Spearmint Fragrance  
LDZ-PL90008

## Product Description

### Popular Fragrance Spearmint Fragrance For Toothpaste Making Free Sample LDZ-PL90008

#### Product Descriptions:

Our Spearmint flavor is designed for toothpaste formulations. With its pure, sweet and non-irritating mint properties, it is an ideal choice for oral care products. Through advanced flavor extraction and reconstruction technology, this flavor perfectly captures the unique soft and cool feeling of spearmint. Unlike the strong stimulation of peppermint, its mild menthol content brings long-lasting and comfortable freshness. It has excellent odor masking ability and can effectively neutralize the astringency or bitterness of toothpaste bases (such as fluoride and abrasives). We use microencapsulation sustained release technology to ensure that the aroma is highly stable in the paste and is not easy to evaporate or degrade, so as to maintain flavor consistency throughout the shelf life of the product. This flavor meets strict food-grade safety standards and can give toothpaste a fresh and clean sensory experience, which is deeply loved by consumers of all ages.

## Spearmint Fragrance

### LDZ-PL90008

#### Product Feature:

Our Spearmint flavor is unique in the oral care field with its soft, sweet and non-irritating fragrance. Different from the strong irritation of peppermint, it provides a gentle and long-lasting cooling experience and is loved by consumers of all ages. Due to its excellent aroma stability and compatibility, this flavor performs perfectly in toothpaste paste and is ideal for creating a classic, comfortable and refreshing toothpaste.

Its personalized characteristics are:	
Top Notes	Pure cooling sensation, quick sensory activation
Middle Notes	Rich herbal sweet mint aroma, can effectively cover the odor of the base material
Base Notes	Delicate and refreshing aftertaste, providing long-lasting cleansing feeling.

#### Technical Parameter:

Parameter	Technical Specification
Appearance	Colorless to pale yellow clear liquid
Odor Profile	Pure, sweet spearmint aroma, non-irritating
Relative Density	0.900 - 0.930 (25°C)

Main Components	Carvone,Limonene
Recommended Dosage	0.5% - 1.5% (w/w)
pH Stability	pH 4.0 - 10.0
Thermal Stability	Good
Heavy Metals	Complies with food-grade standards
Microbiological	Complies with hygiene standards

#### Functional & Applications:

Our spearmint flavor has multiple core functions designed to improve toothpaste performance and user experience. First, it effectively masks the bitter or chemical taste of the toothpaste base with its soft and sweet aroma, ensuring a clean taste. Second, it provides a mild and long-lasting cooling sensation, which is different from the strong stimulation of peppermint, suitable for sensitive people. We use microencapsulation slow-release technology to give the flavor excellent flavor stability, ensuring the product has a consistent flavor throughout the shelf life. Finally, its unique long-lasting fragrance design leaves a delicate aftertaste after brushing, providing a long-lasting sense of freshness

Our Spearmint flavor is used in a wide range of applications to meet the needs of a wide range of oral care products. Its mild aroma is ideal for children's toothpastes, which can effectively encourage children to develop a habit of brushing. It is also perfect for sensitive toothpastes, providing a comfortable and non-irritating cleaning experience. The classic herbal background of the flavor makes it perfect for compounding with a variety of herbal/natural ingredients to create a harmonious and unique flavor. In addition, it can effectively mask the special taste of fluoride toothpaste, and is also suitable for other products such as mouthwash and tooth powder, giving the product a wide range of market applicability.

### Customizations:

Plant Fragrance Oils Ltd, a renowned manufacturer dedicated to crafting exquisite daily-use fragrances that elevate products to new heights.
