Product Description

Concentrated Di or Queen Essence Fragrance Oil For Diffusers & Reed Sticks LDZ-PL30139

Product Description:

"Concentrated Di or Queen Essence Fragrance Oil" is a professional-grade fragrance oil crafted for home scenting, particularly for use in diffusers and reed sticks. While "Di or Queen" is not an official Di or fragrance, this essence is a creative interpretation inspired by the luxurious and sophisticated olfactory profile of the Di or brand's feminine creations, often drawing from fragrances like Miss Di or.

Product Feature:

Based on the professional interpretation of similar fragrance profiles and market trends for "Di or Queen Essence," which is a creative interpretation of the Miss Di or brand, here is a detailed breakdown of its likely notes.

| | |
|--------------|---|
| Top notes | The initial diffusion is a bright and captivating introduction. It is characterized by a luminous blend of Italian Bergamot and Mandarin Orange, providing a fresh and zesty citrus burst that is both uplifting and elegant. This is often paired with a hint of a green, slightly spicy note like Pink Pepper, which adds a modern and energetic nuance, setting the stage for the complexity to come. |
| Middle notes | As the scent blossoms, the heart of the fragrance reveals a rich, floral bouquet. This central accord is dominated by the queen of flowers, Rose, often a sophisticated mix of Rose de Grasse and Damascus Rose, providing a velvety, romantic, and slightly honeyed aroma. This is beautifully intertwined with the heady and intoxicating scent of Jasmine, a core note in many Di or fragrances, which adds a creamy, sensual depth. |
| Base notes | The fragrance settles into a warm and lasting foundation, designed for a luxurious and enduring presence in a room. The base notes typically feature the earthy and woody scent of Patchouli, which grounds the fragrance and gives it a sophisticated, chypre-like character. This is often softened and made more inviting by a clean and subtle Musk, ensuring a smooth and delicate finish that lingers elegantly in the air. |

Technical Parameter:

| | |
|---------------------------|--|
| Concentration | Fragrance Oil Content $\geq 95\%$ |
| Fragrance Profile | Fruit Fragrane |
| Appearance | Colorless to light yellow transparent liquid |
| Relative density | Approx. 0.950–1.050 g/cm ³ @ 25°C |
| Refractive index | 1.460–1.560 @ 20°C |
| Flash point | above 141°F or 60.5°C |
| Ingredients | Natural & Synthetic Aromatic Compounds |
| Recommended Dosage | ranging from 15% to 25% by weight. |
| Volatilization rate | With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters. |
| Solubility | Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula |
| Compatibility | Compatible with most anionic, nonionic, and zwitterionic surfactants |
| Shelf Life | 12-24 months when stored in a cool, dark place in a sealed container. |
| Standard(IFRA Compliance) | It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments. |

FUNCTIONS & APPLICATIONS

The primary function of this concentrated fragrance oil is to serve as the aromatic component for reed diffusers and other cold-air home scenting systems. Its high concentration and carefully calibrated viscosity allow it to be seamlessly blended with a carrier or diffuser base oil (e.g., DPG or Auego Clean Multi). Unlike fragrance oils for other applications, this specific formulation is optimized for "cold throw"—the ability to consistently and effectively disperse scent into a room at ambient temperatures without the need for heat or electricity. The oil's composition ensures it wicks efficiently up the porous reed sticks via capillary action, providing a steady and long-lasting scent release that can fill a space for weeks or even months. This function provides a low-maintenance, flameless, and safe alternative to candles, making it ideal for continuous ambiance.

The versatility and high quality of this fragrance oil make it suitable for a variety of home fragrance applications:

| | |
|-------------------------------|---|
| Reed Diffusers | This is its primary and most common application. When blended with a proper diffuser base, it creates a stable and potent solution that uses rattan or fiber reeds to passively scent a room, making it perfect for entryways, bathrooms, or offices. |
| Electric/Ultrasonic Diffusers | While some electric diffusers use water, many are designed for fragrance oils. This oil can be used undiluted or diluted as per the diffuser's instructions to produce a fine, fragrant mist that quickly permeates a space. |
| Scented Potpourri | A few drops of the oil can be added to dried botanicals or potpourri to refresh their scent and extend their life, making them an excellent decorative and fragrant accent. |
| Scented Ornaments and Sachets | The oil can be applied to ceramic or wooden ornaments and sachets for use in drawers, closets, or cars, providing a subtle, personal scent. |
| DIY Room Sprays | The oil can be diluted with a water/alcohol or spray base to create a custom room spray for an instant burst of the Di or Queen fragrance. |

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1. Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
5. Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

| Pack Type | QTY | Specification | Volume |
|----------------|----------|--|----------|
| Plastic Bottle | 5kgs | L41*W28*H33.5cm 5kg*4 bottle per carton | 0.038cbm |
| Metal Barrel | 25kgs | D30*H45cm | 0.032cbm |
| Jerry Can | 20-25kgs | L29.5*D29.5*H41cm | 0.33cbm |

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
