

Concentrated Victory Fragrance For Perfume Making Eau de Parfum

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10187
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Type: Eau De Parfum
- Sillage: Moderate
- Suitable For: All Fabrics
- Scent Notes: Jasmine, Rose, Vanilla
- Fragrance Family: Floral
- Middle Notes: Rose
- Longevity: Long Lasting
- Top Notes: Bergamot, Mandarin, Pink Pepper
- Samples: Freely Provided
- Sample Lead Time: 3-5 Days,10 Days,10-15 Days,10days
- Target Age: Adult
- Packaging Type: Plastic Or Iron Barrel
- Odor: Characteristic Odor
- Concentration: Eau De Parfum
- Grade: ISO Grade

Product Description

Concentrated Victory Fragrance For Perfume Making Eau de Parfum LDZ-PL10187

Product Description:

Concentrated Victory Fragrance is a meticulously crafted, high-performance perfume concentrate designed for professional perfumery. This powerful blend is the essence of triumph and is characterized by a dynamic, multi-layered olfactive profile. At its core, the fragrance presents a bold and invigorating accord, often opening with a bright, citrusy burst of bergamot and grapefruit, which immediately commands attention. This initial vibrancy is expertly balanced by a sophisticated heart of aromatic spices and verdant notes, such as crisp bay leaf and subtle hints of jasmine, lending an air of refined strength and composure.

The true character of "Victory" emerges in its rich and enduring base notes. A deep, masculine foundation is built upon a complex interplay of warm woods, like guaiac and cedar, which provide a solid, unwavering structure. These are artfully fused with a sensual and earthy accord of patchouli and oakmoss, imparting a feeling of grounded confidence and stability. Finally, the blend is elevated by a modern touch of ambergris and a hint of musk, which offers a smooth, captivating trail and ensures exceptional longevity and sillage. This concentration is ideal for creating eau de parfums, colognes, and other fine fragrance products that exude confidence, power, and an undeniable sense of accomplishment. Its professional-grade formulation ensures stability and superior performance in various fragrance applications.

Product Feature:

Concentrated Victory Fragrance is a meticulously composed perfume concentrate designed to evoke the essence of success and accomplishment. Its olfactive pyramid is structured for a dynamic and enduring sillage.

Top notes	The top notes create a powerful and immediate first impression. A sharp and zesty burst of Calabrian Bergamot provides an uplifting, luminous opening, while a hint of Grapefruit Zest adds a clean, energetic sparkle. This vibrant citrus accord is tempered by the green, slightly peppery nuance of Pink Peppercorn, which adds an element of modern sophistication.
Middle notes	The heart of the fragrance, or middle notes, reveals its complex and commanding character. A core of fresh, aromatic Bay Leaf provides a cool, herbal quality that is both clean and assertive. This is balanced by the elegant floral touch of Jasmine Absolute, which lends a subtle sweetness and smoothness. The presence of Hedione enhances the overall radiance and diffusion of these middle notes, ensuring a well-rounded and cohesive blend.
Base notes	The base notes provide a deep, long-lasting foundation. A rich and woody accord of Guaiac Wood and Cedarwood anchors the fragrance with its warm, smoky, and solid presence. A robust dose of Oakmoss provides an earthy, mossy depth, while Ambergris Accord adds a salty, musky warmth that contributes to the fragrance's impressive longevity and sensual dry-down.

Technical Parameter:

Product Name	Concentrated Victory Fragrance Essence Oil
Fragrance Profile	Woody Profile
Appearance	Clear, mobile liquid ranging from pale yellow to light amber.
Middle Note Duration	2-4 hours

Base Note Longevity	6-8 hours or longer
Relative density	Approx. 0.950 to 1.050 g/cm³ @ 25°C
Refractive index	1.45-1.55 (20°C)
Flash point	70°C (158°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Suggested Dilution Ratio	1:15 Oil:Solvent for EDT
Longevity	Better than common fruity flavors on the market, 6-8 hours effective longevity
Solubility	Soluble in alcohol (ethanol, perfumer's alcohol), Dipropylene Glycol (DPG), and other common fragrance solvents. Insoluble in water without a solubilizing agent.
Volatility	Low Volatility, Long-lasting Scent
Storage Conditions	10-25°C, away from light and ignition sources
IFRA Compliance	Conforms to the safety standards of the International Fragrance Association (IFRA).
Color Stability	Excellent
Stability	Stable under recommended conditions; may separate below 0°C
Shelf Life	36 Months, Store away from light
Application	Fine Perfumery, Aromatherapy, Personal Care
Evaporation Rate	Slow Evaporation Rate Compared with alcohol-containing perfumes, its evaporation rate is significantly reduced, making the evolution of the fragrance smoother and more delicate, with richer layers, avoiding the problem of rapid dissipation of the fragrance.

