## Product Description

### Concentrated Magnolia Essence Fragrance Oil for Diffusers & Reed Sticks LDZ-PL30114

#### Product Description:

Crafted for an elevated sensory experience, our Concentrated Magnolia Essence Fragrance offers a professional-grade solution for diffusers and reed sticks. This exquisite fragrance captures the lush, velvety aroma of freshly bloomed magnolia flowers, renowned for their creamy, sweet, and subtly citrusy notes. The composition is a sophisticated blend, opening with bright top notes of lemon and green leaves that evoke the freshness of a spring garden. This leads to a heart of pure magnolia, ylang-ylang, and jasmine, creating a rich, floral bouquet that is both captivating and calming.

#### Product Feature:

Crafted for a truly immersive and sophisticated olfactory experience, our Concentrated Magnolia Essence Fragrance is a masterfully composed scent designed specifically for diffusers and reed sticks. This fragrance journey is meticulously structured, unfolding in three distinct layers to provide a complete and lasting impression.

Top notes	The fragrance opens with top notes that are bright, airy, and invigorating. A zesty and refreshing hint of lemon provides a sparkling, uplifting introduction, beautifully complemented by the crisp, green scent of fresh leaves. This initial accord sets a serene and naturalistic tone, evoking the feeling of a blooming garden just after a morning rain.
Middle notes	As the fragrance develops, it reveals its rich and captivating middle notes, which form the very heart of the scent. The star of this composition is the luxurious magnolia, with its creamy, honeyed, and intensely floral character. This is elegantly supported by the sweet, exotic aroma of ylang-ylang and the classic, intoxicating allure of jasmine, creating a lush and velvety floral bouquet that is both complex and harmonious.
Base notes	The experience culminates in the deep and enduring base notes. Here, the fragrance settles into a warm and comforting embrace of creamy sandalwood and a whisper of clean, soft musk. These notes provide a smooth, elegant finish, ensuring the fragrance has a remarkable longevity and a sophisticated presence that lingers gracefully in any space.

**Technical Parameter:**

Concentration	Fragrance Oil Content $\geq 95\%$
Fragrance Profile	Fruity-Lactic
Appearance	Colorless to light yellow transparent liquid
Relative density	Approx. 0.950–1.050 g/cm <sup>3</sup> @ 25°C
Refractive index	1.450–1.550 @ 20°C
Flash point	> 170°F (>76°C)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	5% - 25%
Volatilization rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard(IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

## FUNCTIONS & APPLICATIONS

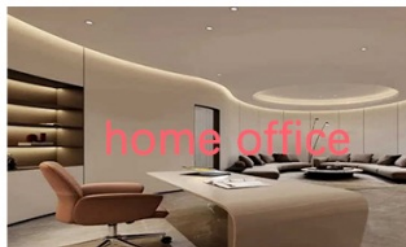

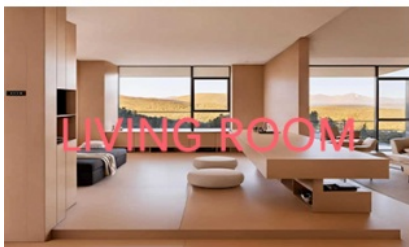

The primary function of Concentrated Magnolia Essence Fragrance is to act as a powerful and efficient ambient scenting agent. Its highly concentrated form ensures a robust scent throw and a long-lasting presence, outperforming diluted oils. This allows a small amount of the fragrance to fill a large space with a consistent and continuous aroma. The carefully balanced composition—from its bright, uplifting top notes to its calming, warm base notes—is designed to promote an atmosphere of tranquility, elegance, and well-being. The fragrance has a therapeutic function, helping to reduce stress and create a serene environment. This makes it an ideal tool for professionals seeking to influence the mood and perception of a space without being overpowering, offering a subtle yet impactful aromatic experience.

Concentrated Magnolia Essence Fragrance is a versatile product with a wide range of professional and personal applications. It is specifically formulated for use in diffusers, including cold-air, ultrasonic, and nebulizing models, where its high concentration ensures optimal performance and coverage. Its oil-based nature also makes it perfect for reed sticks, which absorb the fragrance and passively release it into the air, providing a low-maintenance, flame-free scent solution. Beyond these primary uses, this essence is highly sought after for spa and wellness centers to create a relaxing and luxurious ambiance for clients. In hospitality settings such as hotels and lobbies, it serves to create a welcoming and memorable signature scent. Furthermore, it is a premium component for creating scented products, including room sprays, candles, and potpourri, allowing manufacturers to produce high-quality, long-lasting products that captivate consumers with its sophisticated floral profile.

Ultrasonic diffusers	Serving as the core filler in fragrance atomizers or essential oil humidifiers, the fragrance is atomized into tiny particles through ultrasonic vibrations, which then combine with water molecules for rapid and even distribution in the air. This application is particularly suitable for living rooms, bedrooms, or offices where the ambiance needs to be quickly changed.
----------------------	---

Reed diffusers	Serving as liquid fragrance for flameless or reed diffusers. The porous structure of reed effectively absorbs fragrance, releasing it slowly and steadily through capillary action. This application requires no electricity and is particularly suitable as a decorative element in bathrooms, studies, or entryways, providing long-lasting, low-maintenance fragrance.
Scented candles	Serving as the core fragrance of scented candles, the fragrance is blended into natural plant wax. When ignited, the wax melts and releases a rich, delicate aroma, creating a warm and romantic atmosphere.
Diffuser Stone	Drop the essence on the "diffuser stone" or "plaster aromatherapy", and the fragrance will evaporate naturally. It is an ideal fragrance choice for wardrobes, drawers or cars.

Our Advantages:

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

## Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

**Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.**

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

## Packing and Shipping:

### Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

### Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as

well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
