Product Description

Concentrated Hilton Essence Fragrance For Perfume Making Free Sample

LDZ-PL10135

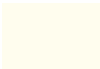

Product Description

Concentrated Hilton Essence is a professional fragrance oil designed to capture the clean, sophisticated, and welcoming aroma of a high-end hotel lobby. This complex scent is carefully constructed to evoke a sense of refined luxury and tranquility, making it a highly desirable component for a wide range of applications.

The fragrance culminates in a soft and sensual base. The foundation is built on a very light, clean Musk that gives the scent its long-lasting, skin-like quality. This is often enhanced with creamy, woody notes like Sandalwood and the warm, embracing richness of Amber, which adds a final layer of sophistication and ensures a memorable, lingering presence that is both comforting and inviting.

Product Features

Concentrated Hilton Essence is a masterfully crafted fragrance that mimics the sophisticated and clean ambiance of a luxury hotel lobby. Its layered structure is designed to be both refreshing and comforting, with a scent that unfolds gracefully over time.

To p N o t e s	The initial impression is a bright and invigorating blend of fresh, green, and herbal notes. It typically opens with the crisp, clean aroma of White Tea and the herbaceous, slightly spicy scent of Thyme. These are often complemented by a subtle citrus lift from Bergamot or Lemon, or a touch of refreshing Cucumber or Watery Greens.
Mi dd le N o t e s	As the fragrance settles, it reveals its delicate and elegant heart. The middle notes are a beautiful fusion of soft florals and gentle spices. A core of White Tea Leaves continues from the top, while a floral bouquet of Rose and Violet introduces a romantic and powdery softness.
Ba se N o t e s	The final, lasting impression is a warm, clean, and inviting dry-down. The base notes are crucial for the fragrance's longevity and are built around a very light, clean Musk. This is often paired with the creamy, smooth woodiness of Sandalwood and the comforting resinous warmth of Amber.
