Product Description

Eco Friendly Peony Fragrance Essence For Softener Laundry Detergent Concentrated LDZ-PL50147

Product Description:

This is a peony fragrance oil designed for softener and laundry detergent. Its complex and multi-layered fragrance structure brings a long-lasting and elegant fragrance to clothes.

This peony fragrance oil is formulated to achieve a perfect transition and balance across the various aroma stages. From refreshing top notes to rich middle notes and lingering base notes, it not only imbues clothes with a captivating fragrance but also enhances the overall wash experience through the art of scent release. Its long-lasting, fresh, and non-greasy fragrance makes it an ideal choice for high-quality clothing care products.

Product Feature:

Top Notes	A fragrance begins with bright, fresh fruity and citrusy notes. These notes are often composed of molecules like bergamot, lemon, or fresh green leaves. These highly volatile ingredients are designed to provide an instant olfactory impact and a sense of vitality. They set a fresh yet lively foundation for the overall fragrance.
Heart Notes	As the top notes fade, the fragrance's core—the soft, rich floral notes—become apparent. The heart, dominated by peony, offers a rich and delicate aroma, often skillfully blended with other floral notes such as rose, jasmine, or lily of the valley. This layer of notes embodies the essence of a fragrance and its artistry, imbuing clothing with a romantic and elegant aura.
Base Notes	The final stage of the fragrance is composed of warm, deep woods, musk, or amber. These low-volatility notes anchor and extend the fragrance, ensuring it lingers long after washing and drying. The base notes provide a stable, comfortable and long-lasting aftertaste for the overall fragrance, forming a perfect balance with the floral notes in the middle notes.

FUNCTIONS & APPLICATIONS

The core function of the Safeguard fragrance oil is to provide a clean, hygienic olfactory experience and reinforce the product's protective qualities.

Odor Neutralization	Specific molecules in the fragrance effectively absorb and neutralize unpleasant odors on clothing, such as sweat, smoke, and mildew, rather than simply masking them, providing a truly fresh feeling.
Odor Imparting	Its fresh, neutral soapy notes impart a "freshly washed" olfactory perception to clothing, perfectly aligning with modern consumers' pursuit of cleanliness.
Long-Lasting Fragrance	Thanks to its low volatility, the fragrance molecules effectively adhere to clothing fibers, ensuring the fragrance persists long after washing and even during wear.
Brand Association	The unique clean fragrance serves as the olfactory signature of the Safeguard brand, helping consumers connect the brand to "Safeguard = cleanliness and protection" and fostering brand loyalty.

Due to its powerful functionality and formula compatibility, Safeguard fragrance can be widely used in a variety of clothing care products. Applications include, but are not limited to:

High-efficiency laundry detergent	The fragrance can be stably incorporated into concentrated or high-efficiency formulas without compromising cleaning performance, providing consumers with a refreshing, clean fragrance while delivering powerful stain removal.
-----------------------------------	---

Fabric sanitizer	In sanitizer products, the fragrance not only provides a pleasant scent but also masks the potential irritation of disinfectants, making them more appealing.
Fabric softener	As a key ingredient in fabric softener, the fragrance adheres to fabrics during the final wash cycle, imparting a soft feel while providing a long-lasting clean and safe fragrance.
Laundry Pods	In multi-functional laundry pods, the fragrance works synergistically with the cleansing and softening ingredients to provide an integrated wash experience, ensuring the fragrance is perfectly released throughout the wash cycle.
