

Artificial Berry Flavor Fragrance Oil for Shampoo Making with 20 Years Manufacturing Experience Stable pH 4.0 - 9.0 and 36 Months Shelf Life

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20128
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Volume: 5kg/bottle
- Packing: Plastic Or Iron Barrel
- Other Names: Fragrance Shampoo Gel
- Formulation: Liquid
- Grade: ISO Grade
- Origin: CN
- Odor: Characteristic Odor
- Ingredient: Contain Herbal Extract
- Appearance: Light Yellow Liquid
- Hair Type: All Hair Types
- Advantage: 20 Years Manufacturing Experience
- Function: Shampoo Making
- Highlight: **20 Years Manufacturing Experience Shampoo Fragrance Oil**
Stable pH 4.0 - 9.0 Artificial Berry Flavor

Product Description

Artificial Berry Flavor Fragrance for Shower Gel & Shampoo

LDZ-PL20128

The Artificial Berry Flavor Fragrance is a high-impact aroma compound specifically engineered for wash-off applications like shower gels and shampoos, where it provides an immediate, recognizable burst of sweet fruit. Unlike true essential oils, this artificial profile offers superior stability against the harsh pH and surfactant systems typical of cleansers, preventing degradation, oxidation, or off-notes over the product's shelf life.

The professional formulation is typically an olfactory blend of several berry types to create a "Mixed Berry" or "Wild Berry" profile. Key aromatic components often include Raspberry Ketone (Frambinone) for a sweet, jammy note, various esters (e.g., Ethyl Acetate) for lift and freshness, and traces of Ionones to impart subtle violet-floral depth, rounding out the sweetness.

Fragrance Profile

The Artificial Berry Flavor Fragrance for rinse-off applications is a sophisticated, multi-layered aromatic structure designed to maximize hedonic impact and substantivity. Its construction is optimized to deliver an intense, appealing scent experience that survives the rigorous chemical environment of shower gels and shampoos.

Top Notes	The Top Notes provide the critical initial impact, characterized by volatile, bright, and invigorating components. This layer typically features a sparkling blend of fruity aldehydes and light citrus esters, such as Ethyl Acetate and Limonene equivalents, often paired with the slightly tart and juicy lift of Wild Raspberry and Cranberry accords.
Middle Notes	The Middle Notes, or Heart, form the main character and body of the fragrance. This is where the primary "Berry Flavor" is fully realized, utilizing key synthetic molecules like Raspberry Ketone (Frambinone) for a sweet, jammy feel and specific Furanones for a rich, Strawberry or Blackberry sweetness.
Base Notes	The Base Notes are essential for anchoring the fragrance, ensuring performance during the rinse and providing a subtle, lingering trail. These include heavier, less volatile compounds such as soft, skin-compatible Musks and creamy Vanilla (often utilizing Ethyl Vanillin for color stability).

Technical Parameters

Product Name	Concentrated Versace Essence Fragrance Oil
Fragrance Profile	Woody-Oriental
Appearance	Clear to Pale Yellow or Amber Liquid
Relative Density	≈0.950 to 1.100 (at 25°C)
Flash Point	>70°C (>158°F)

Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
Recommended Usage	0.5% - 2.0% by weight
IFRA Compliance	Compliant with latest IFRA standards for Category 9 (Wash-Off Products)
pH Stability	Stable across pH 4.0 - 9.0
Solubility	Soluble in Alcohol & Surfactants
Vanillin Content	Low (typically <0.1%)

Functions and Applications

This artificial berry fragrance is primarily formulated to deliver a powerful, consistent sensory function in shower gel and shampoo. The bright, sweet, and recognizable profile (e.g., raspberry, strawberry, or a mixed berry accord) is engineered for instantaneous hedonic impact, creating a strong, positive consumer association during the brief lathering and rinsing phase.

From a technical function perspective, the artificial composition ensures excellent olfactive stability within the challenging surfactant-rich and pH-adjusted environments of cleansing products. Unlike natural extracts, the synthetic blend resists oxidation and hydrolysis, guaranteeing a consistent aroma from manufacture through the product's shelf life.

applications

BEDROOM

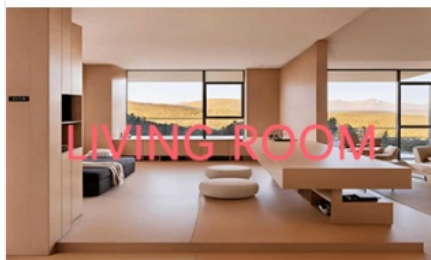

Coffee House

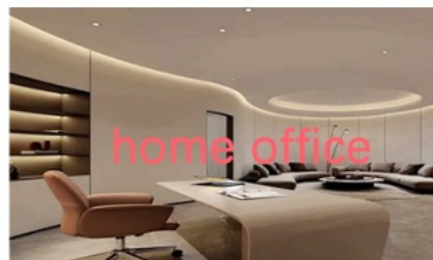

library/study

BATHROOM

LIVING ROOM

home office

Primary Applications

Shampoos and Conditioners designed for children or youthful themes

Shower Gels and Body Washes with "fun," seasonal, or gourmand themes

Specialty Bath Products including liquid hand soaps, bubble baths, and bath bombs

applications
