Product Description

Eco Friendly Lily Fragrance Essence For Softener Laundry Detergent Concentrated LDZ-PL50108

Product Description:

Inspired by lilies, the lily fragrance offers a pure, soft, and refreshing aroma, imparting a long-lasting floral fragrance to clothing, creating a clean and natural feel. Its highly stable formula ensures its fragrance lingers long after washing and drying, leaving clothing with a long-lasting, refreshing, and pleasant fragrance. Suitable for hot water washing, drying, and long-term storage, it resists decomposition and evaporation, ensuring a consistent fragrance throughout the entire wash cycle. It effectively covers odors that may remain during the laundry process, such as sweat and oil stains, enhancing the freshness and cleanliness of laundry products.

Product Feature:

Top Notes	<p>These are the initial scents you smell, designed to create a bright and clean first impression. For a lily fragrance, common top notes include:</p> <p>Citrus: Notes like bergamot, lemon, or tangerine add a sparkling, effervescent quality.</p> <p>Green/Aquatic Accords: These notes, often described as "fresh-cut stem," "dewy," or "watery," enhance the natural, crisp feel of the lily.</p> <p>Light Florals: Sometimes, lighter floral notes such as freesia or white tea are included to add a delicate lift.</p>
Heart Notes	<p>This is the core of the fragrance, where the main "lily" scent resides. These notes are fuller and last longer than the top notes.</p> <p>Lily/Lily of the Valley: This is the star of the show, providing the classic, clean, and slightly sweet floral aroma.</p> <p>Other White Florals: Notes like jasmine, magnolia, or tuberose are often blended in to create a rich, floral bouquet that complements the lily.</p> <p>Rose or Ylang Ylang: These can add a layer of soft, classic floral richness.</p>
Base Notes	<p>These are the deepest notes that emerge as the fragrance dries down and provide the scent's longevity on fabric. They are often described as warm and grounding.</p> <p>Musk: A clean, white musk is a staple in laundry fragrances, giving a soft, "freshly washed" feeling that lingers.</p> <p>Woody Notes: Light woods like sandalwood or cedarwood can add a subtle warmth and depth to the scent.</p> <p>Amber or Vetiver: These can provide a touch of richness and a long-lasting, comforting finish.</p>

Technical Parameter:

Odor Profile	Lily Fragrance Essence
Appearance	Clear, colorless to pale yellow liquid
Fragrance Concentration	
Relative density	Usually in the range of 0.950 - 1.050 (g/cm ³ @ (20°C))
Refractive index	1.450 - 1.550 (20°C)
Flash point	> 65.5°C
pH	Not applicable for the neat fragrance essence; product-specific for the finished laundry product.
Usage Rate in Wax	0.2% - 0.5% (w/w)
Thermal Stability	Good
Solubility	Soluble in alcohol, propylene glycol, and other solvents; dispersible or soluble in water
IFRA Compliance	Complies with the latest IFRA standards, no banned substances
Stability	Stable over the pH range of 4.0 - 8.0,Suitable for mainstream laundry detergent and softener formulations.
Longevity	≥ 48 hours
Storage Conditions	Store tightly closed in a cool, dry place (15-25°C) away from light.

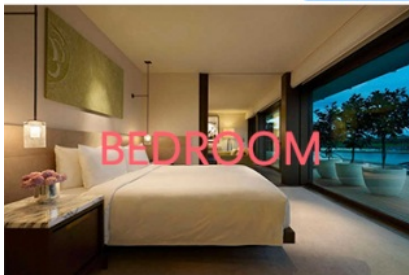

FUNCTIONS & APPLICATIONS

The primary function of a lily fragrance essence in laundry products goes beyond simply smelling good. It is a carefully engineered component designed to enhance the consumer experience and communicate a sense of "clean." The scent serves several key roles:

Scent Branding	A distinctive lily fragrance can become a signature scent for a brand, creating a memorable and recognizable product. This helps build brand loyalty and influences consumer purchasing decisions.
Psychological Association	The clean, floral aroma of a lily is often associated with purity, freshness, and nature. This scent helps to reinforce the perception that the clothes are not only clean but also sanitized and pure. The scent can evoke positive memories and emotions, such as a feeling of comfort and well-being.
Odor Masking	The strong, pleasant scent of the lily essence effectively masks and neutralizes unpleasant odors from sweat, mildew, and other sources, both during the wash cycle and after the clothes are dried.
Longevity	A key function is to ensure the fragrance lasts on the fabric long after washing. The fragrance essence is formulated with ingredients that bind to fabric fibers, providing a long-lasting, fresh scent that can be reactivated by movement or body heat.

applications

BEDROOM

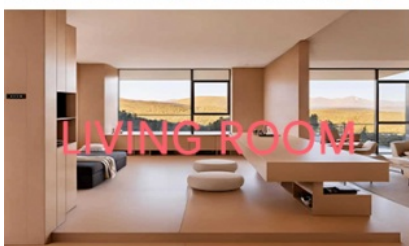

Coffee House

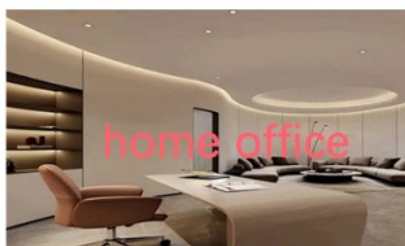

library/study

BATHROOM

LIVING ROOM

home office

The "Lily Fragrance Essence" is a versatile raw material used in a variety of cleaning and personal care products. Its primary applications are in:

Laundry Detergents	It is a core ingredient in both liquid and powder detergents, providing the fresh scent that is released during the wash and rinse cycles. The fragrance helps signify a successful clean to the consumer.
Fabric Softeners	In fabric softeners, the lily fragrance works to both soften fabrics and impart a pleasant, long-lasting scent. This application is particularly important as the scent is the last thing to linger on clothes before they are worn.
Laundry Scent Boosters	These products are specifically designed to provide an intense and long-lasting fragrance to laundry. A lily essence would be a key component, offering a strong, clean scent that can last for weeks.
Other Household Cleaners	The clean and fresh profile of a lily scent is also well-suited for a range of other cleaning products, including multi-surface cleaners, air fresheners, room sprays, and floor cleaners. Personal Care Products: Beyond laundry, the lily fragrance is a popular choice for personal care items such as soaps, body washes, lotions, and bath products, due to its association with purity and elegance.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
-----------	-----	---------------	--------

Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
