Product Description

In Stock Citrus Spring Essence Fragrance Perfume Oil For Perfume Making
LDZ-PL10213

Product Description:

Citrus Spring Essence Fragrance Perfume Oil is a uniquely crafted fragrance, centered around bright and vibrant citrus notes, designed to awaken the senses and deliver an olfactory experience as fresh and delightful as a spring morning. Its alcohol-free formula ensures the fragrance lingers gently on the skin, slowly and gracefully releasing its rich essence with a purity and longevity unmatched by traditional perfumes.

The meticulously crafted accord structure of Citrus Spring Essence opens with sunny citrus top notes, such as the astringent freshness of Calabrian bergamot, the bright energy of Sicilian lemon, or the bitter aftertaste of grapefruit. These spices, like rays of dawn sunlight, instantly illuminate the nose. As the fragrance unfolds, softer, more layered floral or herbal notes emerge in the heart, such as the rich sweetness of orange blossom, the delicate fragrance of freesia, or the fresh green of basil, infusing the citrus brightness with a delicate and refined depth.

Product Feature:

The oily base of this fragrance ensures the scent adheres more closely to the skin, preventing loss of fragrance due to alcohol evaporation, resulting in a longer-lasting, intimate fragrance. Citrus Spring Essence Perfume Oil is more than just a perfume; it's a vibrant and energetic olfactory work of art, created for connoisseurs seeking fresh, luminous, and long-lasting fragrance. Its expert blend reflects not only a profound olfactory aesthetic but also a profound understanding and mastery of the art of perfumery.

Top Notes	Evoke the first rays of sunlight. The subtle astringency of Calabrian bergamot and the crispness of Sicilian lemon intertwine to create the vibrant energy of dawn, punctuated by the playful bitterness of grapefruit. This instantly awakens dormant senses, setting a bright and vibrant prelude. This is no simple burst of citrus, but a precise and layered freshness.
Heart Notes	As the vibrant top notes settle, the heart of the fragrance unfolds like a flower petal. The rich sweetness of orange blossom gently blends with the elegant fragrance of freesia, sometimes enhanced by the verdant touch of basil, infusing the purity of the citrus with a delicate and soft depth. This section of the fragrance maintains the overall lightness while adding an elegant foundation.

Base Notes	The fragrance's lingering lingering finish is composed of clean white musk, calm cedarwood, and warm amber, leaving a fresh and sensual impression on the skin. This base note is not heavy, but in a light and lasting way, ensuring that the fragrance follows you everywhere, exuding a natural and charming aftertaste, and every breath seems to feel the comfort of the spring breeze.

Technical Parameter:

Top Note Diffusion Peak	3-10 minutes after application
Appearance	Clear liquid, the color may change slightly over time, but it will not affect the aroma
Middle Note Duration	3-5 hours
Base Note Longevity	8-12 hours or longer
Relative density	Usually in the range of 0.885–0.905 (g/cm ³ @ (20°C))
Refractive index	1.460–1.470 (20°C)
Flash point	>70°C
Odor Intensity	High intensity, rich and long-lasting
Recommended addition ratio	Suitable for perfumes, colognes, personal care products (e.g., shower gel, shampoo), and home fragrance products (e.g., scented candles, diffusers). The recommended addition level is 5%-20% in the final product, depending on the product type and desired fragrance intensity.
Long-lasting fragrance	Fragrance lasting time (paper strip) ≥48 hours
Solubility	It is easily soluble in ethanol (more than 70%), but insoluble in water.
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Stability	After light stability test and high temperature storage test (45°C, 30 days), the aroma has no obvious color change or odor
Shelf life	24 months (under recommended storage conditions)
Storage Conditions	It is recommended to store between 15°C and 25°C, protected from light and sealed.
Evaporation Rate	Slow Evaporation Rate Compared with alcohol-containing perfumes, its evaporation rate is significantly reduced, making the evolution of the fragrance smoother and more delicate, with richer layers, avoiding the problem of rapid dissipation of the fragrance.

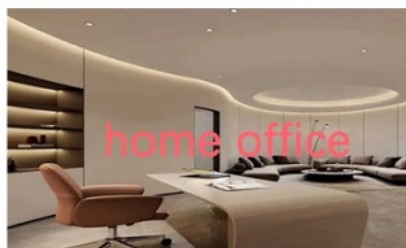

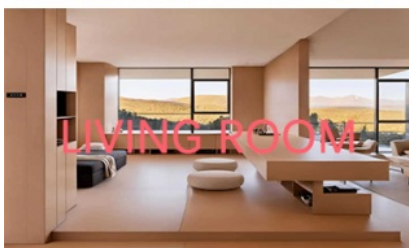

FUNCTIONS & APPLICATIONS

Citrus Spring Essence is a fragrance blend designed to enhance the sensory experience. Its core function is to provide a fresh, invigorating, and long-lasting aroma that effectively covers base odors and imparts a unique olfactory signature. This fragrance is meticulously blended to achieve a layered aroma release. Top notes of bright citrus instantly lift spirits, while heart notes of floral and leafy notes provide a pleasant and balanced aroma. Base notes of wood and musk ensure stability and scalability, significantly extending the fragrance's longevity. Furthermore, its excellent fragrance diffusion properties enable it to perform well in a variety of media, whether blending perfectly with alcohol or stabilizing in surfactant systems, ensuring even fragrance release for an immersive olfactory experience.

Citrus Spring Essence perfume and fragrance has shown wide application potential in multiple product areas due to its excellent aroma properties and stability.

Fine Perfumes and Colognes	As a core fragrance base, Citrus Spring Essence can be used to create unisex or feminine Eau de Toilettes and Eau de Colognes. For example, the Eau de Toilette, "Morning Dew Citrus," perfectly showcases its refreshing yet elegant qualities, imbuing the wearer with all-day freshness and confidence.
Personal Care Products	In shower gels and shampoos, such as "Citrus Vitality Shower Gel," it provides a pleasurable bathing experience, leaving hair and skin with a light, natural fragrance, making every shower a sensory experience. It's also ideal in body lotions and hand creams, adding a touch of fresh, pleasant fragrance to daily moisturizing.
Home Fragrance Products	Citrus Spring Essence is also ideal for scented candles and flameless diffusers. For example, the "Spring Warm Sun Aromatherapy Candle" can quickly create a warm and vibrant indoor atmosphere, purify the space and soothe the body and mind; in the fabric freshening spray, it can effectively remove odors and bring a lasting sense of freshness to clothes and home fabrics.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.
