

Free Sample Cedar Essence Candle Fragrance Oil with Up to 40 Hours Burn Time and 1.2%-3% Add Ratio

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40159
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Fragrance Intensity: Medium
- Packing Way: Plastic Or Iron
- Safety Features: Lead-free Wick, Non-toxic Ingredients
- Ingredients: Natural And Synthetic Fragrance Oils, Soy Wax, Cotton Wick
- Made In: China
- Burn Time: Up To 40 Hours
- From: Liquid Concentrate Oil
- Other Name: Candle Scent Oil
- Kinds: Over 4000 Kinds
- Appearance: Liquid Fragrance Oil
- Ingredient: Contain Herbal Extract
- Sample: Free Samples
- Add Ratio: 1.2%-3%
- Wick: Lead-free Cotton Wick

Product Description

Free Sample Cedar Essence Candle Fragrance Oil Natural Plant Extract

LDZ-PL40159

Product Description

Cedar Essence Candle Fragrance Oil is a sophisticated and grounding fragrance designed to evoke the warm, woody, and aromatic qualities of the cedar tree. This scent is a popular choice for creating a cozy, natural, and inviting atmosphere, often associated with rustic cabins, crisp autumn air, and a sense of tranquility.

The fragrance profile is built around the rich and multifaceted aroma of cedarwood. Unlike some other woods that can be overly pungent or smoky, cedar offers a clean, dry, and slightly sweet scent. It has a characteristic pencil-shaving or sawdust note that is instantly recognizable and comforting.

Product Features

Cedar Essence Candle Fragrance Oil is a carefully composed scent that captures the complex and comforting aroma of cedarwood by structuring its notes into a classic three-tiered pyramid.

T o p n o t e	<p>The initial impression is typically a fresh and invigorating blend. To prevent the scent from being too heavy from the start, a perfumer will often introduce crisp, green notes such as pine needles or eucalyptus, which evoke the freshness of a forest. A bright, zesty citrus like bergamot or a hint of camphor can also be used to add a sharp, clean lift to the opening, making the fragrance feel vibrant and energetic from the first moment it's perceived.</p>
M i d d l e n o t e	<p>The heart of the fragrance is where the true character of the cedar is fully realized. Here, the deep, warm, and slightly dry aroma of cedarwood takes center stage. This core note is often enriched and given more dimension with complementary woody and spicy accords. Notes like sandalwood, vetiver, or a touch of smoke might be blended in to create a richer, more complex wood profile. Spices such as clove, nutmeg, or even a hint of pepper can be added to provide a subtle warmth and a touch of earthiness that enhances the natural feel of the cedar.</p>
B a s e n o t e	<p>The base notes of this fragrance are designed for longevity and to provide a smooth, lasting finish. Anchoring the scent are typically notes of rich amber, musk, or a warm, slightly sweet note like vanilla or tonka bean. These base accords not only help the fragrance last longer in the air but also give it a cozy, well-rounded, and comforting quality that settles beautifully, making the ambiance feel complete and inviting.</p>

Technical Parameters

Fragrance Profile	Orange Blossom Essence notes
Appearance	Clear to pale yellow liquid
Relative density	Between 0.905 and 1.106 g/cm ³ @ 25°C
Refractive index	1.43 - 1.55 @ 20°C
Flash point	Typically > 200°F (> 93°C)
Ingredients	Natural & Synthetic Aromatic Compounds
Volatile organic compound (VOCs) content	< 1% - Environmentally friendly formula that meets regulatory standards such as the California Air Resources Board (CARB)
Recommended Dosage	6% to 12% by weight, depending on the specific wax type

Thermal diffusion performance	Excellent. It can fill a space of 20-30 square meters in 3-5 minutes after lighting
Cold Throw	Excellent - Has a noticeable aroma even when unburned
Hot Throw	Excellent - The aroma spread is strong and steady while burning
Wax Compatibility	Excellent - Blends seamlessly with a variety of common waxes, including soy wax, beeswax, coconut wax, paraffin wax, and blends, without affecting the wax structure or combustion performance
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	Store in a cool, dark place, shelf life 24 months
Standard (IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments

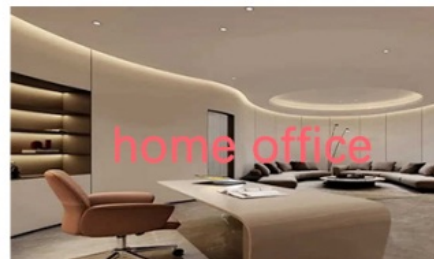

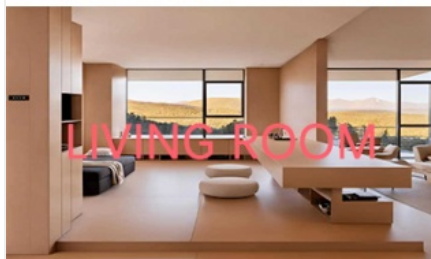

Functions & Applications

As a professional fragrance compound, Cedar Essence Candle Fragrance Oil serves a dual function: it acts as a primary scenting agent and a foundational blending component. Its robust and grounding aromatic profile allows it to stand alone as a single-note fragrance or to be harmoniously integrated into more complex scent compositions.

Sc ent Im pa rta tio n	The primary function is to deliver a consistent, clean, and authentic woody aroma. It is formulated to replicate the dry, warm, and slightly sweet notes of cedarwood, creating a natural and comforting scent experience. This makes it an ideal choice for products aiming to evoke a feeling of warmth, masculinity, and connection to nature. The fragrance's composition ensures it maintains its integrity and profile throughout the burn life of a candle.
Olf act or y An ch ori ng	Beyond its own scent, Cedar Essence functions as a critical base and fixative note in fragrance blending. Its inherent tenacity and deep character allow it to ground more volatile top and middle notes, preventing them from dissipating too quickly. This property is highly valued by perfumers and chandlers for creating long-lasting, multi-layered fragrances. It provides a solid foundation that adds depth, complexity, and longevity to the overall scent profile.

applications

Home Fragrance Products	This fragrance oil is a staple in the creation of home fragrance products. It is extensively used in candles, wax melts, and reed diffusers due to its powerful and stable scent throw. Its woody aroma is particularly well-suited for creating a cozy and inviting atmosphere in living rooms, studies, and bedrooms, especially during the autumn and winter seasons. Its performance across different wax types ensures it is a versatile and reliable choice for manufacturers.
Personal Care and Grooming	Cedar Essence is frequently utilized in the men's grooming and personal care sectors. Its warm and earthy notes are a common component in colognes, aftershaves, soaps, and body washes marketed towards a masculine audience. Its natural, clean scent also lends itself well to "unisex" or "gender-neutral" product lines, such as handcrafted soaps and bath bombs, where a clean, non-floral, and non-sweet profile is desired.
Insect Repellents and Aromatherapy	The natural compounds found in cedarwood have a history of use as a deterrent for moths and other insects. This fragrance oil is often incorporated into products like drawer sachets and wardrobe fresheners. In aromatherapy applications, the warm, woody scent is utilized for its reputed calming and grounding effects, making it a popular choice for massage oils or diffuser blends intended to promote relaxation and reduce stress.

applications

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging:

Pack Type	QTY	Specification	Volume
-----------	-----	---------------	--------

Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air, by truck, and by express, according to the clients requirements.
