## Product Description

### Peony Bloom Fragrance Flavor Concentrated For Scented Candle 10ml Free Sample LDZ-PL40047

#### Product Description:

The "Peony Bloom" scented candle fragrance takes you on a sensory journey, capturing the essence of the blooming peony. This concentrated fragrance expertly balances the richness of the floral with the freshness of greenery, allowing you to experience the tranquility and beauty of a spring garden right in your home.

Top notes of breezy bergamot and juicy red apple awaken your senses like the first rays of morning sun. This is followed by the vibrant blossoming of the peony at the heart of the fragrance. We meticulously blended a variety of floral notes to create a realistic and multifaceted peony fragrance, seamlessly blending the sweetness of rose with the elegance of violet. This floral core, while not overly sweet, retains its unique fragrance, showcasing the peony's grace and confidence.

The base notes of warm sandalwood and soft musk blend together, adding a sensual and lingering depth to the composition. Like the last rays of dusk, they leave a lasting, tender mark on the space.

#### Product Feature:

As a highly concentrated fragrance, we recommend adding between 6-10% to your scented candles, adjusting the amount based on your preference and the wax you're using. Its exceptional stability and longevity ensure a consistent, rich aroma throughout the candle's burn cycle. Whether used with soy wax, beeswax, or paraffin, this fragrance blends seamlessly, providing excellent aroma diffusion (hot throw or cold throw).
