refreshing feeling.	Aquatic, marine, ozone, light soap, cotton	Clean, thorough, and burden-free
Core Tone	Popular floral fragrance: a soft, non-irritating classic floral fragrance	Lily of the valley, jasmine, freesia, delicate rose	Elegance, comfort and pleasure
Auxiliary highlights	Vibrant Fruity/Green: Adds brightness and life.	Citrus, green apple, green leaves, bamboo leaves	Sunshine, vitality, nature
Fragrance properties	Long-lasting and soothing: The fragrance is long-lasting but not strong or pungent, and you will never get tired of it.	(Achieved through microencapsulation technology)	Safe, relaxing, lasting freshness
Functional	Effectively covers odors: It can effectively combat clothing odors and replace them with fresh fragrance.	/	Thoroughly clean and refreshed

## Superpower Fragrance

LDZ-PL50078

### Technical Parameter:

Fragrance characteristics	Specific aroma classification, such as floral and fruity, fresh, woody, etc.
Fragrance duration	Microencapsulation technology allows the fragrance to last for days or even longer.
Aroma intensity	We strive for just the right intensity of aroma, which can effectively cover up odors without being too strong and pungent.
Washing process stability	Maintains integrity and releases well in washing environments (high temperature, alkalinity, surfactants, mechanical friction)
Irritation/Sensitivity	Gentle and non-irritating
Ingredient Compliance	The ingredients comply with IFRA (International Fragrance Association) standards and national regulations on allergens, banned and restricted substances
Biodegradability	Use more biodegradable ingredients

## FUNCTIONS & APPLICATIONS

The core function of super fragrance is to give washing products a long-lasting, efficient and attractive fragrance. Through its excellent stability and compatibility, it becomes a key factor in improving the market competitiveness and consumer satisfaction of various laundry detergent products (especially laundry detergent).

Core Functions		
Functional category	Core role	Effect presentation
Long-lasting fragrance	Through high-tech microencapsulation technology, the fragrance molecules are wrapped and locked in the clothing fibers, ensuring that the fragrance can be maintained for a long time after washing and drying, and is continuously released during wearing and friction.	Let your clothes have their own "body fragrance", providing a fresh and fragrant experience for several days or even longer
Odor Neutralization	Special fragrance ingredients can effectively absorb or combine with unpleasant odor molecules such as sweat, mold, and food residue on clothing, eliminating them from the source rather than just covering them up.	Clothes are left completely clean and odor-free, leaving only a pure and pleasant scent.
Recipe Compatibility	It has excellent chemical stability and can coexist well with various surfactants, enzymes, additives and other ingredients in laundry detergent without precipitation, discoloration or aroma deterioration.	Ensure that the quality of laundry detergent products is stable during the shelf life and the fragrance lasts as long as new.

Main Applications	
Application Scenario	Specific application instructions
Laundry Detergent	As a key fragrance ingredient for various types of liquid laundry detergents (regular, concentrated, functional, baby-specific, etc.), it gives the product its core olfactory appeal.
Laundry detergent beads/tablets	Used in single-dose convenient cleaning products to ensure the stability and effective release of fragrance in highly concentrated formulas, meeting consumers' dual needs for convenience and fragrance.
Fabric softener	It can be used to enhance the fragrance performance of fabric softener, complement the detergent fragrance, and jointly create an integrated fragrance experience of washing and care.
Independent fragrance products	As the core ingredient of independently added products such as laundry fragrance beads and fragrance beans, it focuses on providing consumers with additional fragrance options and longer-lasting clothing fragrance.

### **Support and Services:**

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
