Product Description

Plant Extract Essence Oil Rose Ylang Ylang Essence For Perfume With Free Sample LDZ-PL10197

Product Description:

Immerse yourself in the enchanting world of Rose Ylang Ylang Fragrance Essence, a perfume-making essence designed to highlight your personality. It cleverly combines the exotic passion of ylang ylang with the classic elegance of rose to bring you an unprecedented floral experience.

The core of this essence lies in its unique dual charm: ylang ylang brings the sweetness of tropical flowers, creamy sensuality and subtle fruity spiciness, giving the perfume an unrestrained exotic atmosphere; while rose infuses timeless softness, elegance and a hint of powdery feeling, balancing the intensity of ylang ylang and enhancing the overall sophistication and layering.

This carefully formulated combination transcends the limitations of a single floral scent to create a deep and sensual, familiar and surprising complex fragrance. Whether as the core of a perfume or blended with wood, amber and citrus notes, this essence can show excellent adaptability, giving your creation extraordinary integration and unlimited customization possibilities. Choose Rose Ylang Ylang to make your perfume the perfect carrier of unique taste and personality.

Product Feature:

Rose Ylang Ylang Fragrance Essence is a complex floral concentrate specially formulated for perfume making, designed to provide a unique and luxurious olfactory experience. At its core, it is the perfect fusion of two iconic flowers, rather than a simple superposition, which is its most important feature.

First	Ylang Ylang gives the essence a strong exotic and sensual scent. It brings the unique creamy sweetness of tropical flowers, a hint of fruitiness and subtle spiciness, making the fragrance exotic and seductive, laying a deep and full tone for the perfume.
Secondly	the classic rose fragrance cleverly balances the unrestrained Ylang Ylang, infusing it with elegance, romance and sophistication. Whether it is the richness of Bulgarian rose or the calmness of Moroccan rose, the addition of rose enhances the layering of the fragrance, making it noble and soft while maintaining its warmth.
This harmonious symphony of floral fragrances gives the essence excellent complexity and depth, and the fragrance can evolve on the skin for a long time, showing different sides. At the same time, it has excellent fusion properties. Whether it is used as a core fragrance or paired with wood, resin, citrus and other fragrances, it can perfectly integrate and enhance the quality and uniqueness of the overall perfume work.
