

Artificial Blue Rose Fragrance Flavor For Scented Candle Making Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40038
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Blue Rose Essence
LDZ-PL40038

Product Specification

- Burn Time: Up To 50 Hours
- Origin: China
- Add Ratio: 6%-10%
- Handmade: Yes
- Fragrance Notes: Jasmine, Rose, Lavender
- Delinery: 3-5 Working Days
- Scent: Flower
- Application: Candle
- Scent Intensity: Medium
- Packing Way: Plastic Or Iron
- Container Material: Plastic Bottle/ Iron Barrel
- Grade: ISO Grade
- Scent Strength: Medium
- Type: Synthetic Flavour & Fragrance
- Packing: Plastic Or Iron

Product Description

Artificial Blue Rose Fragrance Flavor For Scented Candle Making Free Sample LDZ-PL40038

Product Description:

Blue roses are not real flowers in nature, but a wonderful conception of fragrance art. This fragrance cleverly captures people's imagination of blue flowers, combining the classic fragrance of roses with a hint of refreshing minerality or a clear ocean-like scent. When you first smell it, you will feel the softness and mellowness of traditional roses, which are like velvety petals with dew in the morning, exuding a sweet and elegant fragrance. However, on top of this familiar tone, a unique "blue" tonality quietly emerges - this may come from a slight aldehyde fragrance, bringing a clear feeling like the first melting of ice and snow; or a fresh aquatic tone, creating the artistic conception of dew or wet soil; or even a trace of woody or earthy scent, giving roses a deeper and more meditative quality, making them get rid of pure sweetness and move towards a quiet and philosophical state.

Blue Rose Essence

LDZ-PL40038

Product Feature:

As a professional candle fragrance, it exhibits excellent aroma diffusion ability (Hot Throw) when the candle burns. The aroma spreads evenly and persistently with the temperature of the candle flame, quickly filling the entire room. Its unique blue rose fragrance can instantly enhance the high-end sense and artistic atmosphere of the space, creating a unique atmosphere that is both mysterious and romantic, elegant and modern.

Top note:	At first sniff, you'll notice a fresh, slightly aquatic or dewy aroma, perhaps with a hint of citrus or aldehydes. This sets a clear, bright tone for the overall fragrance, like misty blue petals at dawn, instantly awakening the senses and bringing a touch of mysterious attraction.
Middle note:	The core note is the rich fragrance of the classic Bulgarian or Moroccan rose. However, unlike traditional rose fragrances, subtle mineral notes or cool woody elements (such as cedar) are incorporated here, making the rose fragrance no longer simply sweet, but adding a calm, deep blue tone. This unique fusion gives the blue rose essence a unique charm that seems to exist only in imagination.
Base note	The end of the fragrance tends to be soft and lasting, usually composed of base spices such as amber, musk or slight patchouli. These base notes provide a solid support for the blue rose scent, allowing it to continue to diffuse in the space, leaving a warm and slightly sensual aftertaste, which not only deepens the mystery of the front and middle notes, but also gives the scent a stronger layer and memory point.

Technical Parameter:

Fragrance Notes	Complex floral-woody-amber
Appearance	This flavor is a transparent to slightly blue clear liquid without any impurities or precipitation
Relative density	Usually in the range of 0.900 – 0.980 (g/cm ³ @ (20°C))
Refractive index	1.4500 – 1.4700 (20°C)
Flash point	usually above 80°C
Acid Value	< 5.0 mg KOH/g
Odor Intensity	High intensity, rich and long-lasting
Dosage	In candle formulations, the recommended addition ratio is 6% – 10% (w/w), which can be adjusted to achieve optimal results depending on the desired aroma intensity.
Evaporation rate	The average evaporation rate is about 0.5 – 1.5 mL/24 hours (based on the number of standard rattan sticks and ambient humidity)
Long-lasting fragrance	Fragrance lasting time (paper strip) ≥48 hours
Solubility	Excellent compatibility and complete solubility with various mainstream wax bases (such as soybean wax, paraffin wax, beeswax, etc.)
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Stability	After a 2-hour high-temperature baking test at 120°C, there was no obvious decomposition or deterioration of the aroma, ensuring that the aroma of the candle is long-lasting and stable under high-temperature burning.
Evaporation Rate	Slow Evaporation Rate Compared with alcohol-containing perfumes, its evaporation rate is significantly reduced, making the evolution of the fragrance smoother and more delicate, with richer layers, avoiding the problem of rapid dissipation of the fragrance.

FUNCTIONS & APPLICATIONS

The core function of this blue rose scented candle fragrance is to create a unique atmosphere and enhance the emotional experience. It goes beyond the boundaries of traditional fragrances and aims to transform the space into an olfactory temple full of artistic and emotional resonance. The unique formula of the fragrance ensures that it has excellent hot throw ability when the candle is burning. The aroma molecules are evenly and efficiently released into the air with the heat of the candle flame, and can quickly and permanently fill the entire room. This efficient fragrance diffusion function can not only effectively cover and eliminate odors, but also create a pure and pleasant sensory environment for users. The unique fragrance of blue rose cleverly combines the classic rose fragrance with a hint of cool and mysterious "blue" artistic conception, giving the fragrance the effect of soothing the body and mind and triggering reverie. It can help users relax, reduce daily stress, and even provide a sense of tranquility when meditating or needing to focus. At the same time, its advanced and layered fragrance can significantly enhance the aesthetics and taste of the home, inject a unique personality and romantic atmosphere into ordinary spaces, and become part of the decoration.

With its unique fragrance and excellent fragrance diffusion performance, the blue rose scented candle essence has a wide range of applications in the field of scented candle products, aiming to meet different scenarios and consumer needs.

First, in terms of home scented candles, it is the core ingredient of cup scented candles and columnar scented candles. Consumers can immerse themselves in the mysterious fragrance of blue roses and enjoy exclusive moments of relaxation by lighting these candles.

Secondly, the essence is also widely used in gift scented candle sets. Its unique fragrance makes the "XX brand luxury aromatherapy gift box" with it as the theme an ideal choice for festivals and anniversaries, highlighting the taste and intentions of the gift giver.

In addition, in high-end commercial spaces, such as boutique hotel suites or designer cafes, blue rose scented candles can be used as auxiliary scenting tools to enhance the brand atmosphere and enhance customer experience through forms such as "XX hotel customized scented candles". Its unique aroma can add an artistic atmosphere and a sense of luxury to these places, allowing consumers to be infected by the unique fragrance while enjoying the service.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
-----------	-----	---------------	--------

Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
