Product Description

Concentrated Happy For Women Fragrance For Perfume Making Free Sample LDZ-PL10113

Product Description:

The scent opens with a sparkling burst of citrus, with bright and uplifting ruby grapefruit intertwined with Calabrian bergamot and blended with a unique "fresh air" accord, bringing an indescribable sense of transparency and crispness. This group of scents is as light as light, a typical vibrant top note.

The heart is the core of the scent, composed of a series of white florals, including elegant lily of the valley, light freesia and fresh morning orchid. Together, these floral spices create a pure, ethereal and layered floral harmony, giving the perfume a delicate and feminine soul.

The base note ends with woody musk, with the warmth of sandalwood and the cleanliness of white musk complementing each other, building a stable and lasting olfactory foundation. This light yet lasting dry-down ensures that the scent is not too heavy and perfectly continues the pleasant feeling of the top notes.

Product Feature:

This essential oil has excellent sillage and longevity, ensuring that your perfume creations are not only eye-catching but also long-lasting. Whether you are building a chypre, floral or fruity fragrance, it can be used as a key ingredient to add an irresistible and unique signature to your work.

Top note: luminous fruity top notes	The fragrance is dominated by fresh grapefruit and sweet mandarin, which bring an immediate sense of joy and abundant energy. This fresh fruity burst is the theme of the fragrance, laying a light and pleasant tone for the subsequent fragrance.
Middle note: delicate floral heart	The classic and romantic rose and the charming and charming jasmine are perfectly intertwined to form the core of the fragrance. This layer of floral fragrance injects elegance and tenderness into the whole, like soft petals caressing the skin.
Base note: warm gourmand base	The scent ends on a warm gourmand base. Creamy vanilla brings a silky, sweet texture, while soft white musk leaves a clean, comfortable and long-lasting finish.

Happy for Lady Fragrance LDZ-PL10113

Technical Parameter:

Fragrance Notes	Woody Floral Musk
Appearance	A liquid, typically clear to pale yellow in color.
Scent	Conforms to standard. This means the scent matches the established profile of "Touch of Pink."
Relative density	Usually in the range of 0.950 - 1.050 (25°C)
Refractive index	1.4500 - 1.5000
Flash point:	usually above > 93°C (> 200°F)
Solubility	Soluble in ethanol and most oils, slightly soluble or insoluble in water.
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).

FUNCTIONS & APPLICATIONS

Key Functions	
Defining Olfactory Character	This oil is formulated to be the central pillar of a fragrance, instantly establishing a distinctive olfactory signature. Its blend of vibrant citrus, crisp air accord, and delicate florals creates a feeling of brightness and optimism, serving as the emotional heart of the perfume.
Bridging and Harmonizing Accords	The balanced structure of this fragrance oil allows it to function as a superb harmonizer. It effectively bridges the gap between fresh, volatile top notes and deeper, more stable base notes. The luminous floral heart can soften more robust accords, ensuring a smooth and seamless scent evolution.
Enhancing Sillage and Longevity	The fragrance contains a carefully calibrated base of musk and sandalwood. These less volatile components act as fixatives, significantly boosting the final product's sillage (the scent trail) and longevity (how long it lasts on the skin). This ensures the fragrance is not only noticeable but also endures gracefully throughout the day.
Versatility as a Modifier	It can be used as a modifier to add a touch of freshness and luminosity to existing fragrance formulations, whether you want to brighten a woody scent or add a vibrant kick to a floral bouquet.

Primary Applications	
Fine Fragrance	The primary application is in creating fine fragrances like Eau de Parfum and Eau de Toilette, where it can be the star of the show.
Personal Care Products	Ideal for infusing a cheerful scent into lotions, body washes, soaps, and hair care products.
Ambient Scenting	It is excellent for use in diffusers, room sprays, and candles, helping to create a welcoming and mood-boosting atmosphere in any space.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting of several Ph.D.s and senior engineers, and has established an associated laboratory with many universities and colleges. Meanwhile, the company integrates global technology, information, and resources to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavors.
