Product Description

Free Sample Sage Essence Fragrance For Candle Making Popular

LDZ-PL40154

The "Sage Essence with Orange Blossom Essence" fragrance is a sophisticated, dual-profile scent that balances an earthy, herbaceous core with a bright, luminous floral top note, creating an aromatic blend often associated with tranquility and upliftment.

This fragrance is formulated to deliver a scent experience that is both grounding and airy. The Sage Essence provides an aromatic, slightly camphoric, and woody foundation, evoking a sense of cleansing and calm. This is beautifully contrasted by the Orange Blossom Essence, which contributes a sweet, delicate white floral and lightly citrusy note (often reminiscent of Neroli or Petitgrain). The overall effect is a clean, fresh, and slightly elegant aroma, making it highly desirable for luxury and spa-themed candles.

PLAN

Product Features

T o p N o t e	The scent immediately greets you with a sparkling and clean burst of Bergamot, Petitgrain, and fresh Orange Zest. These volatile citrus notes are instantly invigorating, often underscored by a hint of Green Foliage or crisp Eucalyptus to enhance the fresh, opening character. The top notes are quick to rise, drawing you in with their bright energy
M i d d l e N o t e	The fragrance then settles into its floral and herbal core. Here, the opulent, sweet, and honeyed scent of Orange Blossom Absolute (or Neroli) takes center stage, blended beautifully with the herbaceous, slightly tea-like, and sweet musk of Clary Sage. Additional delicate white florals like Jasmine or a whisper of Lavender are often included to enrich the middle note, forming the balanced, lasting body of the scent.
B a s e N o t e	The dry-down anchors the fragrance with a calming, earthy base that enhances the sage's natural profile. The lasting notes include Wood Sage for continued green depth, warm Sandalwood or Teakwood for a smooth, creamy woodiness, and a touch of light, clean Musk or Amber to ensure excellent fragrance throw and longevity in the candle.

Technical Specifications

Fragrance Profile	Orange Blossom Essence notes
Appearance	Clear to pale yellow liquid
Relative Density	≈0.90 to 0.96 g/cm ³ @ 25°C
Refractive Index	1.42 - 1.53 @ 20°C
Flash Point	≥200°F (≥93°C)
Ingredients	Natural & Synthetic Aromatic Compounds
VOC Content	< 1% - Environmentally friendly formula meeting CARB standards
Recommended Dosage	6%–10% by weight, depending on wax type
Thermal Diffusion	Excellent - Fills 20-30 sqm in 3-5 minutes after lighting
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent with soy, beeswax, coconut, paraffin, and blends
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing
Vanillin Content	0.0%
Phthalate Status	Phthalate-Free
Pour Temperature Stability	Excellent at 170°F–185°F

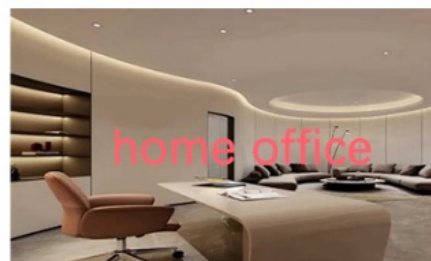

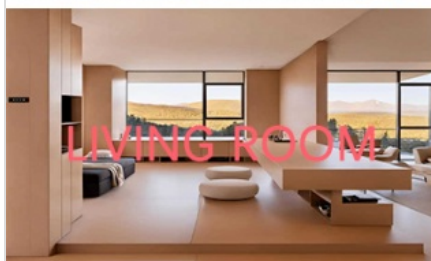

Functions & Applications

The blend of Sage Essence and Orange Blossom Essence creates a synergistic functional fragrance that targets both mental clarity and emotional tranquility. Sage, particularly Clary Sage, is an herbaceous essence renowned in aromatherapy for its grounding and restorative properties. It is often used to relieve stress, dispel mental fatigue, and promote a feeling of composure and calm focus. Its herbaceous-camphoraceous profile contributes to a refreshing and purifying atmosphere, supporting a sense of 'clearing' the air.

Conversely, Orange Blossom (Neroli) provides a sweet, delicate, and bright floral counterpoint, which is a powerful agent for emotional uplift. This essence is celebrated for its ability to soothe the nervous system, reduce anxiety, and combat insomnia, encouraging deep relaxation and a sense of well-being. The combination, therefore, functions as an "Uplifting Tranquility" blend: the Sage grounds and clears the mind, while the Orange Blossom brightens the mood and calms the heart. This makes the fragrance highly valuable for use during routines intended for both focused work and evening wind-down.

applications

The Sage Essence and Orange Blossom Essence fragrance oil is exceptionally versatile and well-suited for a premium range of product applications across the home fragrance, personal care, and wellness sectors.

Premium Scented Candles and Wax Melts	This is a primary application. The blend's complex, well-balanced profile appeals to upscale markets, providing a sophisticated scent with excellent hot and cold throw. It is ideal for "Spa" or "Self-Care" themed candle lines, positioned for use during meditation, bathing, or reading.
Reed Diffusers and Room Sprays	The fragrance is highly effective in passive scent delivery systems, providing a continuous, subtle aroma for living rooms, bedrooms, and home offices. The Sage notes lend a clean, crispness, while the Orange Blossom adds inviting warmth.
Bath & Body Products (If Skin-Safe Formulation)	Due to the known soothing and clarifying properties of the base essential oils, this fragrance is often incorporated into luxury body care. Products include facial mists (as a toner/hydrator), liquid hand soaps, body lotions, and bath oils, leveraging the relaxing and refreshing properties for a ritualistic experience.
Air Care Devices	Used in water-based or nebulizing diffusers, the blend acts as an air purifier and mood enhancer in professional environments like spas, clinics, or high-end retail spaces.

applications

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

R&D team with PhDs and senior engineers collaborating with universities
