Product Description

Concentrated Oscar Fragrance Perfume Oil For Perfume Making With Free Sample LDZ-PL10178

Product Description:

Concentrated Oscar Fragrance is a high-purity, alcohol-free perfume oil blend inspired by the iconic Oscar de la Renta "Oscar" scent, offered in formats suitable for artisanal perfumery or commercial-grade fragrance development. Distinguished by its densely aromatic composition, this oil allows specialist perfumers to craft formulations with exceptional longevity and sillage.

Crafted as a premium raw material, this version of Oscar empowers perfumers to recreate the signature luxurious and elegant aura of a classic floral-oriental fragrance, while offering flexibility to tailor strength, nuance, and structure in their finished formulations.

Product Feature:

Concentrated Oscar Fragrance captures the refined elegance of the original Oscar de la Renta “Oscar” scent in a highly concentrated, alcohol-free format ideal for perfume creation. This fragrance oil blends luminous freshness, opulent florals, and a warm, sophisticated base, creating a timeless floral-oriental composition.

This fragrance oil delivers excellent fixative qualities, allowing each stage of the scent to unfold gradually, making it ideal for crafting high-end perfumes, signature blends, or layering accords.

Top note:	Open with a vibrant and aromatic burst. Basil and coriander lend a green, herbal brightness, while orange blossom adds delicate sweetness. A hint of peach brings soft fruitiness, balancing the sharper herbal facets. This stage feels fresh, inviting, and slightly exotic.
Middle note:	Tuberose and ylang-ylang impart creamy richness, jasmine and rose provide classic floral elegance, and orchid adds a velvety, exotic dimension. Lavender introduces a subtle herbal freshness that keeps the florals from becoming overly sweet, ensuring balance and sophistication.
Base note	Sandalwood and patchouli bring earthy, woody smoothness; amber adds golden warmth; musk gives a sensual skin-like softness. Vetiver introduces a dry, green earthiness, while cloves and opoponax add spicy-resinous richness, enhancing longevity and complexity.

FUNCTIONS & APPLICATIONS

Concentrated Oscar Fragrance is a high-aromatic-load perfume compound, designed for professional perfumery applications. With a typical perfume oil concentration of 20–30% aromatic compounds in an oil base, it provides superior longevity (8–12+ hours) and consistent sillage. Its formula mirrors the classic floral-oriental profile of Oscar de la Renta's signature scent, delivering layered complexity through fresh herbal top notes, rich florals, and warm, resinous woods. This concentrate functions as both a primary fragrance accord and an effective fixative for lighter compositions, extending the life of top and middle notes. The alcohol-free base minimizes evaporation during blending and ensures compatibility with oil-based perfume formats, solid fragrances, and alcohol-based dilutions. It is stable under typical storage conditions and complies with IFRA usage limits for safe application in personal care products. Its strong olfactory identity makes it suitable for standalone single-note perfumery, fragrance layering, and high-end private-label development. In artisan or industrial production, its concentration reduces raw material waste, offering an efficient ratio of scent performance to cost. The balanced aromatic structure ensures that when diluted to Eau de Parfum or Extrait de Parfum strengths, the fragrance retains its intended richness, projection, and wearability across diverse consumer markets.

This fragrance concentrate is engineered for luxury fragrance manufacturing and multi-category scent integration. In fine perfumery, it serves as the core compound for Oscar-Inspired Eau de Parfum or Oscar-Inspired Extrait de Parfum, delivering the brand's signature floral-oriental elegance. It is suitable for Rollerball Perfume Oils for travel-friendly formats, Luxury Solid Perfumes (oil-wax blends), and Scented Body Oils enriched with nourishing carriers like jojoba or sweet almond oil. In personal care, it can be incorporated into Oscar Signature Body Lotion or Oscar Bath & Shower Gel to create matching scent layering products. Home fragrance manufacturers can use it in High-End Reed Diffusers and Luxury Scented Candles, where its complex aroma profile provides a sophisticated atmosphere. In niche perfumery, it works as a base accord in custom blends—particularly suited to oriental, floral, or woody compositions—allowing perfumers to adjust intensity and tonal balance. For B2B clients, potential product lines include Oscar Heritage Collection Perfume Oil, Oscar Luxe Home Diffuser, and Oscar Floral-Oriental Hair Mist. Due to its stability and potency, it is also ideal for maceration-based artisan perfumery, where long resting times enhance note integration, ensuring a refined and balanced final product.
