LDZ-PL20057

Product Description

Body Wash Fragrance Enchanteur Essence For Shower gel & Scented Soap Making LDZ-PL20057

Product Descriptions:

Enchanteur Essence for Shower Gel & Scented Soap is a fragrance collection designed to enhance the daily bathing experience, with French romance and exquisite fragrance at its core. The fragrances in this collection are often dominated by complex floral notes, cleverly paired with fruity, citrus or woody notes to create a multi-layered and emotional fragrance structure.

Its fragrance design usually pursues long-lasting fragrance and pleasant sensory experience. For example, the classic "Charming" fragrance uses rose and lily of the valley as the core floral fragrance, supplemented by the brightness of citrus and the enhancement of aldehydes, and uses musk and cedarwood as the base notes, giving the fragrance a soft and sensual aftertaste. This blending method aims to create an atmosphere that is both fresh and energetic and elegant and charming.

In terms of formula, Enchanteur fragrance focuses on compatibility with the matrix of bath products, ensuring that the fragrance can be fully released and attached to the skin during the cleansing process, achieving the effect of "fragrance washing and care". The professional consideration of its fragrance is that it can give shower gels and soaps a rich and stable fragrance performance without affecting the cleansing and moisturizing effects of the products. Through the selection of spices and precise proportions, the Enchanteur Essence series aims to sublimate daily washing and care into an immersive aromatherapy experience, awakening the senses and leaving a lasting and pleasant fragrance mark.

Product Feature:

The Enchanteur Essence series of fragrances are centered around classic French floral notes, designed to give shower gels and soaps a delicate and lasting scent. The fragrance design usually follows the traditional three-part structure, creating a rich and fascinating olfactory experience.

The fragrance characteristics of the Enchanteur Essence series are its exquisite use of floral notes and the pursuit of overall fragrance balance, making the skin exude a pleasant and lasting French romantic fragrance after bathing.

Top Notes	Usually opens with fresh citrus or bright aldehydes, instantly bringing vitality and joy. Some fragrances will incorporate the freshness of green leaves to pave the way for subsequent floral notes.
-----------	---

Heart Notes	This is the core of the fragrance, dominated by rich complex floral notes. Common floral elements include romantic rose, elegant muguet, noble jasmine or sweet tuberose. These floral notes are intertwined to give the fragrance a soft and sensuous quality.
Base notes	The base of the fragrance, designed to provide lasting warmth and depth. Usually soft musk, calm sandalwood or cedarwood are used, and sometimes the sweetness of amber or vanilla is added, leaving a gentle and lingering aftertaste for the entire fragrance.

Technical Parameter:

Parameter	Technical Specification
Appearance	It has medium viscosity and is light yellow to amber in color.
Odor Profile	The fragrance is usually a complex floral note, supplemented by fruity, citrus or woody elements
Olfactive Pyramid	The front and middle tones are distinct, showing an evolution from fresh to warm
Flash Point	> 70°C
Recommended Dosage	Scented candles: 5% - 10% (w/w) Diffusers: 15% - 25% (w/w) Aromatherapy diffusers: 0.5% - 2% (w/w)
Stability	Highly resistant to light, temperature changes, oxidation and product pH, effectively preventing fragrance deterioration, fading or product discoloration.
Volatility	Optimized to provide long-lasting fragrance, ensuring that the fragrance is fully released during the bathing process and retained on the skin.
Solubility	Dispersible in both water-based shower gels and oil-based soaps without stratification, turbidity or precipitation.
Thermal Stability	Thermal Stability: Excellent; scent remains stable at candle melting point (~90°C) and during burning Light Stability: Good; recommended to store away from light)
Main Ingredients	Follow the International Fragrance Association (IFRA) standards to ensure that fragrance ingredients meet safety regulations.
Microbiological	Complies with hygiene standards
Shelf Life	24 months
Storage Condition	Store in a sealed container in a cool, dry, well-ventilated place, away from heat and ignition sources

Functional & Applications:

The core function of the Enchanteur Essence range of fragrances is to give shower gels and soaps outstanding fragrance expression. It does not just add scent to the product, but also enhances the consumer's overall bathing experience through carefully formulated fragrances, elevating it from daily cleansing to a sensory enjoyment.

First, it ensures long-lasting fragrance retention. High-quality fragrances can fully release fragrance during the cleaning process and still adhere to the skin softly after cleaning, allowing users to maintain a pleasant fragrance for a long time after bathing. Secondly, Enchanteur Essence is committed to providing unique and recognizable fragrances. Inspired by classic French romance, the fragrance formula is designed to create an elegant, feminine floral note that is closely integrated with the brand image and forms a unique olfactory memory.

In addition, the fragrance series has good stability and compatibility. It can be perfectly integrated into various shower gel and soap bases without causing product discoloration, turbidity or performance degradation. This means that the fragrance not only provides an attractive aroma, but also maintains the original quality and efficacy of the product. Ultimately, the main function of Enchanteur Essence is to create an emotional connection, evoking a sense of pleasure, relaxation or self-confidence in consumers through its unique aroma, thereby enhancing the product's marketability and brand loyalty.

Enchanteur Essence fragrances are mainly used in cleaning products in the personal care field, especially shower gel and scented soap. In shower gel, the application of Enchanteur Essence is aimed at enhancing the sensory experience during bathing. When the shower gel comes into contact with water and skin, the fragrance can be quickly released to produce rich scent bubbles, filling the entire bathroom with pleasant fragrance. Its good water solubility and volatility ensure that the fragrance can be fully diffused during the bathing process, and still leave a faint fragrance on the skin after rinsing, making the user feel refreshed and happy. This application not only meets the cleaning needs, but also injects the experience of aromatherapy, making every bath a moment of relaxation.

For soap, Enchanteur Essence gives the product a unique fragrance feature and a longer-lasting fragrance retention ability. Whether it is the subtle fragrance emitted by the dry soap itself or the scented foam produced during use, the fragrance can play a stable role. It makes soap not only a cleaning tool, but also a personal care product with "emotional value", allowing users to feel the romance and refinement conveyed by the Enchanteur brand when washing hands or taking a bath. By using it in these products, Enchanteur Essence effectively enhances the added value and market appeal of the products.
