Product Description

High Concentrated Patchouli Fragrance For Diffuser & Scented candles & Reed Sticks LDZ-PL30316

Product Description:

Patchouli Fragrance is a boutique fragrance created for high-end diffusers and candles, designed to provide a unique sensory experience with rich, woody and earthy notes. At the heart of this fragrance lies a deep interpretation and artistic refinement of this classic fragrance. Known for its deep, rich, slightly earthy and slightly smoky aroma, patchouli is often used to create a warm, exotic and calming atmosphere. In the fragrance formula, we carefully balance the layers of earthy notes and woody accords to show the original richness and depth of patchouli, while incorporating subtle sweet-spicy nuances or amber undertones to add complexity and softness to the scent. In addition, in order to enhance the persistence and diffusion of the fragrance, a small amount of resinous elements or musky hints may be cleverly added as a base to ensure that the fragrance is evenly diffused in the space and can show a rich fragrance evolution over time.

Patchouli Fragrance

LDZ-PL30316

Product Feature:

This fragrance is made from high-quality aromatic compounds and natural extracts to ensure excellent volatility and throw in the diffuser, quickly filling the space and maintaining the consistency of the fragrance. For scented candles, it provides excellent hot throw and cold throw performance, and the aroma is stable during the burning process without unpleasant chemical odors. Its professional formula ensures good compatibility with different wax bases and carrier oils, making it an ideal choice for fragrance product manufacturers pursuing unique fragrance performance.

Top Notes	It usually opens with a fresh scent of camphor and a hint of spiciness, which may be the unique volatile components of patchouli itself, or a small amount of elements such as bergamot or cloves may be added to inject instant vitality and penetration into the fragrance, paving the way for the subsequent deep fragrance notes.
Heart Notes	This is a deep, wet and slightly musty unique scent, often described as the smell of a forest or wet soil after rain. To increase complexity and softness, it may be blended with a faint floral scent of rose or geranium, or a sweet feeling of cocoa or vanilla, making the earthy scent of patchouli less rough and more rounded.
Base Notes	The cornerstone of the scent is here, with rich woody notes such as sandalwood and cedar, perfectly blended with the resinous and smoky feel of patchouli itself. At the same time, the addition of amber, musk or vanilla adds warmth, lasting sweetness and deep layers to the entire scent, ensuring that the fragrance lingers for a long time, leaving an unforgettable exotic and calm impression.

Technical Parameter:

Key Parameters	
Odor Profile	Woody oriental notes. Main notes: camphor, spicy; middle notes: earth, damp, cocoa/floral (slight); base notes: deep woods (such as sandalwood, cedar), amber, musk.
Diffusion performance	Cold Throw: Excellent, the aroma spreads quickly and evenly. Hot Throw: Excellent, the aroma is stable and rich during burning.
Specific Gravity	0.90 - 1.05 at 25°C
Refractive Index	1.450 - 1.500 at 20°C
Solubility	Oil soluble, well miscible with a variety of vegetable oils, mineral oils and diffuser base fluids.
Recommended Usage Level	Diffuser: 5% - 20%
	Scented candles: 6% - 12%
Storage conditions	Store in a cool, dry, dark place, avoid high temperature and direct sunlight, and keep the container tightly closed.
Stability	High thermal stability ensures the intricate fragrance profile remains true under heat. It has a projected shelf life of at least 24 months when stored in original, sealed containers away from direct light and extreme temperatures.

FUNCTIONS & APPLICATIONS

Patchouli Essence is a high-quality, concentrated aromatic blend whose core function is to provide a unique and deep scent experience for fragrance products. This fragrance has been expertly formulated to perfectly capture the earthy, woody and slightly spicy signature notes of Patchouli. It has excellent scent throw, which can effectively and evenly spread the fragrance into the surrounding environment, while having excellent longevity, ensuring that the fragrance can maintain its strength and integrity for a long time.

Its professional formula takes into account the stability and compatibility of the fragrance in different media, whether mixed with oil-based, wax-based or other solvents, to avoid chemical reactions or unpleasant odors. The complex fragrance structure of the fragrance, from the fresh camphor top note, to the deep earthy and woody middle notes, to the warm amber and musk base notes, ensures that the fragrance will enrich and evolve over time, bringing immersive sensory enjoyment to the user. This fragrance is ideal for creating fragrance products with exotic, calm or meditative atmospheres.

Patchouli essence has a wide range of applications in the field of fragrance products due to its unique aroma charm and excellent performance, especially in diffusers and scented candles.

In diffuser applications, Patchouli essence can be easily integrated into various diffuser systems, such as ultrasonic aromatherapy machines, reed diffusers and car aromatherapy. It exhibits excellent cold diffusion (Cold Throw) ability, which can effectively release fragrance without heating, quickly transforming the space into a peaceful, grounded and exotic environment. Its high concentration means that a small amount of fragrance can achieve the ideal fragrance diffusion effect, making it an ideal choice for creating a deep atmosphere in meditation spaces, bedrooms or living rooms.

In scented candle applications, this fragrance can give candles excellent hot diffusion (Hot Throw) and cold diffusion (Cold Throw) performance. When the candle is not lit, it can provide an attractive "cold fragrance" to increase the attractiveness of the product; after lighting, Patchouli essence can steadily and continuously release its iconic deep fragrance, and keep the fragrance pure during the combustion process without undesirable combustion byproducts. It has good compatibility with a variety of wax bases (such as soy wax, beeswax, paraffin, etc.), ensuring the perfect fusion of fragrance and wax, bringing consumers a long-lasting and high-quality fragrance experience, which is very suitable for home spaces that require a quiet or natural atmosphere.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
