- Perfume Type: Regular Size
- Other Names: Concentrated Fragrance
- Solubility: Oil/ Water Soluble
- Occasion: Everyday
- Application: Body Perfume Making
- OEM Service: Welcome

Oud Agarwood Fragrance
LDZ-PL10191

Product Description

Purity Oud Agarwood Fragrance Perfume Oils With Free Sample LDZ-PL10191

Product Description:

Oud essential oil, derived from the rare Agarwood, is one of the most exotic and profound fragrances in the world of fragrance. It is not extracted directly from wood, but is formed after a long period of mellowing when the Agarwood is infected by fungi and secretes an aromatic resin for self-defense. This unique generation process gives Agarwood essential oil unparalleled complexity and multi-dimensional aroma.

In terms of fragrance characteristics, Agarwood essential oil shows significant woody, animal and smoky feelings, often accompanied by subtle medicinal or leathery scents. Its top notes may have a moist feeling of soil or a slight spiciness, laying a deep tone for the olfactory experience. As the aroma develops, the middle note gradually reveals the mellow woody fragrance unique to Agarwood, blending the sweetness of hay, leather and even a hint of honey, showing a rich and warm layer. The base notes return to the core charm of agarwood, namely its iconic indolic and resinous amber notes, giving the fragrance extreme persistence and depth, leaving an unforgettable, mysterious and seductive mark on the skin.

Oud Agarwood Fragrance

LDZ-PL10191

Product Feature:

Oud is a fragrance that stands out in the world of fragrance for its unparalleled complexity and depth. It is an oriental woody animalic fragrance derived from the precious resin secreted by infected agarwood.

Top Notes	Usually opens with its unique smokiness and a hint of earthy moisture, sometimes accompanied by a slight spicy irritation, laying a raw and impactful foundation for the subsequent development of the fragrance. This opening is not a traditional freshness, but more of a deep and meditative introduction.
Heart Notes	Showing a mellow, dry woody fragrance, blending the toughness of leather, the slight sweetness of hay and the unique background of medicine. High-quality Oud will present a warm and layered fragrance at this stage, and its fragrance is full and has a significant penetration, which is impressive.
Base Notes	Pushes the animality and resinous amber of Oud to the extreme. The fragrance becomes deeper, lasting and seductive, exuding the sexy charm of musk and the sweet and sweet resinous characteristics. It leaves a mysterious, warm and lasting mark on the skin, symbolizing strength and nobility.

Technical Parameter:

Key Parameters	
Fragrance content	30% - 70%+
Physical state	Clear oily liquid
Flash point	above 93°C (200°F)
Fragrance lasting time	8 - 12 hours or more
Skin affinity	High
Specific Gravity	0.95 - 1.05 g/mL
Refractive Index	1.50 - 1.54 (20°C)
Diffusion	Very slow
Solubility	Oil soluble, well miscible with a variety of vegetable oils, mineral oils and diffuser base fluids.
Storage conditions	Store away from light, recommended use within 18 - 36 months.
Stability	High thermal stability ensures the intricate fragrance profile remains true under heat. It has a projected shelf life of at least 24 months when stored in original, sealed containers away from direct light and extreme temperatures.

FUNCTIONS & APPLICATIONS

Agarwood essential oil is known for its excellent fragrance retention and aroma intensity. The high concentration of agarwood essence makes it an ideal base for making high-end perfumes, custom fragrances and luxury fragrance products. It is often used as a core note (heart note) or base note, adding depth, breadth and uniqueness to perfumes. Its unique and complex aroma properties make it play a key role in oriental, woody fougere and leather fragrances, providing strong support and lasting sensory impact for the overall aroma structure. In addition, agarwood essential oil is also used in traditional incense and aromatherapy, and is highly sought after for its calming and meditative effects.

Oud essential oil has a wide range of important applications in high-end fragrance and related fields due to its unique deep fragrance and excellent performance.

First, as a personal fragrance, it is the core ingredient in making luxury perfumes. Oud essential oil is often used as a base note or heart note, giving the fragrance unparalleled persistence, depth and complexity. Especially in oriental, woody and leather fragrances, Oud can provide a unique animal, smoky and resinous feeling, making it stand out among many fragrances. When applied in small amounts to pulse points, its aroma can perfectly blend with body temperature to form a highly personalized and powerful olfactory imprint.

Secondly, Oud essential oil is an ideal choice for fragrance layering. It can be used with lighter perfumes or unscented body care products to enhance the overall fragrance layering and fragrance duration, while creating a unique and exclusive fragrance for the user. Its rich characteristics also make it a precious raw material for customized perfumes, satisfying high-end consumers' pursuit of personalized fragrances. In addition, agarwood essential oil is also popular in the field of home fragrances. Dropping it into diffusers, aromatherapy machines (especially waterless diffusers) or incorporating it into high-end candles, incense sticks and other products can create a tranquil, luxurious and exotic atmosphere for the living space, bringing a sensory experience of meditation and relaxation. Due to its preciousness, it is more used to create fragrance in small, private spaces rather than covering large areas.

Finally, in aromatherapy and traditional culture, agarwood essential oil is used for meditation, yoga or sleep aid because it is believed to have a calming and soothing effect, reflecting its spiritual application value beyond pure olfactory enjoyment.
