## Product Description

### Eco Friendly Lily Flavor Essence For Laundry Detergent / Softener With Free Sample LDZ-PL50108

#### Product Description:

We are well aware of your pursuit of high-quality life, so this lily fragrance is not the common sweet floral fragrance on the market. We use advanced fragrance blending technology to cleverly combine the fragrance of lily with a hint of green and elegant woody notes. The top note is the fresh and lively fragrance of lily petals, as if the lily with dewdrops swaying in the breeze in the morning; the middle note gradually shows its gentle and elegant nature, accompanied by a little freshness of green leaves, balancing the rich floral fragrance; and the base note ends with a calm woody fragrance, giving the clothes a deep and high-end texture, allowing the fragrance to linger for a long time.

Ingenious craftsmanship, long-lasting fragrance

This fragrance uses a high-purity concentrated formula to ensure that a small amount of use can achieve the desired effect. Its unique microcapsule sustained-release technology can lock the fragrance molecules firmly in the clothing fibers, and it can continue to emit a charming fragrance even after multiple washing and drying. Your clothes are no longer just clean, but also given a unique "fragrance label", allowing you to exude confidence and elegance wherever you are.

Gentle and non-irritating, a safe choice

While pursuing excellent fragrance, we pay more attention to the safety of our products. This fragrance strictly follows the standards of the International Fragrance Association (IFRA), uses mild and non-irritating raw materials, does not contain harmful substances such as phthalates, is skin-friendly, and can be used with confidence even on sensitive skin. It can be perfectly integrated into various laundry detergent and softener formulas, has high stability, and is not easy to change color or precipitate. It is an ideal choice for you to improve the grade of your products and create a differentiated competitive advantage.

## Lily fragrance essence LDZ-PL50108

### Product Feature:

This concentrated lily fragrance is tailor-made for laundry detergent and softener, designed to infuse clothes with elegant and lasting fragrance. It is not just a simple floral scent, but a layered sensory experience that makes every wash a pleasure.

The uniqueness of this fragrance lies in its exquisite interpretation of the lily scent, which cleverly combines freshness, softness and depth. It has the purity and fragrance of lily, but avoids the common sweetness, bringing a high-level and layered fragrance.

Top Notes	Mainly based on the fresh and lively scent of lily petals, as if the lilies with dew in the morning are gently swaying in the breeze, bringing instant brightness and vitality.
Heart Notes	Gradually showing the gentleness and elegance of lilies, accompanied by a hint of refreshing green leaves. This makes the floral fragrance more balanced, fresh, and adds a natural breath.
Base Notes	Ending with a calm woody scent, giving the clothes a deep and high-end texture, allowing the fragrance to linger for a long time, leaving an unforgettable aftertaste.

### Technical Parameter:

Key Parameters	
Fragrance Type	Concentrated Oil-Based Essence
Appearance	Clear to Pale Yellow Liquid
Odor Profile	Typical lily fragrance with fresh green and soft woody aftertaste
Flash point	>93°C (200°F)
Fragrance lasting time	After multiple washes, the scent lasts for more than 72 hours
Specific Gravity	0.930 - 1.030 g/mL
Refractive Index	1.440 - 1.540 (20°C)
Product Range	Air Fresheners, Diffusers, Scented Candles, Room Sprays
Solubility	Easily soluble in ethanol, propylene glycol, surfactant system, and miscible with water
Recommended Usage Rate	Laundry detergent: 0.1% - 0.5% (w/w); Fabric softener: 0.05% - 0.3% (w/w)

Storage conditions	Store in a cool, dry, dark place, away from high temperature
Shelf time	24 Months from Manufacture (Properly Stored)
Stability	Good stability at high temperature (50°C, 30 days) and pH (3-10) conditions
Safety	Complies with IFRA International Fragrance Association standards, non-irritating

## FUNCTIONS & APPLICATIONS

The core function of this concentrated lily fragrance is to give laundry detergent and softener products excellent long-lasting fragrance. It uses advanced microcapsule slow-release technology to lock the fragrance molecules firmly into the fibers of clothing. This means that even after multiple washing, rinsing and drying, the clothes can continue to emit a fresh and elegant lily fragrance, rather than a short-lived fragrance. Secondly, it can significantly enhance the premium feel and added value of the product. Different from ordinary floral scents on the market, the unique fragrance level of this lily fragrance (lily petals, green leaves, woody scent) brings consumers a deeper olfactory enjoyment, sublimating the daily laundry experience into a sensory pleasure. In addition, its highly concentrated formula ensures that the ideal effect can be achieved even with a small amount of use, saving costs for manufacturers.

This concentrated lily fragrance can be widely used in various laundry detergents and fabric softener products, bringing unique market competitiveness to the brand. For laundry detergent, it can make clothes emit a charming fragrance while cleaning, improving user satisfaction. It is especially suitable for high-end or functional laundry detergent series, such as washing products for special fabrics or baby clothes. For softeners, it can enhance the softness of clothes while giving them a lasting fragrance, making clothes emit a pleasant fragrance, effectively enhancing the "fragrance label" of the product. In addition, it is also suitable for the research and development of innovative products such as fragrance laundry beads and clothing fragrance sprays, expanding the brand's product line and meeting consumers' demand for personalized fragrance experience. The addition of this fragrance can help brands stand out in a homogeneous market and establish a unique brand image.
