Product Description

High Purity Jean Paul Gaultier Pink Essence For Perfume Making Free Sample LDZ-PL10124

Product Descriptions:

This is a well-structured, well-diffusing and long-lasting fragrance, perfect for creating feminine, sensual and modern perfumes. Its balance of sweet, spicy and floral notes gives it a wide range of blending potential in perfume making.

Product Feature:

The fragrance is dominated by its Amber Floral accord, which reveals a rich and sensual fragrance structure. Its core notes are built around white flowers such as Orange Blossom and Tuberose, creating a rich, rich and creamy Floral Heart. The top note cleverly combines the spicy ginger with the freshness of citrus, giving the fragrance a vibrant aldehydic flash at first contact, instantly attracting the nose. The middle note is built by blooming jasmine, orange blossom and tuberose, exuding a charming white floral scent. The base note setting provides this fragrance with excellent longevity and depth. Vanilla, Benzoin and Creamy Woody Notes provide a warm, sweet gourmand texture, finished with a base of Musk and Amber for a smooth, sensual dry-down.

Technical Parameter:

Parameter	Technical Specification
Appearance	Colorless to pale yellow clear liquid,Maintains liquid state at room temperature

Microbiological	Complies with hygiene standards
Shelf Life	24 months
Storage Condition	Store in a sealed container in a cool, dry, well-ventilated place, away from heat and ignition sources

Functional & Applications:

The core function of this fragrance is that it serves as the core olfactory base for perfume formulation. It provides a complete and complex olfactory pyramid structure (Olfactive Pyramid) in a highly concentrated form, allowing perfumers to create on this basis. The fragrance gives the final product excellent diffusion (Sillage) and longevity (Longevity) through its high concentration of active fragrance molecules.

Its functions can be broken down into the following aspects	
Provide an olfactory skeleton (Structural Framework)	The amber floral structure of the fragrance provides the dominant olfactory characteristics of the perfume, without the perfumer having to build a complex floral-gourmet combination from scratch.
Enhance longevity (Longevity Enhancement)	The heavy base notes such as vanilla, benzoin and amber act as fixatives in the formula, effectively slowing down the evaporation rate of the highly volatile top note molecules and ensuring that the fragrance can be retained for a long time.
Sillage Augmentation	The top notes of aldehydes and ginger and the white flowers in the middle give the fragrance a strong projection, allowing its fragrance to diffuse effectively in the air, forming a striking fragrance trajectory.
Balancing Agent	The formula of the fragrance has achieved a balance of sweetness, spiciness and floral notes, reducing the complexity of perfumers in balancing multiple notes and can be directly used to build harmonious perfume works.

Application	
Fine Fragrance	This is its main application area. It can be used as the core fragrance of high-concentration perfumes such as Eau de Parfum (EDP) and Parfum (Extrait). The perfume formula can be completed by adding solvents such as ethanol and deionized water. Its preset fragrance makes it very suitable for the preparation of feminine, sensual and modern commercial fragrances.
Body Care	This fragrance can be used in products such as scented body lotion, shower gel, body mist, etc. It can give these products a luxurious fragrance consistent with the perfume line, enhancing the overall value and user experience of the product.
Home Fragrance	Although the concentration needs to be adjusted, this fragrance can also be used to make scented candles, diffusers and room sprays. Its strong diffusion and persistence enable its fragrance to effectively cover a large space.
Fragrance Line Extension	For existing fragrance brands, this essence provides an ideal fragrance base for expanding their product lines, such as launching new products such as solid perfumes or hair mists, while maintaining the consistency of the brand's fragrance.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Customizations:

Plant Fragrance Oils Ltd, a renowned manufacturer dedicated to crafting exquisite daily-use fragrances that elevate products to new heights.
