- Packing: Plastic Or Iron
- Fragrance Type: Eau De Parfum
- Storage: Cool Dry Place Protected

Blue Ocean Fragrance

LDZ-PL10164

Product Description

100% Pure For Perfume Making Oils Blue Ocean Fragrance With Free Sample LDZ-PL10164

Product Description:

As a raw material for perfume making, the uniqueness of "Blue Ocean Fragrance" lies in that it does not imitate a specific ocean smell, but aims to create and interpret an idealized and personalized ocean experience. It belongs to the aquatic/marine fragrance type, dedicated to capturing the vastness, freshness and depth of the ocean, providing a great creative space for perfumers and DIY enthusiasts. The charm of this fragrance is that it is not a fixed fragrance, but a canvas full of possibilities, inviting creators to paint their own blue dreams together.

Product Feature:

The personalized features:	
Abstract artistic expression	It goes beyond the simple sea breeze or salty taste, and simulates the purity and vitality of the seaside in the early morning by cleverly blending the brightness of citrus, the transparency of ozone and the mineral scent of sea salt. This abstract interpretation allows everyone to feel the unique impression of the ocean in their hearts.
Multi-dimensional sensory experience	The aquatic floral and green leaf notes incorporated into the fragrance bring the vitality and delicacy of the deep sea, while the amber, musk and woody notes in the base give it depth and lingering, like the tranquility and contemplation after the tide recedes. This makes it not only "fresh", but also an ocean with "layers and thoughts".
Neutral and storytelling	Its refreshing and clean characteristics make it naturally suitable for the creation of unisex perfumes, breaking the traditional gender boundaries. It encourages perfumers to inject their own stories and emotions, so that every drop of perfume tells a legend of the ocean about freedom, exploration or tranquility.
Unlimited creative ductility	As a raw material, it allows users to personalize the blending according to their own understanding of "ocean". It can be combined with other floral, woody or spicy notes to create a unique marine scent that is bright, deep or mysterious.

The core notes of this fragrance	
Top notes	Often opens with citrus (such as bergamot, lemon, grapefruit), ozone accord and sea salt.
Middle notes	Contains aquatic floral notes (such as water lily, aquatic jasmine), green notes (Green Notes) or slightly spicy notes (such as pink pepper).

Base notes

It usually ends with amber, musk, woody notes (such as cedar, sandalwood, driftwood) or moss (oakmoss).

Blue Ocean Fragrance

LDZ-PL10164

Technical Parameter:

Physicochemical Properties	
Appearance	Colorless to pale yellow
Odor	Fresh, ozonic, marine with hints of citrus, light floral, and woody amber.
Specific Gravity/Density	0.950 - 1.050 g/mL
Refractive Index	1.4500 - 1.5000 (measured at 20°C, usually using the sodium D line).

Solubility	Usually soluble in ethanol (alcohol), most organic solvents and oils, insoluble in water
Storage Conditions	It is recommended to store in a sealed container, away from light and heat, in a cool and dry place.
Shelf Life	Typically 1-3 years (under proper storage conditions)

FUNCTIONS & APPLICATIONS:

As a concentrated essential oil used in perfume making, the core function of Blue Ocean Essence is to provide a unique and recognizable olfactory experience.

Core Functions Of The Blue Ocean Fragrance		
Functional category	Specific function description	Core Features
Olfactory sensory shaping	Give the product a fresh, vast ocean scent, simulating the scent of sea breeze, waves and sea salt. It aims to create a pure, natural and vibrant olfactory scene.	Create unique scent labels to enhance product recognition and appeal.
Creating mood and atmosphere	It has the effect of refreshing the mind and relaxing the body and mind. Its fresh tone helps relieve stress, improve mood, and create a peaceful or energetic atmosphere.	Improve user experience and meet consumers' demand for emotional value.
Product value enhancement	The unique aroma gives the product high added value and differentiation advantage, making it stand out in the market. Aroma becomes an important part of product quality and brand image.	Enhance brand competitiveness and promote product sales.

Summary of the application scope of blue ocean flavor:		
Application Category	Specific application examples	Applicable product features
Fine perfume	EDT, cologne, body spray, roll-on perfume oil.	Creates fresh fragrances for everyday, casual or sporty styles, suitable for the unisex or masculine market, and can also be used in women's fragrances.
Personal Care	Body wash, shampoo, lotion, soap, aftershave, antiperspirant.	It can make cleaning products clean and enhance the fragrance, increase the user's pleasure during bathing and skin care, and leave a lasting fragrance.
Home Fragrance	Scented candles, diffusers, air fresheners, fabric sprays, diffuser oils.	Create a fresh and pleasant atmosphere in your home or office space, eliminate odors, improve environmental odor, and enhance living quality.
Cleaning supplies	Laundry detergent, fabric softener, household cleaner.	Let cleaning products have a refreshing ocean scent, leaving clothes and home environment with a pleasant and lasting clean feeling after cleaning.
