Product Description

Concentrated Tobacco Oud Fragrance Essence for Perfume Making

LDZ-PL10355

Product Description

The "Tobacco Oud" essence is a rich, smoky, and sophisticated accord, famously popularized by Tom Ford's Private Blend collection. It is highly valued in perfume making for creating dark, warm, and luxurious fragrances, generally suited for colder seasons and evening wear. This combination results in a compelling, woody-spicy fragrance with a distinctly mature and elegant character. Perfume makers use this accord for its excellent longevity and strong, yet controlled, projection. It is often described as a dark, intense, and profoundly sophisticated blend.

Fragrance Profile

Top Notes	A bold, boozy, and slightly sweet opening, typically featuring Whiskey.
Middle Notes	The scent settles into a warm, aromatic core with Spicy Notes, Cinnamon, and Coriander.
Base Notes	This is where the depth lies. The smoky, resinous Oud (Agarwood) blends with a rich, dry Tobacco leaf note, reminiscent of a fine cigar lounge. Supporting notes include creamy Sandalwood, earthy Patchouli, warm Incense, Benzoin, Cedar, and a hint of Vanilla for subtle sweetness.

Applications

The Tobacco Oud fragrance essence is a powerhouse ingredient, offering a complex and luxurious profile that is highly valued in perfumery and product creation.

The primary function of Tobacco Oud essence is to serve as a long-lasting base note that anchors a fragrance and provides depth, warmth, and opulence. The combination of rich, aromatic tobacco leaf and dark, resinous oud wood creates a scent profile that is at once smoky, woody, spicy, and mysterious.

Olfactory Profile	It blends the warm, honeyed sweetness and dried-leaf aroma of cured tobacco with the exotic, deep, and often subtly animalic or "skanky" character of oud. This pairing results in a sophisticated scent of "dark and mysterious" sensuality.
Fixative and Longevity	Both tobacco and oud notes are heavy, long-lasting ingredients. As a base note, the essence helps extend the longevity of the entire fragrance composition, ensuring it leaves a powerful, lingering impression.
Blending and Enhancement	Tobacco Oud is a master blender, particularly well-suited for Oriental, Gourmand, and Woody-Spicy fragrance families. It can be paired with notes like whiskey (boozy notes), vanilla, cinnamon, coriander, patchouli, amber, and sandalwood to enhance its rich, dark, and sophisticated character. It adds a refined, mature elegance that is often associated with luxury and evening wear.

The essence's rich, versatile, and high-impact aroma makes it suitable for a wide range of perfumery and home fragrance products, where a dark, luxurious, and unisex scent is desired.

Fine Fragrances	It is an ideal choice for crafting Eau de Parfum, Eau de Toilette, and Attar Oils for both men and women, often suited for colder seasons and sophisticated evening settings. Its deep scent profile is perfect for creating signature, statement-making perfumes.
Home & Lifestyle Products	The intense and diffusive nature of the oil makes it excellent for candles, wax melts, and reed diffusers. It can be used to scent a living space, creating an opulent, warming, and sensual atmosphere, perfect for entertaining or relaxing.
Body & Bath Products	When formulated to be skin-safe, it is used in premium personal care items such as soaps, body wash, body lotions, creams, and bath bombs. In these applications, it imparts a long-lasting, sophisticated scent to the skin and provides an upscale, indulgent experience.
Other Applications	Due to its powerful throw and warm scent, it is also popular in car refreshers, room sprays, and linen sprays to infuse fabrics and smaller spaces with its dark wood and spiced tobacco aroma.
