

Myrrh Bean Candle Fragrance Oil Concentrate - USA Made

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40074
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Odor: Its Fresh Scent Likes Ocean
- Application: Candle
- Delivery: 3-5 Working Days
- Scent Intensity: Medium
- From: Liquid Concentrate Oil
- Ingredients: Soy Wax, Essential Oils, Fragrance Oils
- Feature: Sustainable, Stocked
- Other Name: Candle Scent Oil
- Scent Type: Fruity, Floral, Woody, Spicy, Fresh
- Wick: Lead-free Cotton Wick
- Fragrance Notes: Jasmine, Rose, Lavender
- Eco-Friendly: Yes
- Made In: USA
- Colour: Light Yellow
- Wick Type: Cotton

Product Description

Candle scent oil Myrrh Bean Fragrance Essence Concentrated With Free Sample LDZ-PL40074

Product Description:

This "Myrrh Bean" fragrance essence is a captivating and deeply resinous scent, expertly formulated to create a rich and enveloping aroma for scented candles. It is an olfactory tribute to the complex and ancient ingredients from which it derives its name.

The fragrance opens with a rich and warm accord of myrrh, an ancient resin with a subtly earthy, bittersweet, and slightly smoky character. This is often enhanced by hints of a top note, perhaps a touch of bright citrus like bergamot to add a sparkling lift, or a subtle spicy note like cinnamon to introduce an inviting warmth.

Product Feature:

This "Myrrh Bean" fragrance essence is a masterfully crafted composition for scented candles, designed to unfold in a rich, multi-layered olfactory experience.

Top note	The top notes provide the initial impression, a rich and resinous accord of myrrh. This is a complex opening, evoking a sense of ancient warmth with its balsamic, slightly smoky, and earthy character. To add a lift and prevent it from being too heavy, the top may be brightened with a touch of citrus, such as bergamot, or a subtle hint of spice, like elemi, which shares a similar resinous quality but with a fresher, more peppery facet.
Middle note	The middle notes form the heart of the fragrance, where the "bean" accord takes center stage. This is a reference to tonka bean, a versatile and rich ingredient. The tonka brings a creamy sweetness reminiscent of vanilla, complemented by nuances of almond and a powdery, hay-like scent from its coumarin content. This central note harmoniously softens the intense resin of the myrrh, creating a smooth and inviting transition. It's in this phase that the fragrance becomes truly comforting and alluring.

Base note

The base notes provide a deep and enduring foundation. They are typically composed of warm, rich ingredients that extend the scent's life and enhance its character. Common components include a warm, glowing amber, creamy sandalwood for a woody smoothness, and a soft, sensual musk. These notes ensure a powerful and lasting scent throw, leaving behind a trail of luxurious and cozy warmth that perfectly fills and defines a space.

Technical Parameter:

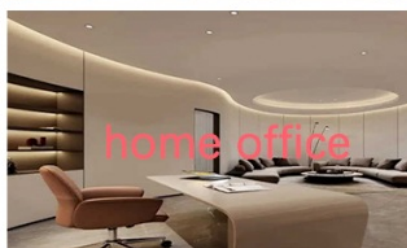

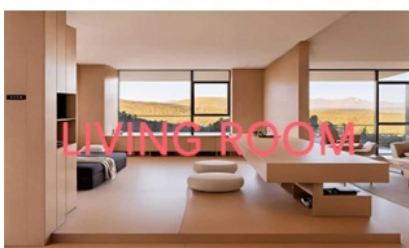

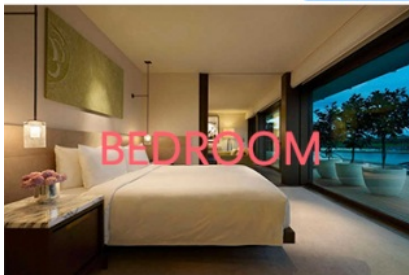

Concentration	Fragrance Oil Content $\geq 90\%$
Fragrance Profile	Peony-Deerskin notes
Appearance	Colorless to light yellow transparent liquid
Relative density	Approx. 0.95 - 1.05 g/cm ³ @ 25°C
Refractive index	1.42 - 1.53 @ 20°C
Flash point	> 200°F (> 93°C)
Ingredients	Natural & Synthetic Aromatic Compounds
Volatile organic compound (VOCs) content	< 1% - Environmentally friendly formula that meets regulatory standards such as the California Air Resources Board (CARB).
Recommended Dosage	6% to 12% by weight, depending on the specific wax type
Thermal diffusion performance	Excellent . It can fill a space of 20-30 square meters in 3-5 minutes after lighting.
Cold Throw	Excellent - Has a noticeable aroma even when unburned.
Hot Throw	Excellent - The aroma spread is strong and steady while burning.
Wax Compatibility	Excellent - Blends seamlessly with a variety of common waxes, including soy wax, beeswax, coconut wax, paraffin wax, and blends, without affecting the wax structure or combustion performance.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	Store in a cool, dark place, shelf life 24 months
Standard(IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

FUNCTIONS & APPLICATIONS

The primary function of this "Myrrh Bean" fragrance essence is to serve as the core aromatic component in high-end scented candles. Its concentrated formulation ensures a robust and long-lasting scent performance, providing both an excellent "hot throw" (the scent released when the candle is burning) and a strong "cold throw" (the scent of the unlit candle). The essence is designed for superior stability and compatibility with various candle waxes, including natural soy, coconut, and traditional paraffin. It is engineered to diffuse cleanly and consistently, avoiding common issues such as a weak scent, fragrance oil seepage, or discoloration of the wax. The rich, warm, and sophisticated profile of myrrh and tonka bean makes it ideal for creating a luxurious and comforting ambiance, transforming an ordinary space into an inviting and elegant environment.

applications

This concentrated Myrrh Bean fragrance essence is highly versatile and can be used in a variety of home fragrance products, each leveraging its unique scent profile.

Scented Candles	The most common application, this essence is perfect for creating luxury candles with a sophisticated, warm scent. A product name could be "Myrrh & Tonka Candle" or "Ancient Resin & Bean Scented Candle."
Wax Melts	The fragrance's strength is well-suited for wax melts, providing a strong, flameless scent experience in electric warmers. These can be marketed under names like "Myrrh & Tonka Wax Melts" or "Resin & Vanilla Wax Tarts."
Room and Linen Sprays	When properly diluted, the essence creates a refreshing and lingering spray to instantly scent a room, bedding, or curtains. A product name could be "Sacred Wood Room Mist."
Reed Diffusers	The stable nature of the oil allows it to be used in reed diffusers, offering a continuous, maintenance-free scent diffusion over a long period. Product names could include "Myrrh Bean Reed Diffuser" or "Mystic Glow Diffuser."

applications

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
-----------	-----	---------------	--------

Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
