

## Concentrated Miss Sweetheart Fragrance Oil For Professional Perfumery

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10289
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

#### Product Specification

- Scent: Floral,Spicy,green Apple,Woody,Sweet
- Type: Parfum,Eau De Parfum,body Spray,fragrance Mist,body Mist
- Gender: Female,Male
- Usage: Deodorant,moisturing,refreshing,Body Care,Useful
- Fragrance: Jasmine,Lemon,Rose,green Apple,Pink Velvet
- Sample Lead Time: 1-3days
- Service: OEM ODM Accept
- Product Name: Body Mist,Fragrance Mist,Best Natural Lavender Fragrance Skin Refreshing Body Mist,Perfume,Essential Oil Mosquito Repellent
- Sample: Available,Free(Freight Paid By Buyer),For Free
- Age Group: Adults

## Product Description

### Concentrated Miss Sweetheart Fragrance Oil For Professional Perfumery

LDZ-PL10289

This concentrated fragrance oil is a multifaceted and captivating blend designed for professional perfumery applications. It presents a sophisticated gourmand profile with a playful, fruity-floral heart, offering a harmonious balance of sweetness and elegance.

This concentrated fragrance oil is a multifaceted and captivating blend designed for professional perfumery applications. It presents a sophisticated gourmand profile with a playful, fruity-floral heart, offering a harmonious balance of sweetness and elegance.

## Fragrance Profile

Miss Sweetheart Fragrance Oil is not a single, universally defined scent, but rather a descriptor used by various suppliers for a sweet, often gourmand, floral, and fruity profile. As such, the specific notes can vary. However, a common and professionally accepted interpretation of this fragrance involves a well-structured pyramid of notes.

Top Notes	The initial impression is a vibrant and uplifting blend of fruity accords. Notes like crisp candy apple and juicy blackcurrant provide a playful, tart-sweet opening. This is often complemented by the succulent, plush character of plum or the bright zest of a sweet orange, creating an immediate and captivating allure.
Middle Notes	At the heart of the fragrance, a rich floral bouquet unfolds. The central note is typically a classic, romantic rose, lending a soft, velvety elegance. This is often enhanced by other white florals such as tuberose and jasmine, which add a creamy, voluptuous quality, while hints of orange blossom may provide a clean, luminous floralcy.
Base Notes	The dry-down reveals the fragrance's warm, comforting, and gourmand foundation. A creamy and addictive whipped cream or vanilla note dominates, creating a truly decadent sweetness. This is grounded by woody and resinous elements like sandalwood, amber, and vetiver, which provide depth and longevity. A soft musk provides a clean, skin-like finish that lingers beautifully.

## Technical Specifications

Product Name	Concentrated Miss Sweetheart Essence
Fragrance Profile	Floral & Fruit Aromatic
Flash Point	>170°F (>76°C)
Specific Gravity	0.9000 - 1.100 (approximate)
Appearance	Clear to slightly amber liquid
Middle Note Duration	2-4 hours
Base Note Longevity	6-8 hours or longer
Recommended Usage	5-15% in Eau de Toilette formulations

<b>Solubility</b>	it is typically soluble in alcohol and oil based, but not in water unless a solubilizer is used.
<b>Vanillin Content</b>	Typically very low or none
<b>Shelf Life</b>	12-24 months when stored properly
<b>IFRA Compliance</b>	Conforms to international safety standards

## Applications

Concentrated Miss Sweetheart Fragrance Oil functions as a primary aromatic component, or a "compound" in professional perfumery. Its purpose is to provide a complete and balanced scent profile that can be used as a stand-alone fragrance base or as a building block within a more complex formulation. The high concentration ensures potent scent delivery, excellent longevity, and a robust "throw" (the ability of a fragrance to project). It is designed to be highly stable in various matrices, preventing issues like discoloration, scent shift, or degradation over time. Its complex olfactive pyramid allows it to provide a full-bodied scent experience without the need for blending numerous individual aroma chemicals, making it a functional, efficient, and cost-effective choice for product development.

This fragrance oil's versatile and crowd-pleasing profile makes it suitable for a wide range of applications in the professional cosmetics, personal care, and home fragrance industries.

Fine Fragrance	It can be diluted with perfumer's alcohol to create Eau de Parfum, Eau de Toilette, or body sprays. It can also be blended with carrier oils to produce concentrated perfume oils or roll-ons.
Bath & Body Products	The oil is ideal for adding a luxurious scent to products like lotions, creams, body butters, and shower gels. Its stability is also crucial for cold and hot process soap-making.
Home Fragrance	It is a perfect choice for creating scented candles, wax melts, room sprays, and reed diffusers. Its flash point and stability are key for high-temperature applications.
Cosmetics	Due to its IFRA compliance, it can be safely incorporated into cosmetic formulations such as solid perfumes, lip balms, and bath bombs.

## Our Advantages

Our R&D team of PhDs and senior engineers continuously innovates to maintain product excellence. We provide customized solutions to meet specific aroma needs while optimizing quality and reducing production costs.

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA  
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

### Support & Services