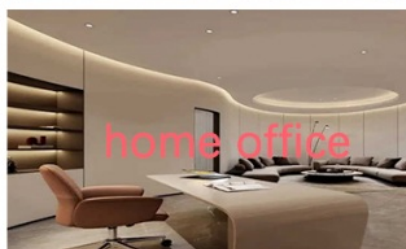

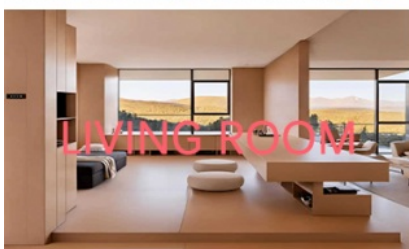

FUNCTIONS & APPLICATIONS

Concentrated Victory Fragrance serves as the core creative component in the art of perfumery, providing the complete and balanced olfactive structure for a finished fragrance. Its primary function is to deliver a consistent, high-impact scent profile that is both captivating and long-lasting. This concentrate is engineered to be highly stable, ensuring that its aromatic integrity remains intact when blended with various solvents and carriers. It provides the perfumer with a single, pre-engineered solution, eliminating the need to source and blend dozens of individual raw materials. The blend's powerful silage and longevity are a direct result of its carefully selected and balanced components, which are designed to unfold in a harmonious and enduring manner, from the initial burst of top notes to the final, lingering dry-down of the base notes. It is the essential building block for crafting a professional-grade scent.

Scent Creation	The concentrate contains the complete, pre-formulated aromatic profile of a specific Victory fragrance, including its top, middle, and base notes. This allows a perfumer to bypass the complex, resource-intensive process of blending dozens or even hundreds of individual aroma chemicals and essential oils from scratch.
Carrier for Aroma	This highly potent oil is the vehicle for delivering the scent molecules. It is typically a blend of fragrance oils and a solvent, such as DPG (dipropylene glycol), which is used to dilute the raw materials and make them soluble and stable.
Strength and Longevity	The concentration level directly dictates the potency and staying power of the final product. By controlling the dilution ratio, a perfumer can create different strengths (e.g., Eau de Parfum, Eau de Toilette) from the same base compound, ensuring the fragrance's silage and longevity are tailored to a specific application.
Consistency and Quality Control	Using a pre-made concentrate ensures consistency. Each batch of the final product will smell identical to the original, a vital aspect of maintaining a brand's olfactory signature and quality.

applications

The versatility and stability of Concentrated Victory Fragrance make it suitable for a wide range of professional perfumery and fragrance product applications. Its most common use is in the creation of Fine Fragrances, including Eau de Parfum, Eau de Toilette, and cologne, where its robust character shines. Beyond personal scents, it is also highly effective for crafting Body Care Products, such as body lotions, shower gels, and soaps, where a small inclusion rate can impart a luxurious and lasting scent. Furthermore, its technical stability allows for its integration into Home Fragrance items like reed diffusers, room sprays, and candles, where it provides a strong and consistent scent throw. For each application, the formulator must adhere to the specific IFRA usage levels to ensure product safety and optimal performance, as detailed in the product's technical documentation.

Fine Fragrance	This is the most common application. The concentrate is diluted with perfumer's alcohol (e.g., ethanol) to create spray-on perfumes like Eau de Parfum (15-20% concentrate), Eau de Toilette (5-15%), and Parfum (20-30%). The concentrate is the "secret sauce" that gives the final product its unique character.
Attars and Perfume Oils	For those who prefer alcohol-free formulations, the concentrate can be diluted with carrier oils like jojoba, fractionated coconut oil, or sweet almond oil. These perfume oils, often sold in small roll-on bottles, offer a more intimate and long-lasting scent experience that is gentle on sensitive skin.
Cosmetics and Personal Care	The concentrate can be used as a fragrance component in a variety of personal care products. This includes adding it to unscented bases for lotions, body washes, hair mists, and soaps to create a cohesive scented line that complements the main fragrance.
Home Fragrance	The concentrated oil is also suitable for home applications, such as oil diffusers, reed diffusers, and candle-making, allowing consumers to fill their living spaces with the luxurious Dun hill scent.

applications

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
