Product Description

Peony-Deerskin Fragrance Essence Concentrated For Scented Candle 10ml Free Sample LDZ-PL40073

Product Description:

This Peony-Deerskin fragrance essence is a sophisticated and complex olfactory experience, expertly crafted for a luxurious and long-lasting scent throw in candles. It represents a masterful fusion of contrasting yet complementary elements: the delicate, floral sweetness of the peony and the rich, animalic warmth of deerskin.

The true character of this essence emerges in the base notes, where the deerskin accord anchors the entire composition. This is a highly specialized and evocative note, often created with a blend of leathery, musky, and ambery materials. It doesn't smell like a literal animal hide, but rather evokes the feeling of soft, supple, well-worn leather—think of the warmth of a fine suede glove or the rich aroma of a luxurious handbag. Notes of labdanum, cedarwood, or a hint of patchouli may be used to build this accord, providing a dry, woody depth that balances the florals. A touch of musk or vanilla could add a final layer of creamy, sensual warmth.

Product Feature:

It is a fragrance that is both beautiful and bold. It's a statement scent for a scented candle, perfect for creating an atmosphere of refined elegance and cozy luxury. It's a scent that would appeal to those who appreciate complex, non-traditional fragrances that tell a story—one of softness meeting strength, and delicate beauty intertwining with timeless sophistication.

Top Note:	The top notes are designed to make the first impression, opening with a fresh and delicate floral accord of blooming peonies. This is a bright and airy start, capturing the natural, rosy, and slightly green facet of the flower. Often, a subtle hint of citrus like pink grapefruit or a light, watery fruit note is added to enhance the freshness and create an immediate sense of elegance and clarity.
Middle Note	The middle notes form the heart of the fragrance, where the floral theme deepens and evolves. Here, the peony is joined by a rich bouquet of complementary florals. This may include the classic romance of rose petals, the powdery refinement of iris, or the subtle sweetness of white jasmine. These notes add complexity and body, gracefully transitioning the scent from its initial floral burst to its sensual foundation.
Base Note	The base notes provide the lasting impression and are where the unique deerskin accord resides. This is a rich, animalic, and sensual foundation created with a blend of leathery notes, warm amber, and deep musks. It is a dry, velvety scent that evokes the feeling of soft suede or aged leather. Woody notes like cedarwood or sandalwood may be incorporated to add a dry, elegant anchor, ensuring the fragrance has a strong, long-lasting presence and a sophisticated character that balances the floral top and middle notes.

Technical Parameter:

Concentration	Fragrance Oil Content $\geq 90\%$
Fragrance Profile	Peony-Deerskin notes
Appearance	Colorless to light yellow transparent liquid
Relative density	Approx. 0.95 - 1.05 g/cm ³ @ 25°C
Refractive index	1.42 - 1.53 @ 20°C
Flash point	> 93°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Volatile organic compound (VOCs) content	< 1% - Environmentally friendly formula that meets regulatory standards such as the California Air Resources Board (CARB).
Recommended Dosage	6% to 12% by weight, depending on the specific wax type
Thermal diffusion performance	Excellent . It can fill a space of 20-30 square meters in 3-5 minutes after lighting.
Cold Throw	Excellent - Has a noticeable aroma even when unburned.
Hot Throw	Excellent - The aroma spread is strong and steady while burning.
Wax Compatibility	Excellent - Blends seamlessly with a variety of common waxes, including soy wax, beeswax, coconut wax, paraffin wax, and blends, without affecting the wax structure or combustion performance.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	Store in a cool, dark place, shelf life 24 months
Standard(IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

FUNCTIONS & APPLICATIONS

The primary function of this Peony-Deerskin fragrance essence is to impart a sophisticated and lasting scent to scented candles. As a concentrated oil, it is specifically engineered for high performance in various candle waxes, ensuring a powerful "hot throw"—the scent released when the candle is actively burning—and a noticeable "cold throw"—the fragrance emitted at room temperature. Its unique combination of delicate floral and rich leather notes serves to create an atmosphere of luxurious comfort and refined elegance. The oil's formulation is designed for stability and compatibility with common candle waxes like soy, paraffin, and coconut, preventing issues such as fragrance separation, discoloration, or weak scent output. It serves as the core aromatic component, transforming a simple wax medium into a multi-sensory, high-end product.

While optimized for scented candles, this versatile fragrance essence can also be used in a range of other home fragrance applications. Its concentrated nature makes it suitable for:

Wax Melts/Tarts	The high fragrance load of the essence allows it to perform exceptionally well in wickless wax melts, providing a strong and long-lasting scent when used with an electric warmer.
Room and Linen Sprays	When diluted in a proper base, the essence can be used to create room and linen sprays that offer an immediate burst of its unique aroma, refreshing a space or fabric.
Reed Diffusers	The stability of the fragrance oil makes it an excellent choice for reed diffusers, where it can be blended with a carrier oil to provide continuous, subtle scent diffusion over an extended period.
Potpourri and Sachets	The essence can be applied to dried botanicals or other porous materials to create fragrant potpourri or scented sachets, which can be placed in drawers, closets, or small rooms to maintain a pleasant aroma.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1. Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
5. Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
