Product Description

Touch of Pink Essence Oil For Perfume Making Free Sample LDZ-PL10076

Product Description:

Unleash your creative potential and ignite your fragrance formulas with Touch of Pink Essence Oil. A masterpiece of perfumery art, this highly concentrated essential oil perfectly captures the essence of femininity, vitality and sophistication. It opens with a luminous burst of citrus, infusing an immediate sense of pleasure. The heart note is a fusion of delicate petals of Rose de Mai and Jasmine from Grasse, giving the scent a soft and elegant layering. This delicate floral transition flows like a tailor-made piece of silk to the base note, where creamy Madagascar vanilla and velvety white musk create a warm and lasting olfactory foundation.

Product Feature:

This essential oil has excellent sillage and longevity, ensuring that your perfume creations are not only eye-catching but also long-lasting. Whether you are building a chypre, floral or fruity fragrance, it can be used as a key ingredient to add an irresistible and unique signature to your work.

Top note: luminous fruity top notes	The fragrance is dominated by fresh grapefruit and sweet mandarin, which bring an immediate sense of joy and abundant energy. This fresh fruity burst is the theme of the fragrance, laying a light and pleasant tone for the subsequent fragrance.
Middle note: delicate floral heart	The classic and romantic rose and the charming and charming jasmine are perfectly intertwined to form the core of the fragrance. This layer of floral fragrance injects elegance and tenderness into the whole, like soft petals caressing the skin.
Base note: warm gourmand base	The scent ends on a warm gourmand base. Creamy vanilla brings a silky, sweet texture, while soft white musk leaves a clean, comfortable and long-lasting finish.

Touch of Pink Fragrance LDZ-PL10076

Technical Parameter:

Fragrance Notes	Woody Floral Musk
Appearance	A liquid, typically clear to pale yellow in color.
Scent	Conforms to standard. This means the scent matches the established profile of "Touch of Pink."

Refractive index	1.4500 - 1.5000
Flash point:	usually above > 93°C (> 200°F)
Solubility	Soluble in ethanol and most oils, slightly soluble or insoluble in water.
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).

FUNCTIONS & APPLICATIONS

Core Functions	
Imparting an Olfactory Signature	It is the soul of a perfume, creating a clear, charming and unique aroma signature and defining the overall tonality of the product.
Modifying and Harmonizing	It can act as a modifier to soften sharp notes, and also as a harmonizer to perfectly blend different notes and create a silky olfactory transition.
Enhancing Longevity and Sillage	Thanks to its stable base, it can significantly improve the longevity and sillage of a perfume, ensuring that the fragrance is long-lasting and eye-catching.

Main Applications	
Fine Fragrance	It is the core fragrance for making Parfum, Eau de Parfum and Eau de Toilette.
Personal Care Products	It can be used for scented body spray, lotion and shower gel.
Aromatherapy Products	It is suitable for scented candles and diffusers to create a pleasant atmosphere.
