Product Description

Synthetic Passion Fruit Flavor Fragrance For Scented Candle & Diffuser Concentrated Fragrance LDZ-PL31528

Product Description:

This tropical passion fruit fragrance, specially formulated for scented candles and diffusers, infuses spaces with its unique aroma. This fragrance is precisely formulated to ensure a stable and long-lasting aroma in all applications.

This fragrance, made from high-purity ingredients, boasts exceptional concentration, allowing for significant fragrance impact with a minimal application. It is compatible with a variety of waxes (such as soy, beeswax, and paraffin) and diffuser bases (such as alcohol and DPG), making it easy to mix without affecting the product's appearance or combustion performance.

Whether used in a candle or through a cold diffuser, this fragrance maintains the integrity of its aroma molecules, ensuring even and consistent fragrance distribution throughout the space. It is also temperature-stable, without any off-flavor or aroma distortion.

Product Feature:

The fragrance's progressive structure, from bright top notes to warm base notes, brings a unique and charming tropical feel to your fragrance products.

Top Notes	A burst of bright passion fruit and refreshing citrus begins. This note is designed to instantly excite the senses, creating an energetic, sun-kissed opening. It mimics the tart, juicy aroma released by the peel of a passion fruit upon being cut.
Heart Notes	The fragrance then transitions to a sweet blend of tropical fruits and soft florals. Here, you can experience the sweetness of peach and mango, complemented by elegant floral notes of jasmine or freesia. The heart notes add layered texture and soft depth to the overall fragrance, making it more balanced and avoiding the monotony of a single fruity note.
Base Notes	Finally, the fragrance settles on warm musk and a touch of wood. The base notes provide a solid foundation and lasting strength, allowing the fragrance to linger in the space. These notes ensure the fragrance's longevity and depth, leaving the wearer with a warm and comforting olfactory memory.

Technical Parameter:

Odor Intensity	Aromatic floral fragrance with woody patchouli notes
Appearance	Transparent to light yellow liquid
Middle Note Duration	3-5 hours
Base Note Longevity	8-12 hours or longer
Relative density	Usually in the range of 0.95 - 1.05 (g/cm ³ @ (20°C))
Refractive index	1.470–1.485 (20°C)
Flash point	75°C (167°F) above
Odor Intensity	High intensity, rich and long-lasting
Dosage	For scented candles, the recommended addition level is 6% - 8%; for diffusers, the recommended addition level is 8% - 10% for optimal aroma intensity and diffusion.
Long-lasting fragrance	Perceptible fragrance longevity on skin: 3-5 hours
Solubility	Fully miscible in most candle waxes (soy, paraffin, coconut, beeswax blends)
IFRA Compliance	Complies with the latest IFRA standards, no banned substances
Stability	At room temperature and protected from light, the shelf life is up to 24 months. The fragrance exhibits excellent compatibility and stability in various waxes and diffuser bases, without delamination, turbidity or discoloration.
Color Stability	Excellent
Storage Conditions	Store tightly closed in a cool, dry place (15-25°C) away from light.

FUNCTIONS & APPLICATIONS

This passion fruit fragrance, with its multi-layered aroma and exceptional performance, is designed to deliver a unique sensory experience in aromatherapy products. Utilizing high-purity fragrance ingredients, it ensures excellent aroma stability and diffusibility across a wide range of applications. Whether used in a high-burning candle or a cool-diffusion diffuser, the fragrance maintains the integrity of its aroma molecules, delivering a long-lasting, authentic passion fruit aroma. Formulated in strict compliance with IFRA safety standards, it is free of hazardous substances such as phthalates, ensuring the safety and compliance of the final product. Furthermore, the fragrance exhibits excellent compatibility and blends seamlessly with a variety of waxes (such as soy wax and coconut wax) and diffuser bases (such as DPG and MCT oil) without affecting the physical properties or appearance of the product.

This passion fruit essence is widely used in a variety of aromatherapy products due to its charming fragrance and stable performance, creating a unique market selling point for the brand.

Scented Candles	Suitable for soy, beeswax, coconut, and stone candles. Its high flash point ensures safety during high-temperature preparation and combustion, providing a long-lasting, even fragrance release.
Reed Diffusers	The perfect companion to diffuser bases, such as the low-volatility DPG base. The fragrance dissolves evenly and evaporates efficiently through the reeds, providing a long-lasting, stable fragrance.
Aroma Plaster	Add to plaster hangings or ornaments to impart a long-lasting fragrance. Suitable for wardrobes, drawers, or car interiors.
Room Sprays	Create water-based or alcohol-based room sprays to quickly fill a room with the refreshing aroma of passion fruit.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1. Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
5. Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
