Product Description

Concentrated Black Currant Essence Oil For Diffusers & Reed Sticks

LDZ-PL30330

Product Description

Immerse your space in the luxurious and sophisticated aroma of our Concentrated Black Currant Essence Oil. This fragrance captures the rich, complex profile of black currants in a way that is both fruity and refined. The initial impression is a vibrant and juicy burst, reminiscent of a freshly picked cluster of ripe berries. This top note is brightened by subtle hints of tartness and a whisper of green, leafy accord, which prevents the fragrance from becoming overly sweet and adds a layer of natural authenticity.

As the aroma develops, it reveals a deeper, more sensual heart. Here, the essence of the black currant becomes more robust, mingling with a soft, jam-like sweetness that is both comforting and opulent. This middle note is elegantly balanced, with a touch of rose and geranium adding a delicate floral dimension that enhances the fruit's natural depth without overshadowing it. The experience concludes with a warm and woody base of oakmoss and a hint of earthy musk. This foundation provides a sophisticated anchor, grounding the fruity and floral notes and ensuring a long-lasting, alluring presence. This essence oil is perfect for creating an atmosphere of warmth, elegance, and subtle richness in any room.

Product Features

Our Concentrated Black Currant Essence Oil is a meticulously crafted fragrance designed to be a multi-faceted olfactory journey. The scent is structured in a classic three-tiered note system, ensuring a dynamic and evolving aroma from the moment it is diffused.

T o p n o t e s	The experience begins with a vibrant and energetic burst of black currant. This initial impression is characterized by its juicy, tart, and slightly green profile, reminiscent of the freshly picked berries and their leaves. Complementing this, subtle citrus nuances, such as bergamot, provide a sparkling and zesty lift, creating a captivating and invigorating opening.
M i d d l e n o t e s	As the top notes gracefully recede, the heart of the fragrance unfolds. The rich and complex character of black currant deepens, transforming into a sweeter, more jam-like accord. This is beautifully balanced by a sophisticated floral bouquet of delicate rose and the soft, slightly powdery essence of jasmine. These floral notes add an elegant, velvety texture that prevents the fruitiness from becoming one-dimensional.
B a s e n o t e s	The final stage of the fragrance journey is a warm and enduring finish. The base is anchored by earthy and mossy notes of oakmoss, which provide a deep, grounding foundation. A touch of sensual musk adds a layer of rich sophistication, while a whisper of cedarwood lends a subtle woody warmth, ensuring the fragrance leaves a lasting and refined impression.

Technical Parameters

Concentration	Fragrance Oil Content $\geq 95\%$
---------------	-----------------------------------

Fragrance Profile	Fruit Fragrance
Appearance	Colorless to light yellow transparent liquid
Relative density	Approx. 0.880 - 0.900 g/cm ³ @ 25°C
Refractive index	1.490 - 1.500 @ 20°C
Flash point	above > 70°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	ranging from 15% to 25% by weight.
Volatilization rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	The essence oil is formulated to be soluble in other oil-based carriers, which is the standard for reed diffuser bases and is essential for maintaining a stable and clear solution. It is not designed for use in water-based formulas without an emulsifier.
Viscosity	The fluid consistency is carefully controlled to optimize the oil's performance. It allows for efficient saturation of reed sticks and prevents clogging in atomizer and ultrasonic diffusers, ensuring a smooth and continuous fragrance release.
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard (IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

Functions & Applications

Diffusers & Humidifiers	The oil is formulated to disperse efficiently in both ultrasonic and nebulizing diffusers, filling a space with a consistent and long-lasting aroma. Its rich, fruity notes make it perfect for creating a warm and welcoming ambiance in living rooms, dining areas, or retail spaces.
Reed Sticks	When used with reed sticks, the oil provides a continuous and low-maintenance fragrance. The captivating scent of black currant is known for its ability to uplift the spirit and create a feeling of comfort and luxury. This application is ideal for offices, bathrooms, and other smaller areas where a steady, subtle scent is desired to promote a positive and productive environment.
DIY Products	The concentrated nature of the oil makes it an excellent base for a range of homemade fragrance products. It can be used as a key ingredient in candle making, added to a carrier for a custom room spray, or blended into sachets for a personal touch in closets and drawers. Its complex profile blends well with other fragrances, offering endless possibilities for custom creations.
Odor Neutralization	The bold, fruity notes of black currant are highly effective at neutralizing unwanted odors. When diffused, the oil can help to refresh a stale atmosphere, leaving behind a clean and revitalized scent. This is particularly useful in areas that may accumulate a variety of smells, such as kitchens or basements, providing a powerful yet pleasant solution.
