Product Description

Artificial Forest Fragrance Flavor For Scented Candle Making With Free Sample LDZ-PL40039

Product Description:

Experience the captivating essence of the wilderness with our premium Forest Fragrance Flavor, meticulously crafted for discerning candle makers. This sophisticated aroma transcends simple woody notes, offering a multi-faceted olfactory journey that evokes the tranquil depths of an ancient forest.

At its heart, the fragrance unfolds with rich, earthy undertones of oakmoss and patchouli, grounding the scent with a profound sense of natural authenticity. These foundational elements are beautifully interwoven with the crisp, invigorating top notes of pine needle and fir balsam, reminiscent of a gentle breeze rustling through towering conifers. A delicate whisper of sandalwood and cedarwood emerges, lending a warm, creamy depth that enhances the overall complexity and longevity of the scent.

Our Forest Fragrance Flavor is expertly formulated for exceptional performance in candle applications. It boasts superior scent throw, ensuring that its captivating aroma permeates any space, creating an immersive and inviting atmosphere. The fragrance is also designed for excellent stability in various wax types, guaranteeing a consistent and long-lasting olfactory experience without discoloration or degradation over time. This highly concentrated blend allows for precise scent customization, empowering you to achieve your desired intensity.

Ideal for creating candles that evoke serenity, reflection, and a deep connection to nature, the Forest Fragrance Flavor is perfect for crafting luxurious artisanal candles that appeal to consumers seeking an authentic and sophisticated olfactory experience.

Forest Essence

LDZ-PL40039

Product Feature:

Our Forest Fragrance Flavor is a sophisticated, multi-layered aroma designed to capture the true essence of a natural forest, offering an immersive sensory experience for your scented candles.

Top note:	The initial impression is a crisp, invigorating burst of pine needle and fir balsam. These bright, uplifting notes evoke the fresh, clean air of a vibrant forest, immediately transporting you to an outdoor setting.
Middle note:	As the fragrance develops, it reveals a rich and earthy heart. Oakmoss provides a deep, mossy character, while patchouli adds a subtly sweet and grounding earthiness. These mid-notes create a dense, verdant core, mimicking the undergrowth of a secluded woodland.

Base note	The lingering finish is warm, woody, and enduring. Sandalwood contributes a creamy, smooth depth, perfectly complemented by the dry, subtly smoky nuances of cedarwood. These base notes anchor the fragrance, providing a lasting impression of ancient trees and tranquil forest floors, ensuring a long-lasting and luxurious aroma for your candles.
-----------	--

Technical Parameter:

Fragrance Notes	Woody, Earthy, Fresh
Appearance	Clear to pale yellow liquid
Relative density	Usually in the range of 0.950 – 1.050 (g/cm³ @ (20°C))
Refractive index	1.4500 – 1.4800 (20°C)
Flash point	> 93°C (200°F)
Acid Value	< 5.0 mg KOH/g
Odor Intensity	High intensity, rich and long-lasting
Dosage	6-10% by weight
Evaporation rate	The average evaporation rate is about 0.5 – 1.5 mL/24 hours (based on the number of standard rattan sticks and ambient humidity)
Long-lasting fragrance	Fragrance lasting time (paper strip) ≥48 hours
Solubility	Fully miscible in most candle waxes (soy, paraffin, coconut, beeswax blends)
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Stability	After light stability test and high temperature storage test (45°C, 30 days), the aroma has no obvious color change or odor
Color Stability	Excellent
Storage Conditions	Store in a cool, dark place, sealed container
Evaporation Rate	Slow Evaporation Rate Compared with alcohol-containing perfumes, its evaporation rate is significantly reduced, making the evolution of the fragrance smoother and more delicate, with richer layers, avoiding the problem of rapid dissipation of the fragrance.

FUNCTIONS & APPLICATIONS

Our Forest Fragrance Flavor is engineered to deliver exceptional performance in scented candle applications, providing a range of functional benefits for candle makers. Its high concentration ensures that a smaller amount of fragrance oil is needed to achieve a powerful and lasting scent, offering cost-effectiveness without compromising on aromatic impact. The formulation is designed for optimal scent throw, meaning the fragrance disperses effectively both when the candle is cold (cold throw) and when it's burning (hot throw), filling the entire space with its captivating aroma.

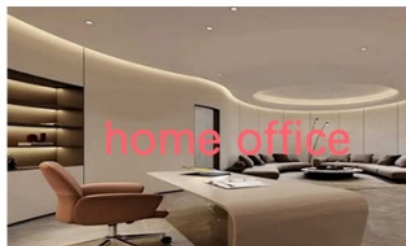

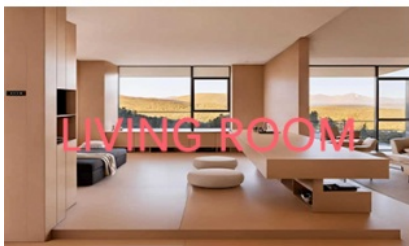

Furthermore, this fragrance boasts excellent stability across various wax types, including soy, paraffin, coconut, and beeswax blends. This stability prevents common issues such as fragrance discoloration, fading, or separation within the wax, ensuring a consistently beautiful and aromatic final product. Its high flash point makes it a safe ingredient for candle manufacturing, minimizing risks during heating and pouring processes. These technical attributes combine to simplify the candle-making process, ensuring reliable and superior results for both artisanal and commercial production.

The versatile and evocative profile of our Forest Fragrance Flavor makes it ideal for a wide array of scented candle product applications, designed to transport consumers to serene natural settings.

Luxury Aromatherapy Candles	Perfect for candles marketed for relaxation, meditation, or stress relief, such as an "Ancient Forest Sanctuary" candle or a "Deep Woods Recharge" candle.
Seasonal & Holiday Candles	Evokes the crisp air of autumn or the festive scent of winter evergreens, fitting for "Winter Solstice Pine" or "Autumn Woodland Walk" candles.
Home Decor Candles	Enhances the ambiance of living spaces, suitable for a "Cabin Retreat" or "Forest Bathing" collection that brings the outdoors in.

Spa & Wellness Candles	Ideal for products designed to create a calming, naturalistic environment in personal care settings, like a "Tranquil Wilderness" or "Evergreen Escape" candle.
Artisanal and Craft Market Candles	Appeals to consumers seeking unique, handcrafted products with a sophisticated and authentic natural scent, such as "Hand-Poured Forest Dweller" candles.

applications

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
-----------	-----	---------------	--------

Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
