Product Description

Free Sample Mojave Ghost Fragrance For Perfume Making Concentrated LDZ-PL10161

Product Description:

Delve into the mysterious world of Mojave Ghost Fragrance Essence, a rare fragrance created for the art of perfumery. It captures the tenacity and etherealness of the "ghost flower" in the Mojave Desert, condensing that otherworldly beauty into a drop, inviting you to create a sensual poem together.

In the top notes, Musk Amaryllis and Jamaican Fruit dance lightly, like dewdrops in the desert morning, crystal clear and full of vitality. Stepping into the middle notes, the purity of magnolia, the warmth of sandalwood and the delicacy of violet interweave into a meditative painting, and the whispers of flowers and trees echo in the heart. Finally, the depth of cedarwood and ambergris, and the length of musk, build a mysterious and eternal tone, like the quiet echo after the sunset in the desert, which is haunting.

This highly concentrated essence is the key to your customized fragrance, whether it is personal perfume, body fragrance, or home fragrance, it can give your work a unique and lasting charm. Let every breath you take be a tribute to the spirit of Mojave Ghost.

Product Feature:

Top Notes	It opens with the ethereal and clear ambrette, supplemented by the fresh Jamaican nesberry, creating a unique transparent and slightly sweet opening, like the first breeze in the desert morning.
Middle Notes	The core fragrance quietly blooms like a desert flower, the freshness of magnolia, the warmth of sandalwood and the delicate interweaving of violet, giving the fragrance a soft and deep woody floral fragrance, full of meditative mood.
Base Notes	It finally settles into warm and profound cedar wood and ambergris (Crisp Amber), combined with the long musk, leaving a mysterious and sensual aftertaste, like the long echo after the sunset in the desert, which is unforgettable.

FUNCTIONS & APPLICATIONS:

The core value of Mojave Ghost Fragrance Essence lies in its professional attributes as a highly concentrated aromatic component. It accurately captures the unique olfactory signature of "Mojave Ghost" - a blend of ethereal musk ambrette and fresh Jamaican fruit top notes, balanced magnolia, sandalwood and violet middle notes, and deep cedarwood, ambergris and musk base notes. This essence gives you the ability to finely control the intensity of the fragrance, ensuring that the final product has excellent fragrance retention and diffusion, allowing the fragrance to linger for a long time and elegantly. Whether as the core fragrance base of a creation or innovatively compounded with other monomers or compound fragrances, it can sublimate the unscented carrier into a fragrance work with depth and narrative, accurately conveying a specific sensory experience and emotional atmosphere.

Mojave Ghost Fragrance Essence demonstrates its excellent compatibility and wide applicability in multiple fragrance carriers. In the field of advanced perfumery, it is an ideal raw material for the formulation of various perfumes (EDP/EDT), essential oils and solid ointments. Its application scenarios extend to the field of personal care, and can inject unique and lasting fragrance into body lotions, bath products, handmade soaps and even hair care products to enhance user experience. In addition, in the field of ambient fragrance, this essence can efficiently fragrance scented candles, flameless fragrances (Reed Diffusers) and space sprays to create a specific atmosphere. Whether it is for the refined creation of professional perfumers or the personalized practice of DIY enthusiasts, it provides a solid foundation for the development of diversified fragrance products and customized gifts.
