

Concentrated Sea Salt Air Freshener Fragrance Oil for Diffusers

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL30178
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- From: Liquid Concentrate Oil
- Feature: Sustainable
- Eco-Friendly: Yes
- Air Freshener Use: Home
- Kinds: Over 1000 Kinds
- Usage: Indoor
- Duration: Up To 60 Days
- Scent: Lavender
- Non-Toxic: Yes
- Shelf Life: 1-3Years
- Origin: CN
- Odor: Gentle
- Product: Air Freshener Fragrance
- Highlight: sea salt air freshener oil, concentrated fragrance oil for diffusers,

Product Description

Concentrated Sea Salt Flavor Fragrance For Air Freshener& Diffuser LDZ-PL30178

Product Description:

Concentrated Sea Salt Fragrance is a synthetic aroma compound designed to mimic the unique and refreshing scent of a salty ocean breeze. Unlike natural sea salt, which is odorless, this fragrance is a complex blend of various aroma chemicals. These chemicals are carefully selected to evoke the different facets of a coastal environment.

The base notes of the fragrance are crucial for providing a sense of depth and longevity. These are often composed of woody, musky, and amber notes. A hint of mineral notes, often from specific synthetic materials, completes the profile, creating a realistic impression of sun-warmed rocks and sand. The final product is a highly versatile and professional fragrance concentrate, ideal for use in air fresheners, diffusers, and other home fragrance applications where a clean, invigorating, and sophisticated aroma is desired. Its concentrated nature ensures that a small amount can effectively scent a large area.

Product Feature:

A professional Concentrated Sea Salt fragrance is a meticulously crafted scent, designed to transport the user to a coastal environment. Its composition is structured in three distinct layers to provide a complex and lasting aromatic experience.

Top note:	The initial impression is characterized by a burst of fresh, invigorating, and airy scents. This is typically achieved with a synthetic Ozonic/Marine Accord that mimics the clean, post-storm air and salty ocean mist. This is often enhanced with bright Citrus notes like bergamot or lemon, which add a zesty lift, and a hint of Green/Herbal notes, such as clary sage, to evoke the smell of coastal vegetation and add a touch of natural complexity.
Middle note:	This is the heart of the fragrance, where the core character is most prominent. Here, the main Sea Salt Accord takes center stage. This accord is a clever blend of aroma chemicals that provides a slightly mineralic, briny, and textural sensation, capturing the scent of salt on the skin and in the air. This is often balanced with delicate Aquatic Florals like water lily or jasmine, which soften the mineral notes and add a touch of elegant, watery sweetness.
Base note	The base notes provide the foundation and longevity of the scent. They are grounded and warm, creating a sense of comfort and permanence. Key components include Driftwood or other woody notes like cedar, which add a smooth, earthy warmth. A touch of Musk or Amber provides a soft, skin-like finish that anchors the entire composition, ensuring the clean, coastal scent lingers for hours.

Technical Parameter:

Product Name	Lavender Chamomile Fragrance Essence Oil
Fragrance Profile	Flower Profile
Appearance	Clear to light yellow liquid
Relative density	Approx. 0.950 to 1.050 g/cm³ @ 25°C
Refractive index	1.450 to 1.500 (20°C)
Flash point	A typical flash point for this type of product would be >200°F (>93°C)
Ingredients	Natural & Synthetic Aromatic Compounds
Suggested Dilution Ratio	1:15 Oil:Solvent for EDT
Longevity	Better than common fruity flavors on the market,6-8 hours effective longevity
Solubility	The essence is designed for cosmetic use, so it is Soluble in alcohol, most cosmetic-grade oils, and surfactants, but Insoluble in water.
Volatility	Low Volatility, Long-lasting Scent
Usage Rate	Use at 15-20% in a reed diffuser base

IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Color Stability	Excellent
Shelf Life	36 Months, Store away from light
Vanilla Content	To prevent product discoloration, the vanillin content is kept to an extremely low level, typically <0.1%.
Application	Fine Perfumery, Aromatherapy, Personal Care
Evaporation Rate	Slow Evaporation Rate Compared with alcohol-containing perfumes, its evaporation rate is significantly reduced, making the evolution of the fragrance smoother and more delicate, with richer layers, avoiding the problem of rapid dissipation of the fragrance.

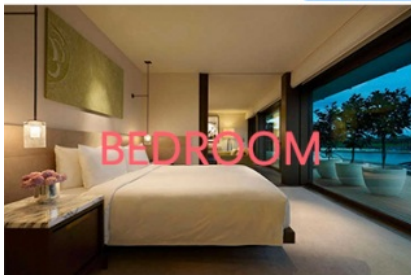

FUNCTIONS & APPLICATIONS

The primary function of a Concentrated Sea Salt fragrance is to deliver a consistent and appealing scent to an environment.

Aroma Delivery	Its high concentration means that a small amount is highly effective, allowing it to efficiently scent a large area.
Scent Consistency	As a synthetic blend, its scent profile remains stable over time and across different production batches, ensuring that every consumer experiences the same intended aroma.
Versatility	The formulation is designed to be compatible with a wide range of solvent bases and product types, from oil-based reed diffusers to water-based air freshener sprays.
Longevity	The carefully constructed notes, especially the long-lasting base notes, ensure that the scent lingers in the air for an extended period, providing a continuous fragrance experience.
Safety & Compliance	A professional-grade fragrance is developed to meet regulatory standards, ensuring it is safe for consumers and the environment when used as directed. It contains no allergens or irritants beyond what is declared on the product's safety data sheet.

applications

BEDROOM

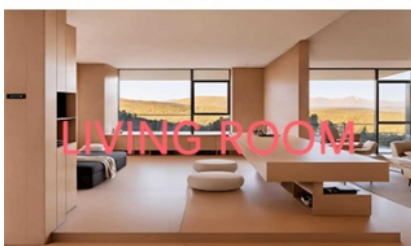

Coffee House

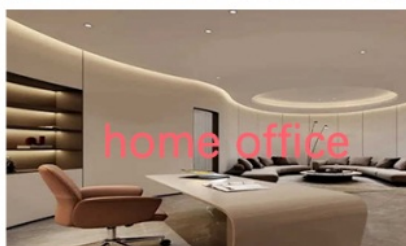

library/study

BATHROOM

LIVING ROOM

home office

The Concentrated Sea Salt fragrance is a versatile component used in various home and personal care products. Its clean, refreshing profile makes it a popular choice for creating an atmosphere of calm and freshness.

Reed and Scent Diffusers	The concentrated oil is the key ingredient in reed diffusers, where it is diluted in a special base liquid. The reeds draw the liquid up and disperse the scent into the air continuously. It is also used in electric and ultrasonic diffusers.
Air Freshener Sprays	The fragrance is combined with a solvent and propellant to create room sprays. A quick spritz can instantly refresh a space, making it ideal for bathrooms, living rooms, and offices.
Candles and Wax Melts	When blended with wax, the fragrance provides a strong hot throw (scent released when the candle is lit) and cold throw (scent released at room temperature). The sea salt scent creates a relaxing, spa-like ambiance.
Potpourri and Sachets	The oil can be applied to dried botanicals or absorbent materials to create decorative, long-lasting scent pouches for drawers, closets, and small spaces.
Laundry Products	It is also used in detergents, fabric softeners, and laundry scent boosters to leave a fresh, clean scent on clothes.

applications

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
