

## Freesia & Whisky Fragrance Oil with 10 Inches Reed Length and Delivery Within 5 Days for Diffusers

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL31047
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Country Of Origin: France
- Suitable Room Size: Medium To Large
- Fragrance Name: Diffuser Fragrances
- Scent Strength: Medium To Strong
- Storage Condition: Cool And Dry Place
- Fragrance Family: Floral
- Reed Color: Natural
- Storage: Dry Cool Dark Place
- Delivery: Within 5 Days
- Reed Length: 10 Inches
- Odor: Characteristic Odor
- Scent Distribution: Even
- Samples: Free Samples
- Highlight: 10 Inches Reed Length Fragrance Oil , Delivery Within 5 Days Diffuser Fragrance, Freesia & Whisky Fragrance Oil

## Product Description

### Free Samples Freesia & Whisky Fragrance Oil For Reed Sticks & Diffusers

LDZ-PL31047

#### Product Description

The Freesia & Whisky Fragrance Oil is a sophisticated, contrasting scent designed to blend delicate floral elegance with warm, spirited depth, making it a distinctive choice for diffusers. This unique combination centers on the bright, crisp, and slightly sweet Freesia note, which typically provides a clean, luminous, and uplifting floral bouquet, often accompanied by hints of muguet (lily of the valley) and soft citrus.

The "Whisky" component introduces a bold, Oriental, or Gourmand counterpoint. This translates into warm, rich base notes that often include elements like aged wood (oak or cedar), golden Amber, and a touch of Vanilla or subtle Tonka Bean to mimic the complexity and mellow sweetness of a fine spirit.

The ultimate profile is a captivating tension between opposites: the light, feminine bloom of the freesia and the masculine, smoky warmth of the whisky. It creates an intoxicating, complex aroma that is neither purely floral nor purely woody/spicy, offering an air of refined, cozy luxury perfect for creating a memorable and inviting ambiance in a den, library, or living space.

Product Features

The Freesia & Whisky Fragrance Oil is structured to create a captivating contrast, pairing luminous floral brightness with a rich, boozy warmth. While exact commercial formulas vary, the typical olfactory breakdown follows this design:

T o p N o t e s	The fragrance immediately presents the Freesia note. This is a very clean, light, and sometimes slightly peppery floral accord. It is often bolstered by citrus accents (like lemon or bergamot) or fresh green leaves to provide a crisp, airy, and uplifting initial impression. These notes are the most volatile and quickly draw the user in.
Mi d d l e N o t e s	The heart is where the freesia's delicacy meets a growing complexity. The Freesia bouquet settles and is often supported by other soft floral hints like muguet (lily) or rose. Crucially, the "Whisky" begins to emerge here, represented by spicy elements like a dash of pepper, ginger, or cardamom, providing a kick that transitions from the floral start to the darker base.
B a s e N o t e s	The final, lasting notes are all about the Whisky accord, which provides depth and longevity. This is typically constructed using tenacious materials that evoke the aged barrels and sweet spirit: rich Amber, deep Sandalwood or Cedarwood (for the woody barrel effect), and a comforting sweetness from Vanilla, Tonka Bean, or smooth Musk. This rich foundation anchors the entire scent.

## Technical Parameters

<b>Concentration</b>	Fragrance Oil Content $\geq 95\%$
<b>Fragrance Profile</b>	Fruit Fragrance
<b>Appearance</b>	Colorless to light yellow transparent liquid
<b>Relative density</b>	Approx. $0.930\text{--}1.080\text{ g/cm}^3$ @ $25^\circ\text{C}$
<b>Refractive index</b>	$1.420\text{--}1.580$ @ $20^\circ\text{C}$
<b>Flash point</b>	above $>93^\circ\text{C}$ / $>200^\circ\text{F}$
<b>Ingredients</b>	Natural & Synthetic Aromatic Compounds
<b>Recommended Dosage</b>	ranging from <b>15% to 25%</b> by weight.
<b>Volatilization rate</b>	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
<b>Solubility</b>	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
<b>Compatibility</b>	Compatible with most anionic, nonionic, and zwitterionic surfactants

<b>Shelf Life</b>	12-24 months when stored in a cool, dark place in a sealed container.
<b>Standard (IFRA Compliance)</b>	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

