Product Description

Non Toxic Blue Rose Fragrance Essence For Scented Candle Concentrated LDZ-PL40038

Product Description:

Blue Rose Scented Candle Essential Oil is a highly concentrated aromatic substance specifically formulated for scented candles. This fragrance isn't directly extracted from nature, as blue roses don't exist naturally. Instead, it's meticulously blended to mimic their unique aroma. Its core quality lies in its complex and layered notes.

This professionally blended fragrance is of high purity and stability, blending seamlessly into a variety of wax bases (such as soy wax, beeswax, and paraffin wax). It releases its fragrance evenly and continuously during combustion, without creating an irritating odor or affecting the candle's combustion quality. Described as "fresh, elegant, and mysterious," the Blue Rose fragrance is ideal for creating a romantic and tranquil home ambiance, offering a unique sensory experience.

Product Feature:

Top Notes	Create a fresh, bright first impression, often using citrus notes (such as bergamot and lemon) or fresh floral notes (such as lily of the valley) to simulate the refreshing feeling of a dew-soaked morning rose.
Heart Notes	This is the core of the fragrance and the soul of the blue rose scent. Perfumers create a unique "blue" hue by combining various floral notes, such as blending the rich aromas of traditional Bulgarian and Turkish roses with powdery, woody spices like violet and iris, to create a cool, mysterious, and elegant rose fragrance.
Base Notes	Add depth and longevity to the fragrance, often using spices such as patchouli, amber, sandalwood, or musk. These spices anchor the rose in the heart and create a calm, warm finish, ensuring the fragrance continues to develop steadily throughout the burn.

Technical Parameter:

Odor Intensity	Aromatic floral fragrance with woody patchouli notes
Appearance	Light blue to colorless transparent liquid
Fragrance Concentration	>95%
Relative density	Usually in the range of 0.90 - 0.95 (g/cm ³ @ (20°C))
Refractive index	1.470–1.485 (20°C)
Flash point	>93°C
Odor Intensity	High intensity, rich and long-lasting
Usage Rate in Wax	3%-10% (w/w)
Thermal Stability	Good
Solubility	Excellent
IFRA Compliance	Complies with the latest IFRA standards, no banned substances
Stability	In dark and dry conditions, the shelf life can reach 24 months.
Scent Throw	Cold Throw:Excellent Hot Throw:Excellent
Storage Conditions	Store tightly closed in a cool, dry place (15-25°C) away from light.

FUNCTIONS & APPLICATIONS

Concentrated Butter Vanilla Candle Fragrance is a fragrance ingredient designed specifically for high-performance scented candles. Its core function is to provide a stable, long-lasting, and rich aroma experience. This fragrance uses professional perfumery technology to accurately capture the complex notes of butter and vanilla, ensuring its excellent performance during the candle making and burning process.

Specific applications include:	
Scented Container Candles	Serves as the primary fragrance ingredient in various container candles, such as glass and ceramic jar candles, creating a warm and cozy atmosphere in any home.
Wax Melts	Can be used to create buttery vanilla-scented wax melts, which consumers can heat in an aromatherapy burner for a flameless aroma diffusion experience.
Solid Perfume	Combining beeswax with carrier oils creates portable, portable buttery vanilla solid perfumes for easy on-the-go replenishment.
Aroma Plasters	Creates long-lasting aroma for buttery vanilla-scented plaster pendants, which can be hung in wardrobes, cars, or small spaces for both decorative and aromatic purposes.
Massage Candles	Its unique aroma and high-quality formula make it suitable for massage candles, providing a relaxing and nourishing body care experience.
