Product Description

Concentrated Cha nel No. 19 perfume with 10kgs Volume Perfume Fragrance

Product Code: LDZ-PL11559

Cha nel No. 19, named after Co co Cha nel's birthday (August 19), is a legendary Floral Green fragrance created by Henri Robert in 1970. The concentrated version (Parfum or Extrait) is the deepest, richest, and most tenacious expression of this scent.

In the concentrated form, the Iris and Leather/Moss base notes are far more pronounced, giving the scent a velvety, musky depth that lingers for many hours. The initial green bite is rounded and smoothed into a plush, elegant aura.

Fragrance Profile

Top Notes	Assertive, Icy Green The opening is defined by Galbanum, which provides a sharp, highly verdant, and somewhat bitter green scent, often likened to crushed leaves or green sap. This is brightened by Bergamot and Neroli, lending a fleeting citrus and delicate floral soapiness before the powerful green takes over.
Heart Notes	Cool, Rooty Powder The heart is dominated by the luxurious, cool, and clean presence of Iris Pallida (Orris Root). This gives a distinctively dry, slightly starchy, doughy, or rooty powdery aroma. It is beautifully balanced by rich florals like Rose (May Rose) and Jasmine, adding a refined, almost velvety depth to the initial green sharpness.
Base Notes	Dark, Leathery Chypre The concentrated base is deep and long-lasting, providing the scent's aristocratic backbone. Notes of Oakmoss provide a classic, earthy, and damp forest-floor feel. This is intertwined with dry, smoky Vetiver, creamy Sandalwood, and a sensual touch of Leather and Musk, creating a powerful, velvety, and assertive dry-down that defines its aloof elegance.

Applications

The concentrated version of Cha nel No. 19 (Parfum/Extrait) is the most potent and luxurious form, designed for intimate wear and exceptional longevity. Its application is distinct from lighter concentrations like Eau de Toilette (EDT) or Eau de Parfum (EDP).

Primary Applications	
Intimate Signature Scent	The Extrait is best used for a personal, highly refined, and intimate scent cloud. Due to its high concentration, it sits closer to the skin with a velvety texture, providing rich depth without overwhelming diffusion. ⁵
Targeted Pulse Point Application	It is traditionally applied by dabbing onto the skin's pulse points—wrists, behind the ears, at the base of the throat, and inside the elbows. The warmth of these areas helps the low-volatile base notes (Iris, Leather, Oakmoss) bloom slowly over many hours.
Longevity Enhancement	It serves as a superior fixative for layering. Applying a small amount of the concentrated Parfum first provides a lasting woody-iris anchor, over which the lighter, sharper EDP or EDT of No. 19 can be sprayed to boost the green top notes.
Evening and Formal Wear	Its richness, depth, and unmistakable quality make it perfectly suited for evening events and formal occasions where elegance and sophistication are prioritized over high sillage.