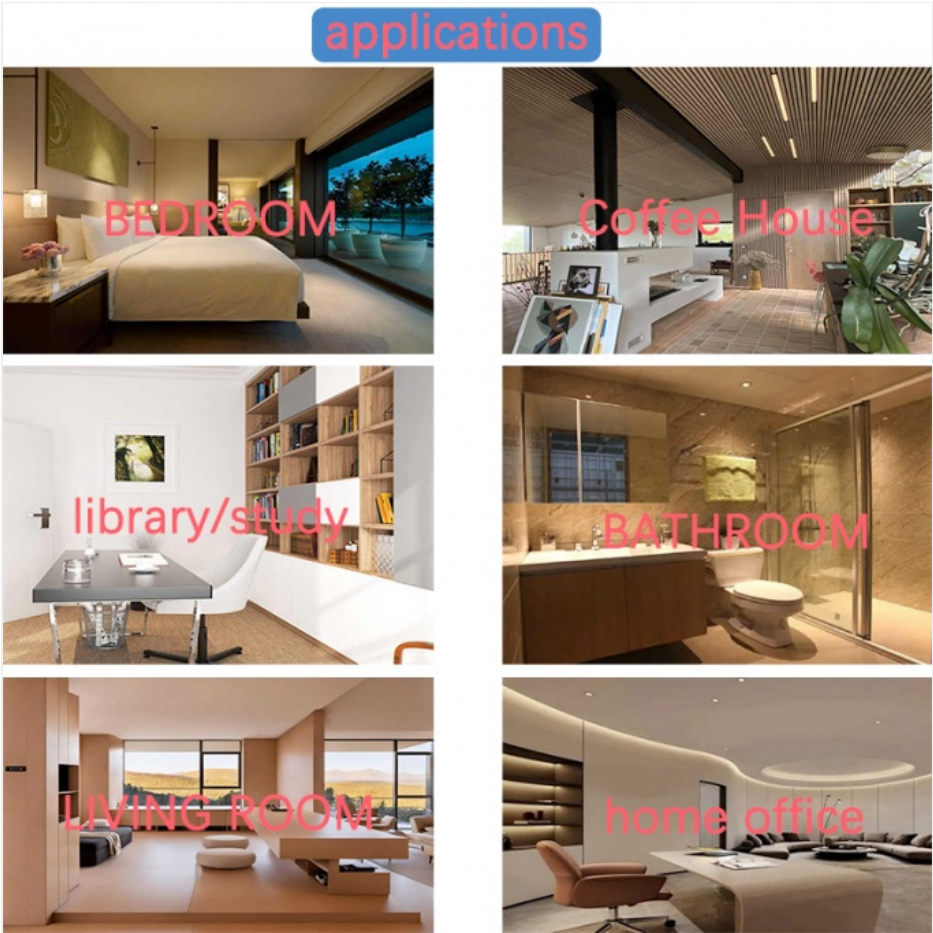

## Functions & Applications

This contrasting fragrance functions as a powerful mood setter, offering a unique dual benefit:

<b>Uplifting and Joyful</b>	Freesia's sweet, floral, and slightly crisp profile helps to refresh the mind, dispel mental fatigue, and promote positive thoughts. It's an ideal scent for boosting the mood and instilling a sense of springtime optimism.
<b>Clarifying</b>	The airy floral aspect helps to bring a sense of mental clarity and focus, making the overall atmosphere feel less heavy.
<b>Anchoring and Comforting</b>	The warm, boozy accord provides an element of cozy luxury and stability, reducing the light, fleeting quality of pure floral scents. It creates a sense of deep comfort and sensual relaxation.

<b>Balancing</b>	The blend balances the traditionally feminine floral with a traditionally masculine wood/booze note, resulting in a complex, intriguing scent that appeals broadly and is perfect for creating an atmosphere of elegant tranquility and welcome.
------------------	--

The versatile composition of Freesia & Whisky Fragrance Oil makes it suitable for various home and personal applications, leveraging its long-lasting, complex aroma:

<b>Reed Diffusers and Home Diffusion</b>	This is its primary application. As a complex blend, it offers a sophisticated, continuous scent throw in larger, shared living spaces like living rooms, dens, or home offices where a deep, layered fragrance is desired. It's particularly effective for creating a cozy, autumnal or winter ambiance.
<b>Flameless Home Scenting</b>	Ideal for use in electric diffusers, oil warmers, and the mentioned reed sticks, it provides a safe, flame-free way to maintain a persistent and inviting background scent that masks household odors effectively.
<b>Candles and Wax Melts</b>	The oil's rich base notes, derived from the "whisky" accord, lend excellent scent retention and 'hot throw' (the strength of the fragrance when burning), ensuring the sophisticated aroma fills the room beautifully.
<b>DIY Product Formulation</b>	Beyond home fragrance, this oil can be diluted and incorporated into fine-smelling products like room sprays, potpourri refresher oils, and is sometimes used (following dilution safety guidelines) in handmade soaps and lotions for an elegant, memorable, and balanced signature scent.

### Our Advantages

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support and Services

**We definitely have the fragrance essence oils you need!**

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.

The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

**Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.**

Where there are fragrance, there are plant flavor. The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- Product usage instructions and guidance;
- Expert advice on fragrance selection;
- Technical support for any issues or concerns;
- Product customization services;
- Assistance with regulatory compliance.

## Packing and Shipping

**Product Packaging:**

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

#### Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air, by truck, and by express, according to the clients requirements.
